Chambliss, Susan L. Wortmann**

Honey And The Hemlock Democracy And Paranoia In Ancient Athens And Modern America:

The Honey and the Hemlock Eli Sagan,1994 Examining Athenian democracy as an object lesson for democracy in general and invoking Freud as his guide in this task Eli Sagan explores the startling contradictions in the society of Athens its delicious honey and its deadly hemlock *The Honey and the Hemlock* Eli Sagan,2001-05-01 Platonic Political Art John R. Wallach,2010-11-01 In this first comprehensive treatment of Plato s political thought in a long time John Wallach offers a critical historicist interpretation of Plato Wallach shows how Plato s theory while a radical critique of the conventional ethical and political practice of his own era can be seen as having the potential for contributing to democratic discourse about ethics and politics today The author argues that Plato articulates and solves his Socratic Problem in his various dialogues in different but potentially complementary ways The book effectively extracts Plato from the straightjacket of Platonism and from the interpretive perspectives of the past fifty years principally those of Karl Popper Leo Strauss Hannah Arendt M I Finley Jacques Derrida and Gregory Vlastos The author s distinctive approach for understanding Plato and he argues for the history of political theory in general can inform contemporary theorizing about democracy opening pathways for criticizing democracy on behalf of virtue justice and democracy itself **The Power of Love and Democracy in the Philosophies of**

Martin Luther King, Jr. and Cornel West Timothy L. Lake,2025-09-18 This book locates an ethic of love as central to the democratic philosophies of Martin Luther King Jr and Cornel West While much has been written about King s moral vision social activism and theology there has been no book length treatment of the implications of his thinking to democratic theory Additionally Cornel West is the leading African American public intellectual of our time but the range of his cultural criticism and academic scholarship obscures his intellectual and social projects This project synthesizes West s vast corpus and places him within the modern African American intellectual tradition he shares with Du Bois King Maulana Karenga the creator of Kwanza and others Deeply grounded in the African American intellectual and philosophical traditions in which King and West are rooted as well as the Western mainstream political philosophical traditions in which they were educated this book offers a penetrating interpretation and comparative analysis of their thought on the ideals of democracy and of their critiques of American democracy It also reflects on the nature and values of democracy exploring how love is inseparable from justice in a democratic society **Paranoia & Contentment** John C. Hampsey,2004 A hybrid in both content and style Paranoia and Contentment is a bold and original investigation into Western intellectual history

Athenian Political Thought and the Reconstruction of American Democracy J. Peter Euben,John R. Wallach,Josiah Ober,1994 A collection of essays on Athenian democracy organized in three sections on situating the Athenian democracy in relation to various regimes exploring how discourse in democratic Athens displayed awareness of democracy s limitations and creating direct dialogues between the discourse of Athenian democracy and that of contemporary thought Annotation copyright by Book News Inc Portland OR

Democracy and Domination Andrew M. Koch,Amanda Gail Zeddy,2009-01-01 Drawing on the genealogical tradition

developed by Friedrich Nietzsche and Michel Foucault Democracy and Domination argues that from the time of Ancient Greece to the present the collective and centralizing aspects of power have been expanding in the Western world Modern democracy should be seen as a system of domination that assists in the coordination and expansion of collective power

Historical Agency and the 'Great Man' in Classical Greece Sarah Brown Ferrario,2014-10-02 Examines the evolution of great man theory in classical Greece not only in historical writing but also in popular thought **A Theory Of Citizenship** Herman R. Van Gunsteren,2018-10-08 Does vital citizenship require moral consensus Or is it the ability to organize their differences that allows people to live together as citizens in a republic Whereas liberal republican and communitarian theories of citizenship analyzed the conditions of citizenship the central message of this book is that the practical exercise of citizenship under conditions that are far from ideal is the main source of its vitality Instead of arguing for more participation it focuses on the citizenship of those who for whatever reason are already active in the public sphere Herman van Gunsteren develops a theory of citizenship well suited to the era of political reform that was inaugurated by the revolutions of 1989

Death, Trust, & Society Lionel Rothkrug,2006 A cross cultural study of how religious practices particular attitudes toward the dead seen in funerary rites mortuary practices and pilgrimage patterns have influenced the formation of cultural identity and social structures throughout world history Provided by the publisher *The Rhetoric of Conspiracy in Ancient Athens* Joseph Roisman,2006-11-07 The Attic orators whose works are an invaluable source on the social and political history of Classical Athens often filled their speeches with charges of conspiracy involving almost every facet of Athenian life There are allegations of plots against men s lives property careers and reputations as well as charges of conspiracy against the public interest the government the management of foreign affairs and more Until now however this obsession with conspiracy has received little scholarly attention In order to develop the first full picture of this important feature of Athenian discourse Joseph Roisman examines the range and nature of the conspiracy charges He asks why they were so popular and considers their rhetorical cultural and psychological significance He also investigates the historical likelihood of the scenarios advanced for these plots and asks what their prevalence suggests about the Athenians and their worldview He concludes by comparing ancient and modern conspiracy theories In addition to shedding new light on Athenian history and culture his study provides an invaluable perspective on the use of conspiracy as a rhetorical ploy *Conspiracy/Theory* Joseph Masco,Lisa Wedeen,2023-12-01 In an era of intensified information warfare ranging from global disinformation campaigns to individual attention hacks what are the compelling terms for political judgment How are we to build the knowledge needed to recognize and address important forms of harm when critical information is either not to be trusted or kept hidden Rather than approach conspiratorial narrative as an irrational response to an obviously decipherable reality Conspiracy Theory identifies important affinities between conspiracy theory and critical theory It recognizes the motivation people have in their capacities as experts theorists and ordinary citizens to search for patterns in events to uncover what is

