Confessions Of A Philosopher:

Confessions of a Philosopher Bryan Magee,1999-05-18 In this infectiously exciting book Bryan Magee tells the story of his own discovery of philosophy and not only makes it come alive but shows its relevance to daily life Magee is the Carl Sagan of philosophy the great popularizer of the subject and author of a major new introductory history *The Story of Philosophy* *Confessions* follows the course of Magee's life exploring philosophers and ideas as he himself encountered them introducing all the great figures and their ideas from the pre Socratics to Bertrand Russell and Karl Popper including Wittgenstein Kant Nietzsche and Schopenhauer rationalism utilitarianism empiricism and existentialism

The Philosopher's "I" J. Lenore Wright,2012-02-01 This book examines philosophers autobiographies as a genre of philosophical writing Author J Lenore Wright focuses her attention on five philosophical autobiographies Augustine's *Confessions* Descartes *Meditations* Rousseau's *The Confessions* Nietzsche's *Ecce Homo* and Hazel Barnes's *The Story I Tell Myself* In the context of first person narration she shows how the philosophers in question turn their attention inward and unleash their analytical rigor on themselves Wright argues that philosophical autobiography makes philosophical analysis necessary and that one cannot unfold without the other Her distinction between the ontological and rhetorical dimensions of the self creates a rich middle ground in which questions of essence and identity bear upon existence

The Philosopher's Autobiography Shlomit C. Schuster,2003-01-30 Throughout the ages philosophers have examined their own lives in an attempt both to find some meaning and to explain the roots of their philosophical perspectives This volume is an introduction to philosophical autobiography a rich but hitherto ignored literary genre that questions the self its social context and existence in general The author analyzes representative narratives from antiquity to postmodernity focusing in particular on three case studies the autobiographies of St Augustine Rousseau and Sartre Through the study of these exemplary texts philosophical reflection on the self emerges as a valid alternative to Freudian psychoanalysis and as a way of promoting self renewal and change

Democracy and the History of Political Thought Stephen A. Block,Patrick N. Cain,Stephen Patrick Sims,2021-06-23 This volume provides a fresh perspective on current democratic theory and practice by recovering the rich evaluations of democracy in the history of political thought Each author addresses a single thinker's reflections on the virtues and defects of democracy and the relationship between democracy and other regimes Together these essays explore the tensions within the democratic way of life that arise from an attachment to equality liberty citizenship law and the divine Above all this work aims at recovering a more complex understanding of democracy connecting the perennial questions of political philosophy to the perplexities and crises of modern democracy

Beyond the Philosopher's Fear Ludger H. Viefhues-Bailey,2016-12-05 Based on a detailed analysis of gender in Stanley Cavell's treatment of the skeptical problem this book addresses the relationship between gender and religion in modern skepticism Engaging in dialogue with Julia Kristeva's philosophy Viefhues claims that a religious problem underlies Cavell's understanding of the feminine The feminine which the skeptic

fears is construed as a placeholder for the beyond marking the transcendence of our origins which are elusive yet at the same time part of ourselves It is argued that a religious question of origins thus lies at the heart of the modern skeptical problem

The Philosophers' Quarrel Robert Zaretsky, John T. Scott, 2009-01-01 The rise and spectacular fall of the friendship between the two great philosophers of the eighteenth century barely six months after they first met reverberated on both sides of the Channel As the relationship between Jean Jacques Rousseau and David Hume unraveled a volley of rancorous letters was fired off then quickly published and devoured by aristocrats intellectuals and common readers alike Everyone took sides in this momentous dispute between the greatest of Enlightenment thinkers In this lively and revealing book Robert Zaretsky and John T Scott explore the unfolding rift between Rousseau and Hume The authors are particularly fascinated by the connection between the thinkers lives and thought especially the way that the failure of each to understand the other and himself illuminates the limits of human understanding In addition they situate the philosophers quarrel in the social political and intellectual milieu that informed their actions as well as the actions of the other participants in the dispute such as James Boswell Adam Smith and Voltaire By examining the conflict through the prism of each philosophers contribution to Western thought Zaretsky and Scott reveal the implications for the two men as individuals and philosophers as well as for the contemporary world

