The Climacteric in Perspective M Notelovitz, P a Van Keep, 1986-05-31 The Climacteric in Perspective M.

Notelovitz, P.A. van Keep, 2012-12-06 The Fourth International Congress on the Menopause was held in Lake Buena Vista Florida USA in October November 1984 It was different from the previous meetings held under the auspices of the International Menopause Society in three respects the duration of the Congress was extended to five days plenary sessions were held on each day and the scope of the subject matter was expanded to provide a total or holistic overview of the subject hence the theme for the Congress Climacteric Medicine and Science A Societal need In recent years there has been an increased interest in the menopause and middle year aging by scientists and clinicians in fields as diverse as anthropology urodynamics nutrition and exercise physiology while newer issues in clinical medicine such as osteoporosis prevention and management attracted specialists in nuclear imaging techniques and internal medicine Over 120 invited speakers plus numerous contributors to the free communication special lectures and the poster sessions provided a virtual cornucopia of information on the menopause that has indeed brought a newer perspective to a subject previously the domain of a single specialty the gynecologist and dominated by a single therapy estrogen replacement **Public Health Reports** ,1987

The Meanings of Menopause Ruth Formanek, 2013-05-13 In this scholarly compilation of a major event in the life of every woman editor Ruth Formanek has adopted an avowedly multidisciplinary mandate to illuminate menopause as both an event and a stage of life by gathering together a variety of discipline specific meanings and research perspectives The result is an admirably comprehensive study that not only charts the premodern meanings of menopause but proceeds to examine menopause from current biomedical endocrinological cultral and psychological perspectives Ample attention is give to the psychosocial influences on menopause and to cross cultural variations in the experience of and life adjustments that follow menopause Societal and familial attitudes toward menopausal women are also explored through an examination of women in classical and modern literature Clinical contributions review psychoanalytic perspectives on menopause elucidate the individual meanings of the menopausal experience uncovered in therapy and consider male views of menopausal women Collectively the contributors to this volume remedy the scant attention menopause has heretofore received in the psychological and psychotherapeutic literature They not only explore the range of issues associated with menopause but address these issues in the context of the various myths and superstitions about menopause that have endured over the centuries Essential reading for students of human development gender issues and women s studies The Meanings of Menopause is for helping professionals an invaluable source book on a life event fraught with psychological significance

Treatment of the Postmenopausal Woman Rogerio A. Lobo, 2007-06-05 For anyone who treats postmenopausal women this latest edition of Rogerio Lobo s classic work combines the best from two well known references Menopause and the second edition of Treatment of the Postmenopausal Woman By adding significant discussions of the basic science behind

menopause it is possible to objectively assess the clinical value and limitations of current approaches to treatment and provide a basis and rationale for strategies that will result in better individualized and specialized care Not only does the third edition discuss diagnosis and treatment of menopause but it covers biological anatomical physiological pathobiological and pharmacological aspects as well bringing together in one source all of the information needed to understand and treat postmenopausal conditions Over 50% new material representing the vast amount of information available since the Women's Health Initiative WHI clinical trials were completed making this the most up to date reference on postmenopausal women Includes several new sections on comparisons between clinical trials and observational data urology and pelvic support Each section is preceded by a preface to put the area into context with many chapters having suggested treatment regimens

Plant Developmental Biology - Biotechnological Perspectives Eng Chong Pua, Michael R. Davey, 2009-10-29 Many exciting discoveries in recent decades have contributed new knowledge to our understanding of the mechanisms that regulate various stages of plant growth and development Such information coupled with advances in cell and molecular biology is fundamental to crop improvement using biotechnological approaches Two volumes constitute the present work The first comprising 22 chapters commences with introductions relating to gene regulatory models for plant development and crop improvement particularly the use of Arabidopsis as a model plant These chapters are followed by specific topics that focus on different developmental aspects associated with vegetative and reproductive phases of the life cycle of a plant Six chapters discuss vegetative growth and development Their contents consider topics such as shoot branching bud dormancy and growth the development of roots nodules and tubers and senescence The reproductive phase of plant development is in 14 chapters that present topics such as floral organ initiation and the regulation of flowering the development of male and female gametes pollen germination and tube growth fertilization fruit development and ripening seed development dormancy germination and apomixis Male sterility and self incompatibility are also discussed

Aging and Menopause Among Indian South African Women Brian M. Du Toit, 1990-01-01 Du Toit contributes to the study of the climacteric as an important phase of the life cycle among women of different cultures the later reproductive and postreproductive years Drawing upon perspectives in anthropology sociology psychology and gerontology he demonstrates the need for an adequate cross cultural theory of aging among women and offers a solid body of research from South Africa in establishing a standard methodology for the study of the climacteric

