Coping with Africa's Refugee Burden: A Time for Solutions Robert F. Gorman, 2024-12-09 *Rights in Exile* Guglielmo Verdirame, Barbara Harrell-Bond, 2005-04-01 Of the estimated 12 million refugees in the world more than 7 million have been confined to camps effectively warehoused in some cases for 10 years or more Holding refugees in camps was anathema to the founders of the refugee protection regime Today with most refugees encamped in the less developed parts of the world the humanitarian apparatus has been transformed into a custodial regime for innocent people Based on rich ethnographic data *Rights in Exile* exposes the gap between human rights norms and the mandates of international organisations on the one hand and the reality on the ground on the other It will be of wide interest to social scientists and to human rights and international law scholars Policy makers donor governments and humanitarian organizations especially those adopting a rights based approach will also find it an invaluable resource But it is the refugees themselves who could benefit the most if these actors absorb its lessons and apply them **Sudanese Women Refugees** J. Edward, 2007-10-29 This book examines the social cultural economic and political transformations that have occurred among southern Sudanese women refugees as they experience life in Cairo Egypt It intends to show how these women use their newly acquired skills and knowledge to challenge their past and to challenge the image of women refugees as victims and dependents The author counters previous literature's tendency to categorize these women as victimized dependent and backwards rather than recognizing their strength and contributions to their new societies **The Point of No Return** Katy Long, 2013-08-29 *The Point of No Return* explores the politics that surround refugees return home It combines political theory historical research and grassroots fieldwork in Latin America and Africa to present a comprehensive picture of refugee repatriation through the 20th century *The Collective Responsibility of States to Protect Refugees* Agnès G. Hurwitz, 2009 This title analyses the concept of sharing responsibility between states for protecting refugees under international law and how this mechanism highlights serious concerns for the protection of refugees rights Refugee Economies Alexander Betts, Louise Bloom, Josiah David Kaplan, Naohiko Omata, 2017 This book explores the economic lives of refugees It looks at what shapes the production consumption finance and exchange activities of refugees to explain variation in economic outcomes for refugees themselves *Beyond Charity: International Cooperation and the Global Refugee Crisis* Gil Loescher, 1996-08-08 With more than 18 million refugees worldwide the refugee problem has fostered an intense debate regarding what political changes are necessary in the international system to provide effective solutions in the 1990s and beyond In the past refugees have been perceived largely as a problem of international charity but as the end of the Cold War triggers new refugee movements across the globe governments are being forced to develop a more systematic approach to the refugee problem *Beyond Charity* provides the first extensive overview of the world refugee crisis today asserting that refugees raise not only humanitarian concerns but also issues of international peace and security Gil Loescher argues persuasively that a central

challenge in the post Cold War era is to develop a comprehensive refugee policy that preserves the right of asylum while promoting greater political and diplomatic efforts to address the causes of flight He presents the contemporary crisis in a historical framework and explores the changing role of the Office of the United Nations High Commissioner for Refugees Loescher suggests short term and long term reforms that address both the current refugee crisis and its underlying causes The book also details the ways governmental structures and international organizations could be strengthened to assume more effective assistance protection and political mediation functions Beyond Charity helps frame the debate on the global refugee crisis and offers directions for more effective approaches to refugee problems at present and in the future

Refugees, Regionalism and Responsibility Penelope Mathew,Tristan Harley,2016-07-27 The ongoing refugee and migrant crisis in Europe has accelerated the need to find answers for refugee movements Refugees Regionalism and Responsibility examines regional cooperation as a potential solution Through a thorough assessment of past and present regional arrangements concerning refugees this book considers whether regionalism has resulted in protection and durable solutions for both refugees and participating states *Refugees in International Relations* Alexander Betts,Gil Loescher,2011

Drawing together the work and ideas of a combination of the world s leading and emerging International Relations scholars Refugees in International Relations provides a comprehensive and challenging overview of the international politics of forced migration **Encyclopedia of the Developing World** Thomas M. Leonard,2013-10-18 A RUSA 2007 Outstanding