covert and attend to dimensions of life that might be hiding in plain sight If it seems strange that so many find themselves living in incommensurable disorienting realities the multidisciplinary contributors to Conspiracy Theory explore how and why that came to be Across history and geography contributors inquire into the affects and imaginaries of political mobilization tracking counterrevolutionary projects while acknowledging collective futures that demand conspiratorial engagement Contributors Nadia Abu El Haj Hussein Ali Agrama Kathleen Belew Elizabeth Anne Davis Joseph Dumit Faith Hillis Lochlann Jain Demetra Kasimis Susan Lepselter Darryl Li Louisa Lombard Joseph Masco Robert Meister Timothy Melley Rosalind C Morris George Shulman Lisa Wedeen

Ambacide: The Genocide and Extermination Reminiscent of Extermination of Jews (Holocaust) by Adolf Hitler Tatah Mentan, 2021-07-20

Genocide and extermination are no longer mere words promises hopes etc These acts are already a law which can be enforced In practical terms this law means no more extermination no more mass killings no more concentration camps no more sterilisations no more wanton rapes no more killings and burning of people to conceal evidence no more torching of habitats no more breaking up of families The call to stop genocide is often presented as the paramount moral obligation in contemporary global politics The Never Again refrain and the consistent references to the ethical value of Responsibility to Protect genocide stand as calls for urgent political mobilisation Taking a look at the internet blackouts the militarisation of towns and cities all across Southern Cameroons Ambazonia the indiscriminate torching of hundreds of villages schools and health centres the rampant gang rape of females by HIV infected troops mass killings of civilians burning of innocent civilians in their sleep disembowelling pregnant women and slaughtering them and their unborn babies arbitrary arrests and detentions dehumanising raids of residential areas in search of Anglophones mindless torture extortions and looting by La Rpublique du Cameroun troops the genocide and extermination were well planned in advance Professor Tatah Mentan argues that the bloodbath was designed with a clear kinetic theological foundation as its centrepiece The theologians of the genocide were ironically not clerics They were rather journalists and sycophantic pro regime intellectuals who apparently served as the echo chamber of the Biya genocidal regime for his Hitler like Final Solution to crush and assimilate Anglophones the rats cockroaches secessionists separatists or microbes as they were stigmatised The suffering inflicted by Hitler on Jews fell outside the realm of expression Often depicted as the savage lunatic who plunged the world into World War II Adolf Hitler s name has been on the tongues of historians psychologists economists and laymen for ages Similarly President Paul Biya like Hitler the Monster is being depicted as the epitome of Lucifer himself Finally Professor Tatah Mentan concludes that the pandemic genocide and extermination of Ambazonians by La Rpublique du Cameroun gncidaires can only be peacefully resolved by an internationally negotiated separation of both warring Former UN Category B Trust Territories

Indigenous Peoples as Subjects of International Law Irene Watson, 2017-07-14 For more than 500 years Indigenous laws have been disregarded Many appeals for their recognition under international law have been made but have thus far failed mainly because

international law was itself shaped by colonialism How this volume asks might international law be reconstructed so that it is liberated from its colonial origins With contributions from critical legal theory international law politics philosophy and Indigenous history this volume pursues a cross disciplinary analysis of the international legal exclusion of Indigenous Peoples and of its relationship to global injustice Beyond the issue of Indigenous Peoples rights however this analysis is set within the broader context of sustainability arguing that Indigenous laws philosophy and knowledge are not only legally valid but offer an essential approach to questions of ecological justice and the co existence of all life on earth **Discover Sociology**

Daina S. Eglitis, William J. Chambliss, Susan L. Wortmann, 2021-07-04 What key social forces construct and transform our lives as individuals and as members of society How does our social world shape us How do we shape our world Discover Sociology answers these questions as it explores sociology as a discipline of curious and scientific minds The text is structured around several themes particularly the unequal distribution of power and authority in all aspects of social life Going beyond theory and concepts the authors also demonstrate how studying sociology produces more engaged citizens and opens up a diversity of career paths This title is accompanied by a complete teaching and learning package **Origins of Democracy in**

