Seven studies of iconoclasm **Confrontation** Zvi Kolitz, 1993 **Judaism and Christianity in the Age of Constantine** Jacob Neusner, 1987-10-06 With the conversion of Constantine in 312 Christianity began a period of political and cultural dominance that it would enjoy until the twentieth century Jacob Neusner contradicts the prevailing view that following Christianity s ascendancy Judaism continued to evolve in isolation He argues that because of the political need to defend its claims to religious authenticity Judaism was forced to review itself in the context of a triumphant Christianity The definition of issues long discussed in Judaism the meaning of history the coming of the Messiah and the political identity of Israel became of immediate and urgent concern to both parties What emerged was a polemical dialogue between Christian and Jewish teachers that was unprecedented In a close analysis of texts by the Christian theologians Eusebius Aphrahat and Chrysostom on one hand and of the central Jewish works the Talmud of the Land of Israel the Genesis Rabbah and the Leviticus Rabbah on the other Neusner finds that both religious groups turned to the same corpus of Hebrew scripture to examine the same fundamental issues Eusebius and Genesis Rabbah both address the issue of history Chrysostom and the Talmud the issue of the Messiah and Aphrahat and Leviticus Rabbah the issue of Israel As Neusner demonstrates the

conclusions drawn shaped the dialogue between the two religions for the rest of their shared history in the West **The Jewish World In Modern Times** Abraham J Edelheit,Hershel Edelheit,2019-09-10 The momentous events of modern Jewish history have led to a proliferation of books and articles on Jewish life over the last 350 years Placing modern Jewish history into both universal and local contexts this selected annotated bibliography organizes and categorizes the best of this vast array of written material The authors have included all English language books of major importance on world Jewry and on individual Jewish communities plus books most readily available to researchers and readers and a select number of pamphlets and articles The resulting bibliography is also a guide to recent Jewish historiography and research methods

Transforming Conflict through Communication in Personal, Family, and Working Relationships Peter M. Kellett,Thomas G. Matyók,2016-11-15 A transformational approach to conflict argues that conflicts must be viewed as embedded within broader relational patterns and social and discursive structures Central to this book is the idea that the origins of transformation can be momentary situational and small scale or large scale and systemic The momentary involves shifts and meaningful changes in communication and related patterns that are created in communication between people Momentary transformative changes can radiate out into more systemic levels and systemic transformative changes can radiate inward to more personal levels This book engages this transformative framework by bringing together current scholarship that epitomizes and highlights the contribution of communication scholarship and communication centered approaches to conflict transformation in personal family and working relationships and organizational contexts The resulting volume presents an engaging mix of scholarly chapters think pieces and personal experiences from the field of practice and everyday life The book embraces a wide variety of theoretical and methodological approaches including narrative critical intersectional rhetorical and quantitative It makes a valuable additive contribution to the ongoing dialogue across and between disciplines on how to transform conflicts creatively sustainably and ethically Anti-Judaism in Early Christianity: Paul and the Gospels

Peter Richardson,David Granskou,Stephen G. Wilson,Canadian Corporation for Studies in Religion,1986-04-30 The period since the close of World War II has been agonizingly introspective not least because of the pain of reassessing Christianity s attitude to Judaism The early Christian materials have often been examined to assess their role in the long standing negative attitude of Christians to Jews The motivation for the early church s sometimes harsh attitude was partly theological it needed to define itself over against its parent and partly sociological it needed to make clear the line that divided the fledgling group of Christian believers from the group with which it was most likely to be confused This collection of studies emphasizes the context and history of early Christianity in reconsidering many of the classic passages that have contributed to the development of anti Judaism in Christianity The volume opens with an essay that clearly delineates the state of the question of anti Judaism in early Christianity Then follow discussions of specific passages in the writings of Paul as well as the Gospels

Jerusalem and Other Holy Places as Foci of Multireligious and Ideological Confrontation ,2020-12-07 Jerusalem

and Other Holy Places as Foci of Multireligious and Ideological Confrontation brings together the papers that were read at an international conference at the Schechter Institute in Jerusalem in May 2018. The contributions to this volume develop a multi disciplinary perspective on holy places and their development, rhetorical force and oft contested nature. Through a particular focus on Jerusalem, this volume demonstrates the variety in the study of holy places as well as the flexibility of geographic and historical aspects of holiness.

Controversy and Confrontation Frans H. van Eemeren, Frans Hendrik Eemeren, Bart Garssen, 2008. The essays that are collected in *Controversy and Confrontation* provide a closer insight into the relationship between controversy and confrontation that deepens our understanding of the functioning of argumentative discourse in managing differences of opinion. Their authors stem from two backgrounds. First, the controversy scholars Dascal, Marras, Euli, Regner, Ferreira and Lessl discuss historical controversies in science both from a theoretical and an empirical perspective. Saim concentrates on a historical controversy. Fritz provides a historical perspective on controversies by analyzing communication principles. Second, the argumentation scholars Johnson, van Laar, van Eemeren, Garssen and Meuffels address theoretical or empirical aspects of argumentative confrontation. Aakhus and Vasilyeva examine argumentative discourse from the perspective of conversation analysis. Jackson analyzes argumentative confrontation in a recent debate between scientists and politicians. Last but not least, two contributors, Kutrovitz and Zemlin, make an attempt to bridge the study of historical controversy and the study of argumentation.

