

- My responsibility for my actions, not necessarily my feelings but a thinking and choosing process.
- If I am important as a person I need to live out the consequences or choices I make. I must be free to follow my own conscience – in fact I am obliged to follow my conscience once I have informed it.

Conscience And Responsibility:

Social Conscience and Responsibility Jane E. Bleasdale, Julie A. Sullivan, 2020-02-29 How we teach ethics has been an ambiguous instructional area for many years In religious schools it is left to the work of the religion teacher and in public schools it is often incorporated into a civics course Across the curriculum there are multiple points at which we can incorporate the study of ethics in interdisciplinary ways In this volume we will focus on how educators in high schools grades 9 12 can incorporate the teaching of ethics effectively across all disciplines Sciences Humanities Arts Math and Technology The introduction of the book will be a foundational description of ethics what it means to study ethics and to be an ethical person

Hegel's Theory of Responsibility Mark Alznauer, 2015-02-19 A crucial aspect of Hegel's practical philosophy is his theory of responsibility This theory is both original and radical in its emphasis on the role and importance of social and historical conditions as a context for our actions But even those who agree that there is something valuable in Hegel's emphasis on sociality are not in agreement about what that something is or about how Hegel argues for it Mark Alznauer offers the first book length account of the structure of the theory and its place within Hegel's thought as a whole The reader is carefully walked through the psychological social and historical aspects of responsibility in Hegel's texts The book demonstrates that attention to the concept of responsibility reveals the true nature of Hegel's controversial claims about the inherent sociality of human action

Conscience and Catholic Health Care DeCosse, David E., Nairn, Thomas A, 2017-03-16 Drawn from a two day symposium at Santa Clara University Conscience and Catholic Health Care provides a timely and up to date assessment of the Catholic understanding of conscience and how it relates to day to day issues in Catholic health care The contributors explore a wide range of topics including end of life care abortion and sterilization and the role of Catholic ethics particularly in hospital settings With insights from key figures this book will serve as a useful text and reference for medical students and practitioners as well as a resource for ethics boards and chaplains in Catholic hospitals most especially those merging with secular health institutions In addition to the editors contributors include Ron Hamel Anne E Patrick Roberto Dell Oro Lisa Fullam Kristin E Heyer John J Paris M Patrick Moore Jr Cathleen Kaveny Lawrence J Nelson Kevin T FitzGerald SJ Gerald Coleman Margaret R McLean Shawnee M Daniels Sykes and Carol Taylor Publisher

Ethics of Conviction and Civic Responsibility Yuichi Moroi, 2008 Despite a long history and tradition in the United States conscientious objectors to war have always been in the minority Only a handful of objectors dissented against World War I and II and their voices were never influential in respect to the state's war policy or public opinion This book examines the challenges posed by conscientious objectors during World Wars by focusing on two main themes ethic of conviction and ethic of civic responsibility In this groundbreaking study author Yuichi Moroi asks How did conscientious objectors express their conviction in the case of the state's imperative for war On what basis could conscientious objectors define their civic responsibility and act upon it Ethics of Conviction and Civic Responsibility asserts that despite the tension

between the individual and society as experienced by conscientious objectors there is a connection between them that holds a unique combination of conviction and civic responsibility **Business Ethics and Social Responsibility' 2007 Ed.**