Ancient Greece Kurt A. Raaflaub, Josiah Ober, Robert W. Wallace, 2007-01-11 This book presents a state of the art debate about the origins of Athenian democracy by five eminent scholars The result is a stimulating critical exploration and interpretation of the extant evidence on this intriguing and important topic The authors address such questions as Why was democracy first realized in ancient Greece Was democracy invented or did it evolve over a long period of time What were the conditions for democracy the social and political foundations that made this development possible And what factors turned the possibility of democracy into necessity and reality The authors first examine the conditions in early Greek society that encouraged equality and people s power They then scrutinize in their social and political contexts three crucial points in the evolution of democracy the reforms connected with the names of Solon Cleisthenes and Ephialtes in the early and late sixth and mid fifth century Finally an ancient historian and a political scientist review the arguments presented in the previous chapters and add their own perspectives asking what lessons we can draw today from the ancient democratic experience Designed for a general readership as well as students and scholars the book intends to provoke discussion by presenting side by side the evidence and arguments that support various explanations of the origins of democracy thus enabling readers to join in the debate and draw their own conclusions **Postcolonial Theory and the Arab-Israel Conflict** Philip Carl

Salzman, Donna Robinson Divine, 2021-04-26 Postcolonial theory is one of the main frameworks for thinking about the world and acting to change the world Arising in academia and reshaping humanities and social sciences disciplines postcolonial theory argues that our ideas about foreigners the other particularly our negative ideas about them are determined not by a true will to understand but rather by our desire to conquer dominate and exploit them According to postcolonial theory the cause of poverty tyranny and misery in the world and of failed societies around the world is Euro American imperialism and

colonialism Previously published as a special issue of Israel Affairs this work examines and challenges postcolonial theory In scholarly research based papers the specialist authors examine various facets of postcolonial theory and application First the theoretical assumption and formulations of postcolonial theory are scrutinized and found dubious Second the deleterious impact on academic disciplines of postcolonial theory is demonstrated Third the distorted postcolonial view of history its obsession with current events to the exclusion of the historical basis of events is exposed and corrected Fourth an examination of Middle Eastern culture challenges the assumption that these societies have been shaped entirely and victimized by Western intrusion Finally exploring the Arab Israel conflict the one sided case of postcolonial Arabism is explored and found to be faulty

Recurrent Genocidal Nightmares Mentan, Tatah, 2019-05-28 Genocide has been called the crime of crimes and an odious scourge With millions of victims in the last century alone it is one of the great moral and political challenges of our age Despite the challenges such human cruelty has not stopped The 21st century is recording its first genocide in Cameroon with only a scanty few raising a finger The significance of the odious scourge has compelled Tatah Mentan to research on the trajectory of the scourge in Africa over the past centuries The targeted ongoing mass killings in Cameroon like those of Rwanda before have driven the scholar to expand his focus beyond the Holocaust which had long been the primary case study In this book Tatah Mentan explains that these cases were not merely a human catastrophe nor an atavistic reversion to the barbarism of a past epoch but rather an event produced by the unfolding of the logic of capitalism itself This book therefore critically explores the essence of capitalism as genocide in Africa and its consequences on Africans during their colonisation and incorporation into the European dominated racialised capitalist world system in the late 18th century It uses multidimensional comparative methods and critical approaches to explain the dynamic interplay among social structures human agency and terror to explain the connection between structural capitalist terrorism and the emergence of the capitalist world system Tatah Mentan proposes a genuine participatory democratic alternative to the unending genocide nightmares Nurturing participatory attitudes would facilitate and reinforce self management and educate and empower individuals and dispossessed and under represented communities to seek self determination and democratic participation in the political arena Tatah Mentan concludes that the same fundamental commitments that urge humanity to promote participatory political democracy should compel them to promote truly inclusive economic democracy as well Political economists historians students corporate managers and policy makers at national and international levels are invited to share the insights of this book

Teacher Robert Mitchell, 2024-07-24 The vocational archetype stands behind the character of the teacher s personality focusing lessons on both the intellectual and personality development of students Teachers discover the vocational archetype in themselves through trial and error The teacher student relationship in the autonomy of the classroom inspires the mind and nurtures the character of the soul However consciousness of mind and soul are different Soul consciousness has an imagistic nature that can see the spiritual archetype that stands behind the

individual personality The child archetype is depicted in many cultures as the divine child The archetype of the adolescent is the hero The vocational archetype of the teacher is expressed in personality and character nurturing the archetypal characteristics in the personalities of the students However many teachers have lost touch with the archetypal characteristics of their vocation and must seek the vocational archetype on their own through trial and error This book is a portrait of one teacher's process of seeking the vocational archetype Experiences with students are a major part of the process The other part is to find and defend a classroom philosophy that evokes the teacher archetype in front of the students their parents and the administration The author will inspire encourage and empower teachers who are seeking the vocational archetype in themselves and give voice to the vocational archetype in our school communities and in our culture

Neoplatonism and Contemporary Thought R. Baine Harris, 2002-01-01 Leading scholars relate Neoplatonism to contemporary social theory aesthetics and spirituality