A History of the Israeli-Palestinian Conflict Mark Tessler, 2009-03-24. Mark Tessler's highly praised comprehensive and balanced history of the Israeli-Palestinian conflict from the earliest times to the present, updated through the first years of the 21st century, provides a constructive framework for understanding recent developments and assessing the prospects for future peace. Drawing upon a wide array of documents and on research by Palestinians, Israelis and others, Tessler assesses the conflict on both the Israeli and the Palestinian terms. New chapters in this expanded edition elucidate the Oslo peace process, including the reasons for its failure and the political dynamics in Israel, the West Bank and Gaza at a critical time of transition.

Maimonides' Confrontation with Mysticism Menachem Kellner, 2006-09-21. Maimonides' vision of Judaism was deeply elitist but at the same time profoundly universalistic. He was highly critical of the regnant Jewish culture of his day which he perceived as so heavily influenced by ancient Jewish mysticism as to be debased. While focusing on that critique, Menachem Kellner skilfully and accessibly demonstrates how Maimonides used philosophy to purify a corrupted and paganized religion and to present distinctions fundamental to Judaism as institutional, sociological and historical rather than ontological. In Maimonides' hands, metaphysical distinctions are translated into moral challenges.

Rabbi Esriel Hildesheimer and the Creation of a Modern Jewish Orthodoxy David Ellenson, 2003-05-05. A thorough examination of the life and work of Rabbi Esriel Hildesheimer, an important contributor to the creation of a modern Jewish Orthodoxy during the late 1800s.

The Monotheists: Jews, Christians, and Muslims in Conflict and Competition, Volume I F. E. Peters, 2009-04-11. The world's three great

monotheistic religions have spent most of their historical careers in conflict or competition with each other And yet in fact they sprung from the same spiritual roots and have been nurtured in the same historical soil This book an extraordinarily comprehensive and approachable comparative introduction to these religions seeks not so much to demonstrate the truth of this thesis as to illustrate it Frank Peters one of the world s foremost experts on the monotheistic faiths takes Judaism Christianity and Islam and after briefly tracing the roots of each places them side by side to show both their similarities and their differences Volume I The Peoples of God tells the story of the foundation and formation of the three monotheistic communities of their visible historical presence Volume II The Words and Will of God is devoted to their inner life the spirit that animates and regulates them Peters takes us to where these religions live their scriptures laws institutions and intentions how each seeks to worship God and achieve salvation and how they deal with their own orthodox and heterodox and with others the goyim the pagans the infidels Throughout he measures but never judges one religion against the other The prose is supple the method rigorous This is a remarkably cohesive informative and accessible narrative reflecting a lifetime of study by a single recognized authority in all three fields The Monotheists is a magisterial comparison for students and general readers as well as scholars of the parties to one of the most troubling issues of today the fierce sometimes productive and often destructive competition among the world s monotheists the siblings called Jews Christians and Muslims

A History of Judaism Martin Goodman,2019-11-19 Judaism is one of the oldest religions in the world and it has preserved its distinctive identity despite the extraordinarily diverse forms and beliefs it has embodied over the course of more than three millennia A History of Judaism provides the first truly comprehensive look in one volume at how this great religion came to be how it has evolved from one age to the next and how its various strains sects and traditions have related to each other In this magisterial and elegantly written book Martin Goodman takes readers from Judaism s origins in the polytheistic world of the second and first millennia BCE to the temple cult at the time of Jesus He tells the stories of the rabbis mystics and messiahs of the medieval and early modern periods and guides us through the many varieties of Judaism today Goodman s compelling narrative spans the globe from the Middle East Europe and America to North Africa China and India He explains the institutions and ideas on which all forms of Judaism are based and masterfully weaves together the different threads of doctrinal and philosophical debate that run throughout its history [The Ocean-Hill Brownsville Conflict](#) Glen Anthony Harris,2012-01-01 The history of Black Jewish relations from the beginning of the twentieth century shows that while they were sometimes partners of convenience there was also a deep suspicion of each other that broke out into frequent public exchanges During the twentieth century the entanglements of both groups have at times provided an important impetus for social justice in the United States and at other times have been the cause of great tension The Ocean Hill Brownsville Conflict explores this fraught relationship which is evident in the intellectual lives of these communities The tension was as apparent in the life and works of Marcus Garvey Richard Wright and James Baldwin as it was in the

exchanges between blacks and Jews in intellectual periodicals and journals in the 1940s 1950s and 1960s The Ocean Hill
Brownsville conflict was rooted in this tension and the longstanding differences over community control of school districts
and racial preferences