The Philosopher's Plant Michael Marder, 2014-11-11 Despite their conceptual allergy to vegetal life philosophers have used germination growth blossoming fruition reproduction and decay as illustrations of abstract concepts mentioned plants in passing as the natural backdrops for dialogues letters and other compositions spun elaborate allegories out of flowers trees and even grass and recommended appropriate medicinal dietary and aesthetic approaches to select species of plants In this book Michael Marder illuminates the vegetal centerpieces and hidden kernels that have powered theoretical discourse for centuries Choosing twelve botanical specimens that correspond to twelve significant philosophers he recasts the development of philosophy through the evolution of human and plant relations A philosophical history for the postmetaphysical age *The Philosopher's Plant* reclaims the organic heritage of human thought With the help of vegetal images examples and metaphors the book clears a path through philosophy's tangled roots and dense undergrowth opening up the discipline to all readers

reminiscences and Confessions of an opium-eater Thomas De Quincey, 1890 **De Quincey's Confessions of an English opium-eater, ed. by J. Downie, and containing professor Masson's notes** Thomas De Quincey, 1901 First Things, 2000 **Engenderings** Naomi Scheman, 2014-02-25 Naomi Scheman argues that the concerns of philosophy emerge not from the universal human condition but from conditions of privilege Her books represents a powerful challenge to the notion that gender makes no difference in the construction of philosophical reasoning At the same time it criticizes the narrow focus of most feminist theorizing and calls for a more inclusive form of inquiry Russian Classical Literature Today Yordan Ljutskanov, Hristo Manolakev, Radostin Rusev, 2014-06-19 This book explores a range of mis uses of the Russian classical literature canon and its symbolic capital by contemporary Russian literature cinema literary scholarship and mass culture It outlines processes of current canon formation in a situation of the expiration of a literature centric culture that has been imbued with specific messianism and its doubles The book implements Pierre Bourdieu s theory of the cultural field focussing on a field s constitutive pursuit of autonomy and on its flexible resistance to the double pressure of the political field and the economic field It provides material for elaborating this theory through postulating the principal presence of a third factor of heteronomy the strong neighbour within the cultural field Furthermore this volume demonstrates the heuristic of comparing the current Russian mis uses of classical literature to prior Russian and current foreign ones As such it also discusses such issues as the historical relativity of a literary field s notion of autonomy and the geo cultural variability of the Russian literary canon *Prospero*, 1995 Heaven and Philosophy Simon Cushing, 2017-11-30 This volume is a collection of essays analyzing different issues concerning the nature possibility and desirability of heaven as understood by the Abrahamic faiths of Judaism Christianity and Islam Topics include whether or not it is possible that a mortal could upon bodily death become an inhabitant of heaven without loss of identity where exactly heaven might be located whether or not everyone should be saved or if there might be alternative destinations including some less fiery versions of Hell Chapter authors include believers and skeptics well known philosophers and new voices While some chapters are more challenging than others all are written in a style that should be accessible to any interested reader *The Confession of Augustine* Jean-François Lyotard, 2000 Lyotard approaches his subject by returning to his earliest phenomenological training rearticulating Augustine s sensory universe from a vantage point imaginarily inside the confessant s world a vantage point that reveals the intense point of conjuncture between the sensual and the spiritual the erotic world and the mystical being and appearance sin and salvation Lyotard reveals the very origins of phenomenology in Augustine s narrative and in so doing also shows the origins of semiotics to lie there in the explication of the Augustinian heavens as skin as veil as vellum **Fragments from a Philosopher's Wallet** Denis Diderot, 2024-05-09 *Fragments from a Philosopher's Wallet* is a collection of short philosophical texts aphorisms and reflections written by Diderot The fragments cover a wide range of topics offering insights into Diderot s philosophical ideas and his views on morality human nature and society *Fragments* is a mosaic of aphorisms dialogues and

half formed arguments that reject the Enlightenment's obsession with systematic thought Scribbled in the margins of his mind these shards dissect everything from aesthetics to zoology united by a refusal to settle One fragment likens human reason to a compass rusted by passion still pointing north but trembling Another mocks the arrogance of philosophers who build castles of logic on sand ignoring the tide of lived contradiction Also included in this edition is a manuscript titled Useful Speculations and Instructive Maxims found in Diderot's notes and published a century after his death This curious manuscript is written in Diderot's handwriting but no mention of it is found anywhere else so it is unknown what Diderot's intention with it was This modern edition contains a new Epilogue by the translator a glossary of Philosophical Terms used by Diderot a chronology of his core life and works and a summary index of all of Diderot's works With a clean modern translation of Diderot's Enlightenment era French this edition brings Diderot's thoughts directly into the modern intellectual sphere tracing the intellectual forces which swept along Diderot and impacted today's secular world The Fragment's real treasure is its doubt not a Cartesian doubt but an existential doubt Diderot stuffs it with unanswered questions Can a deaf man comprehend music Does free will survive the brain's pulse He cackles at the pretense of answers preferring the friction of paradox Even his praise of science is backhanded yes it dissects frogs but what of the leap between nerve and desire The fragments thrum with a subversive empathy a plea to see philosophy not as a ladder to ascend but a labyrinth to wander Institutions crumble he warns when they forget that ideas like coins gain value through circulation not hoarding Diderot's genius isn't in resolution but in the ache of his curiosity a man forever rattling the locks of a world that won't open