Reference Title The Encyclopedia of the Developing World is a comprehensive work on the historical and current status of developing countries Containing more than 750 entries the Encyclopedia encompasses primarily the years since 1945 and defines development broadly addressing not only economics but also civil society and social progress Entries cover the most important theories and measurements of development relate historical events movements and concepts to development both internationally and regionally where applicable examine the contributions of the most important persons and organizations and detail the progress made within geographic regions and by individual countries **Protection by Persuasion**

Alexander Betts,2011-02-23 States located near crisis zones are most likely to see an influx of people fleeing from manmade disasters African states for instance are forced to accommodate and adjust to refugees more often than do European states far away from sites of upheaval Geography dictates that states least able to pay the costs associated with refugees are those most likely to have them cross their borders Therefore refugee protection has historically been characterized by a North South impasse While Southern states have had to open their borders to refugees fleeing conflict or human rights abuses in neighboring states Northern states have had little obligation or incentive to contribute to protecting refugees in the South In recent years however the Office of the United Nations High Commissioner for Refugees UNHCR has sought to foster greater international cooperation within the global refugee regime through special conferences at which Northern states are pushed to contribute to the costs of protection for refugees in the South These initiatives Alexander Betts finds in Protection by

Persuasion can overcome the North South impasse and lead to significant cooperation Betts shows that Northern states will contribute to such efforts when they recognize a substantive relationship between refugee protection in the South and their own interests in such issues as security immigration and trade Highlighting the mechanisms through which UNHCR has been able to persuade Northern states that such links exist Protection by Persuasion makes clear that refugee protection is a global concern most effectively addressed when geographic realities are overridden by the perception of interdependence

Mercy Under Fire Larry Minear, 2019-03-13 From Bosnia to Somalia and most recently from Rwanda to Angola and the Sudan humanitarian aid and international interventions have gone awry Although the need for humanitarian assistance has not diminished in the wake of the Cold War success stories will almost certainly be harder to come by This book addresses that grim prospect Based on sch *Forced to Flee* Peter W. Van Arsdale, 2006-08-04 The Modern Refugee Era began with the end of World War II An extensive literature has been created on the issue of refugees and other forcibly displaced persons during this period While much of this has focused on refugee flight and post flight *Forced to Flee* uniquely looks at the pre flight environment and the factors contributing to human rights violations therein It is due to these abuses that many people flee their homelands Author Peter W Van Arsdale presents first hand fieldwork conducted over a 30 year span in six refugee homelands ranging from Sudan to Bosnia This expert research bridges the emergent refugee and human rights regimes while addressing theories of obligation justice and structural inequality Van Arsdale also deftly tackles the difficult ideas of compassion suffering and evil and introduces the concept of pragmatic humanitarianism *Forced to Flee* is a comprehensive study that should be of great interest to scholars and practitioners of anthropology sociology social work political science and environmental studies The Uncertain Promise of Southern Africa York W. Bradshaw, Stephen N. Ndegwa, 2000 In the 1970s and 1980s Indiana University Press published a series of books edited by Gwendolen Carter and others on economic and political conditions in Southern Africa during the apartheid era *The Uncertain Promise of Southern Africa* is a return to that successful format in the post apartheid era Leading scholars analyze the economic political social and cultural conditions in Southern Africa and the prospects for the region The first part of the book examines the current political and development situation in six countries South Africa Namibia Botswana Zimbabwe Angola and Mozambique The second part focuses on issues of enduring importance in the region education health gender the law intra and inter regional power relations international commerce and popular culture **Nigeria in the Twenty-first Century** Emmanuel Ike Udogu, 2005 Political stability and peaceful coexistence among Nigeria s diverse nationalities are imperative for development and democratic consolidation and could serve as a model for the region and Africa as a whole This volume put together by leading Nigerian scholars addresses strategies for taming the military to avoid future coups solving the ethnic diversity question through national reconciliation de marginalising women in politics and society reducing human rights violations through the law and many other issues *African Refugees* Toyin Falola, Olajumoke Yacob-Haliso, 2023-01-03 African
