Catherine the Great and the French Philosophers of the Enlightenment Inna Gorbatov,2006 This research monograph is the result of many years of archival investigation in Russia France and elsewhere into the nature of Catherine the Great s involvement with the French Enlightenment Professor Gorbatov s conclusions go far beyond the consensus of philosophic and cultural interests masking an authoritarian and at times barbarous emerging European power and delves instead into Catherine s fascination with French political and social ideals Catherine s thirty four year reign was marked by a furious wholesale consumption of French arts and objets as well as a lavish patronage of French artists and philosophers Even Rousseau the self proclaimed enemy of monarchs was seriously studied though detested and debated by Catherine and her circle as the Czarina attempted to reform the educational system It is this theme of reform and renewal along with Europeanization that provides the great impetus of interest and patronage towards the philosophes and their ideas Professor Gorbatov also shows the effect of Catherine s interest on the higher aristocracy writers and emergent professional classes that was to reach a intellectual and political crisis upon the outbreak of the French Revolution the rise of Napoleon and her grandson s battles with the Decembrists Cassell's Natural History ,1854 **The Works of Eminent Masters in Painting, Sculpture, Architecture and Decorative Art** ,185? **Scenes of Familiar Life** Lady Frazer,1919 **Bulletin of the Atomic Scientists** ,1984-08 Bulletin of the Atomic Scientists ,1984-11