,2007 Truth and Responsibility: A Personalist Reading of Newman Jan Klos,2023-11-13 This book goes beyond a simple study of Newman's thought and work and seeks to apply his deductions to modern value conflicts Although it will be of particular relevance to academic readers with some prior knowledge of Newman's works it may also be of wider interest to students of history philosophy theology and spirituality More generally its unusual focus on Newman's epistemology and philosophical deductions and how these relate to present day dilemmas should also attract interest from his many non academic followers and devotees The main value of this work lies in its original approach to Newman from a Polish Personalist perspective and this rather than as another amorphous study of Newman could give it novelty value and attract real interest from Newman scholars and experts Jonathan Luxmoore Oxford based writer and Church historian How do we evaluate a human life our own life Beginning with John Henry Newman's defence of his life Jan Klos in this volume sensitively explores from a personalist perspective how all our lives involve struggle with commitment responsibility and truth In its emphasis on the narrative structure of human lives the book makes a valuable contribution not just to the philosophy of personalism but to social theory overall Douglas Porpora Professor of Sociology Drexel University **Responsibility and Judgment** Hannah Arendt,2009-04-02 Each of the books that Hannah Arendt published in her lifetime was unique and to this day each continues to provoke fresh thought and interpretations This was never more true than for Eichmann in Jerusalem her account of the trial of Adolf Eichmann where she first used the phrase the banality of evil Her consternation over how a man who was neither a monster nor a demon could nevertheless be an agent of the most extreme evil evoked derision outrage and misunderstanding The firestorm of controversy prompted Arendt to readdress fundamental questions and concerns about the nature of evil and the making of moral choices Responsibility and Judgment gathers together unpublished writings from the last decade of Arendt's life as she struggled to explicate the meaning of Eichmann in Jerusalem At the heart of this book is a profound ethical investigation Some Questions of Moral Philosophy in it Arendt confronts the inadequacy of traditional moral truths as standards to judge what we are capable of doing and she examines anew our ability to distinguish good from evil and right from wrong We see how Arendt comes to understand that alongside the radical evil she had addressed in earlier analyses of totalitarianism there exists a more pernicious evil independent of political ideology whose execution is limitless when the perpetrator feels no remorse and can forget his acts as soon as they are committed Responsibility and Judgment is an essential work for understanding Arendt's conception of morality it is also an indispensable investigation into some of the most troubling and important issues of our time *Conscience and Responsibility* Eric Mount,1969 **Extraordinary Responsibility** Shalini Satkunanandan,2015-09-29 This book explores how an impoverished understanding of responsibility as quantifiable and dischargeable sustains moralistic politics **The**

Responsibility of Science Harald A. Mieg, 2022-06-28 This open access book provides an overview of issues of scientific responsibility The volume comprises three types of contributions first analyses of the responsibility of science second analyses of the structural conditions for science and its responsibility and third normative versions of scientific responsibility The questions and problems dealt with include science as a profession ambivalence of research and dual use innovation vs precaution notions of responsibility the role of science within society and its relation to human rights as well as scientific and public discourses The book addresses scholars in the fields of Science Studies and Research Policy This is an open access book

The Professional Responsibility Model of Perinatal Ethics Frank A. Chervenak, Laurence B.

McCullough, 2014-09-12 This book provides the first clinically comprehensive and practical approach to ethical challenges in perinatal medicine The first chapter introduces and explains the professional responsibility model of perinatal ethics The professional responsibility model is based on the medical ethics of two major physician ethics in the history of Western medical ethics Dr John Gregory 1724 1773 of Scotland and Dr Thomas Percival 1740 1804 of England The professional responsibility model is used to articulate the ethical concept of the fetus as a patient and to operationalize the ethical principles of beneficence and respect for autonomy The book provides practical guidance for clinical judgment and decision making with patients about the responsible clinical management of the wide range of issues encountered by perinatologists in clinical practice and research Topics included periviability feticide intrapartum management maternal fetal conflict innovation for fetal benefit research for fetal benefit non aggressive obstetric management managing the transition from pregnancy to birth destructive procedures such as cephalocentesis critical care for the pregnant patient home birth patient choice cesarean delivery neonatal care as a trial of management and setting limits on neonatal care on the basis of clinical judgments of futility

Personal Responsibility and Christian Morality Josef Fuchs, 1983-05-01 In this volume Josef Fuchs has brought together 12 important essays which consider various aspects of the relationship between Christian morality and human behavior Among the subjects he discusses are the connections between moral theology and Christian experience the absolute character of moral norms and the importance of ethical reflection in shaping the future of the human race

Responsibility and Christian Ethics William Schweiker, 1999-03-11 Schweiker develops a powerful new theory of responsibility articulated in terms of Christian faith

