Agenda For Educational Change:

Political Agendas for Education Joel Spring, 2014-03-26 The Fifth Edition of Joel Spring's ongoing documentation and analysis of political agendas for education reflects the major political issues in education since 2008. This edition focuses on the education sections of the 2012 Republican, Democratic, Green, and Libertarian Party platforms. Taking a fresh look at the social and political forces, educational research, and ideologies shaping the educational agendas of these political parties and a comparative approach, the book stimulates reflection and discussion. New coverage in the Fifth Edition includes: The political coup called Race to the Top; Common Core State Standards and national testing based on the Standards; Explosion of online instruction; Debates about teacher evaluations and merit pay; Growing for-profit education industry; New agenda for American Education; Constitutional amendment; long life and happiness; environmental education. **Political Agendas for Education** is essential reading for courses dealing with the politics of education, foundations of education, educational leadership, and curriculum studies, and for educational scholars, professionals, policymakers, and all those concerned with the politics of education in the U.S. and its consequences for schools and society.

Educational Change and the Political Process Dana L. Mitra, 2022-06-15 **Educational Change and the Political Process** brings together key ideas on both the system of educational policy and the policy process in the United States. It provides students with a broad methodical understanding of educational policy. No other textbook offers as comprehensive a view of the US educational policy procedure and political systems. Section I discusses the actors and systems that create and implement policy on both the federal and the local level. Section II walks students through the policy process from idea to implementation to evaluation, and Section III delves into three major forces driving the creation of educational policies in the current era: accountability, equity, and market-driven reforms. Each chapter provides case studies, discussion questions, and classroom activities to scaffold learning, as well as a bibliography for further reading to deepen exploration of these topics. This new edition will explore recent Trump era and post-Trump era US politics and policy changes, as well as the politics of race.

Global Agendas and Education Reforms Birol Akgün, Yusuf Alpaydın, 2024-07-25 This open access book examines the effects of global education agendas such as digitalization, innovation, and entrepreneurship education in emergencies, globalization, internationalization, diversity, and sustainability on education reforms in several countries and regions. It explores how increasing international interaction and communication tools bring along a more intense convergence in national education policies. It emphasizes that in today's world, education politicians and experts in different parts of the world follow the global agenda more effectively and increase reform initiatives. Hence, in order to understand national education policies more deeply, it is important to pay attention to their global context. It explains that education reforms in countries are heavily influenced by both national and global agendas. McBride,2003-12-16 To improve schools we need to improve teachers This volume provides recent research evidence that suggests that current education policy is not Promoting Effective Teacher Education And That Teacher Education Policy has failed to support the formation of professional partnerships in initial teacher education has almost ignored the induction of newly qualified teachers and has narrowed in service education into support for the implementation of central policy The evidence gathered in this book is used to argue for new forms of teacher education in every phase built upon the foundation of professional partnership between schools and institutions of higher education It is suggested that the funding for such changes could be drawn from less effective forms of school improvement such as National Curriculum development and school inspection With the implementation of such changes it is argued good quality teacher education programmes would

prosper and foster a broad consensus about educational development that is often absent *Resources in Education*, 1999-04 *Creating the Conditions for School Improvement* Mel Ainscow, John Beresford, Alma Harris, David Hopkins, Geoff Southworth, Mel West, 2013-12-19 First Published in 2001 This is the second edition of this school s improvement handbook of staff development activities by the IQEA Improving Education for All project This book is not about what changes should be introduced into a school but rather about creating the conditions for supporting those changes which schools or individuals believe should be introduced To be effective at managing change schools and teachers need to modify the internal conditions of the school at the same time as introducing changes in teaching or curriculum The book therefore provides ideas and materials to help colleagues in school to create such conditions and suggests a strategic approach **Research and Education Reform** National Research Council, Division of Behavioral and Social Sciences and Education, Commission on Behavioral and Social Sciences and Education, Committee on the Federal Role in Education Research, 1992-02-01 The Office of Educational Research and Improvement OERI in the U S Department of Education has a mandate for expanding knowledge of teaching and learning and for improving education in this country This book focuses on how OERI can better fulfill that mission in light of what is known about why prior education reforms have often failed what is needed to enhance the effectiveness of such efforts and what education research and development can contribute to better schools The history mission governance organization functions operations and budgets of OERI are analyzed Recommendations are made for restructuring OERI expanding funding involving scholars from many fields and engaging teachers and school principals in improvement efforts The Essential Components of a Successful Education System Business Roundtable, 1992
