Learning to Kneel Carrie J. Preston, 2016-08-16 In this inventive mix of criticism scholarship and personal reflection Carrie J Preston explores the nature of cross cultural teaching learning and performance Throughout the twentieth century Japanese noh was a major creative catalyst for American and European writers dancers and composers The noh theater's stylized choreography poetic chant spectacular costumes and masks and engagement with history inspired Western artists as they reimagined new approaches to tradition and form In Learning to Kneel Preston locates noh's important influence on such canonical figures as Pound Yeats Brecht Britten and Beckett These writers learned about noh from an international cast of collaborators and Preston traces the ways in which Japanese and Western artists influenced one another Preston's critical work was profoundly shaped by her own training in noh performance technique under a professional actor in Tokyo who taught her to kneel bow chant and submit to the teachings of a conservative tradition This encounter challenged Preston's assumptions about effective teaching particularly her inclinations to emphasize Western ideas of innovation and subversion and to overlook the complex ranges of agency experienced by teachers and students It also inspired new perspectives regarding the generative relationship between Western writers and Japanese performers Pound Yeats Brecht and others are often criticized for their orientalist tendencies and misappropriation of noh but Preston's analysis and her journey reflect a more nuanced understanding of cultural exchange

Beyond Minimalism Enoch Brater, 1990-12-27 Beyond Minimalism explores Beckett's drama of the 70s and 80s examining the ways in which play text and performance merge through the playwright's poetic idiom Beginning with Not I and continuing through Catastrophe and What Where Brater examines the plays not only as texts but also as theater pieces Discussing the technical and aesthetic demands that productions like Footfalls and Rockaby make on actor director and spectator Brater clarifies the essential relationship between Beckett's achievement in the context of the breakdown of genre performance poetry and the electronic intrusion of the recorded voice as a new theatrical convention In the course of his analysis Brater demonstrates how Beckett's late style in the theater both continues and clarifies the dramatic lyricism that is the hallmark of earlier works such as Endgame and Waiting for Godot