The Limit of Responsibility Esther D. Reed, 2018-08-23 This volume frames the question of responsibility as a problem of agency in relation to the systems and structures of globalization According to Ricoeur responsibility is a shattered concept when considered too narrowly as a problem of act agency and individual freedom To examine this Esther Reed develops a short genealogy of modern liberal and post liberal concepts of responsibility in order to understand better the relationship dominant modern framings of the meanings of responsibility Reed engages with writings by major modern Schleiermacher Hegel Marx Weber and post liberal Buber Levinas Derrida Badiou Butler Young Critchley theorists to illustrate the shift from an ethnic responsibility built on notions of accountability

and attributions to an ethic responsibility that starts variously from the other Reed sees Dietrich Bonhoeffer as the most promising partner of this theological dialogue as his learning of responsibility from the risen Christ present now in the global church is a welcome provocation to new thinking about the meaning of responsibility learned from land distant neighbour global church and the bible Bonhoeffer's reflections on the centre boundaries and limits of responsibility remain helpful to Christian people struggling with an increasingly exhausted concept of accountability

The Doctrine of the Will, Applied to Moral Agency and Responsibility Henry Philip Tappan, 1841

Hegel's Conscience Dean Moyar, 2011-04-06 This book provides a new interpretation of the ethical theory of G W F Hegel The aim is not only to give a new interpretation for specialists in German Idealism but also to provide an analysis that makes Hegel's ethics accessible for all scholars working in ethical and political philosophy While Hegel's political philosophy has received a good deal of attention in the literature the core of his ethics has eluded careful exposition in large part because it is contained in his claims about conscience This book shows that contrary to accepted wisdom conscience is the central concept for understanding Hegel's view of practical reason and therefore for understanding his ethics as a whole The argument combines careful exegesis of key passages in Hegel's texts with detailed treatments of problems in contemporary ethics and reconstructions of Hegel's answers to those problems The main goals are to render comprehensible Hegel's notoriously difficult texts by framing arguments with debates in contemporary ethics and to show that Hegel still has much to teach us about the issues that matter to us most Central topics covered in the book are the connection of self consciousness and agency the relation of motivating and justifying reasons moral deliberation and the holism of moral reasoning mutual recognition and the rationality of social institutions

Approaches to Corporate Social Responsibility Stefan Markovic, Adam Lindgreen, Nikolina Koporcic, Milena Micevski, 2023-08-25 Following recent growth of ethical consumerism customers and other stakeholders increasingly pressure organizations to be socially responsible and minimize their negative impact on the environment Accordingly a plethora of firms have integrated corporate social responsibility CSR at the center of their business strategies and actions Whilst this has resulted in many firms meeting their broader responsibilities toward society and the environment some firms have used CSR in a manipulative and insincere way As stakeholders become aware of such misuse of CSR largely thanks to the rapid evolution of information technologies they start to penalize firms by spreading negative word of mouth about them and specifically about their CSR knowledge values and actions Now more than ever before stakeholders are increasingly critical and cautious in their assessments of firms CSR knowledge values and actions On this background this edited volume sheds light on different internal and external perspectives spanning CSR knowledge values and actions It shares theoretical practical and case based insights on the broader topic and can be of interest to researchers academics practitioners and advanced students in the fields of CSR and business ethics knowledge management strategy and marketing

Moral Order and Progress Samuel Alexander, 1889

Agency, Freedom, and Responsibility in the Early Heidegger Hans

Pedersen, 2020-08-25 This book employs Heidegger's work of the 1920s and early 1930s to develop distinctively Heideggerian accounts of agency, freedom, and responsibility, making the case that Heidegger's thought provides a compelling alternative to the mainstream philosophical accounts of these concepts. Hans Pedersen demonstrates that Heidegger's thought can be fruitfully used to develop a plausible alternative understanding of agency that avoids the metaphysical commitments that give rise to the standard free will debate. The first several chapters are devoted to working out an account of the ontological structure of human agency, specifically focusing on the Heideggerian understanding of the role of mental states, causal explanations, and deliberation in human agency, arguing that action need not be understood in terms of the causal efficacy of mental states. In the following chapters, building on the prior account of agency, Pedersen develops Heideggerian accounts of freedom and responsibility. Having shown that action need not be understood causally, the Heideggerian view thereby avoids the conflict between free will and determinism that gives rise to the problem of free will and the correlative problem of responsibility.

Christian Responsibility and Communicative Freedom Wolfgang Huber, 2012

The public role of religion continues to be a complex and controversial topic. In a career spanning nearly five decades, Wolfgang Huber has written extensively on the role of Christian ethics in societies across the globe. This collection provides an introduction to his thought and access to some of his most important and thought-provoking essays. Huber continues to engage issues of both local and global importance at institutions in a number of countries.