The Slow Moon Climbs Susan Mattern, 2021-03-02 Are the ways we look at menopause all wrong Historian Susan Mattern says yes and *The Slow Moon Climbs* reveals just how wrong we have been Taking readers from the rainforests of Paraguay to the streets of Tokyo Mattern draws on historical scientific and cultural research to reveal how our perceptions of menopause developed from prehistory to today WorldCat

At the Interface of Culture and Medicine Earle H. Waugh, Olga Szafran, Rodney A. Crutcher, 2012-07-02 In this groundbreaking contribution to the field of culture and medicine twenty five professionals in medicine nursing and the social sciences have contributed fourteen papers

on the influence of culture in health care The topics range from the perception of skills of international medical graduates to conflicting expectations of patient care of various cultural groups to cultural issues at the end of life Health care educators practitioners sociologists policy makers and learners at all levels will find this book makes a significant foray into an underexplored sector of research Video at <http://www.youtube.com/watch?v=LSJCuGeE5M0>

levels Global Perspectives on Women s Sexual and Reproductive Health Across the Lifecourse will be an invaluable text for undergraduate and graduate courses in a wide range of fields including public health global health women s studies sociology anthropology gender studies and human rights **Women and Health** Marlene B. Goldman,Rebecca Troisi,Kathryn M. Rexrode,2012-12-31 Women and Health is a comprehensive reference that addresses health issues affecting women of all ages from adolescence through maturity It goes far beyond other books on this topic which concentrate only on reproductive health and has a truly international perspective It covers key issues ranging from osteoporosis to breast cancer and other cancers domestic violence sexually transmitted diseases occupational hazards eating disorders heart disease and other chronic illnesses substance abuse and societal and behavioral influences on health In this second edition of Women and Health chapters thoughtfully explore the current state of women s health and health care including the influences of sex and gender on the occurrence of a wide variety of diseases and conditions All chapters have been extensively updated and emphasize the epidemiology of the condition the etiology occurrence primary and secondary prevention screening risk factors surveillance changing trends over time and critical analysis of the diagnostic and treatment options and controversies Treatment sections in each chapter have been expanded to create a stronger dialogue between epidemiologists and women s health practitioners Saves researchers and clinicians time in quickly accessing the very latest details on a broad range of women s health issues as opposed to searching through thousands of journal articles Provides a common language for epidemiologists public health practitioners and women s health specialists to discuss the behavioral cultural and biological determinants of women s health Researchers and medical specialists will learn how the gender specific risks and features of one organ system s diseases affect the health of other organ systems For example Hormone replacement therapy used to treat imbalance within the endocrine system is also being used to prevent and treat cardiovascular disease Drugs developed for type 2 diabetes are now being used in chemoprevention Orients the non gerontologist about the importance of considering the entire life cycle of women within research designs and treatment plans Professors teaching courses in women s health will use slides and additional materials to structure lectures courses students will use slides as a unique resource to study for exams Chilling Tolerance and Regulation of Horticultural Crops: Physiological, Molecular, and Genetic Perspectives Shifeng Cao,Diane Maria Beckles,Maria F. Drincovich,Isabel Lara,Julian C. Verdonk,Qiong Lin,Chongde Sun,Reinaldo Campos-Vargas,2025-01-27 Chilling injury affects crops in the tropical and subtropical regions Damage can include surface pitting discolouration internal breakdown water soaking failure to ripen growth inhibition wilting loss of flavour and decay Post harvest handling of these crops within a cold chain system that maintains the desired temperature and humidity range is essential to preserving quality and shelf life To counter chilling injury crops have developed complex tolerance mechanisms These mechanisms include stress perception signal transduction transcriptional activation of stress responsive target genes and synthesis of stress related proteins and other molecules

Concurrently recent integration of molecular and omics based techniques to conventional breeding has vastly improved the screening efficiency of traits associated with chilling tolerance Thus understanding these physiological biochemical and molecular responses and tolerance mechanisms is crucial to developing engineering strategies enhancing cold stress tolerance

Oxidative Stress Responses in Plants ,2023-02-16 Oxidative Stress Response in Plants Volume 105 covers environmental stress conditions and the accumulation of reactive oxygen species ROS During many stress conditions such as salt drought heat and pathogen infection changes in metabolic fluxes and alterations in enzymatic activities result in the accumulation of ROS a major contributor to loss of growth and productivity High levels of ROS can lead to oxidative stress which damages proteins and DNA ultimately resulting in plant cell death This volume provides comprehensive insights into ROS biology in plants with a focus on plant growth and development plant defense responses and plant acclimation to challenging environments On the other hand ROS evolves into potent signaling molecules that play crucial roles in abiotic and biotic stress sensing integration of different environmental signals and activation of stress response networks thereby contributing to the establishment of improved stress resilience Provides a comprehensive overview of ROS biology in plants Focuses on the production processing and signaling roles of ROS in plants Written by world leading experts **A look at development ,**
