International Aviation Labour Law Andrea Trimarchi, 2022-06-24 International Aviation Labour Law explores the status quo of the international regulation of labour and employment within the air transport industry and provides a detailed analysis of the regulatory endeavours undertaken at the international European and domestic level to harmonise aviation labour regulations and ensure adequate labour standards for aircrew members Offering an original insight into the regulation of labour in the aviation sector and airline industry it analyses regulatory endeavours undertaken at the international European and domestic level exploring the main challenges arising from non uniform and fragmented regulation of labour standards in the air transport sector In particular it investigates whether aviation labour regulations are sufficiently harmonised at an international level to ensure adequate labour standards for aircrew members Key concerns relating to aviation labour are dealt with from a regulatory and practical perspective and the current normative gaps are examined in view of potential future regulatory trends and solutions via a thorough analysis of the applicable legislation landmark court decisions and the use of practical examples to provide an overview of the various nuances of the topic The book identifies and explore the main implications and repercussions of regulatory asymmetry and highlights the critical role of labour for air transport and how discrepancies in labour regulation may affect the practice of flying and the essence of aviation safety It emphasises a strong need for international regulatory coordination and is a key reference for a varied audience of students academics professionals and rule makers involved in the air transport arena and for all those who have an interest in the regulation of labour and employment in aviation

Air Rage Angela Dahlberg, 2017-03-02 This book introduces a new Human Factors concept that includes the air passenger as an integral part of the aviation system It develops a revised Reason Model on Human Error that applies its principles to the prevention of passenger misconduct with a focus on organizational issues affecting the interface between the air passenger and the airlines It also builds a synergistic model addressing the traditional conflict between safety and service objectives Incorporating a diffusion of air traveller tension a Passenger Risk Management Model leads to a strategic approach for reducing incidents of Air Rage

Legal Priorities in Air Transport Ruwantissa Abeyratne, 2019-05-27 Against the backdrop of enormous technological strides this book argues that the air transport industry must be constantly vigilant in its efforts to employ a legal regime that is applicable to the aeronautical and human aspects of the carriage by air of persons and goods In this regard safety and security are of the utmost importance both in terms of safe air navigation and the preservation of human life Although the International Civil Aviation Organization ICAO addresses legal issues through its Legal Committee many emerging issues that urgently require attention lie outside the Committee s purview This book analyzes in detail the items being considered by ICAO s Legal Committee considers the legal nature of ICAO and discusses whether or not ICAO s scope should be

extended Since the limited issues currently addressed by ICAO do not reflect the rapidly changing realities of air transport the book also covers a broad range of key issues outside the parameters set by ICAO such as the need to teach air law to a new generation of aviation professionals combating cyber crime and cyber terrorism the regulation of artificial intelligence traveller identification interference with air navigation human trafficking unruly passengers climate change air carrier liability for passenger death or injury Remotely Piloted Aircraft Systems drones and the cabin crew and their legal implications
