Air Force Mafia:

The Air Force Mafia Peter N. James, 1975 **Air Force Magazine**, 2004 The Bomber Mafia Malcolm Gladwell, 2021-04-27 THE NEW YORK TIMES BESTSELLER A parable written for the age of technological disruption brilliantly told Sunday Times The international bestselling author returns with an exploration of one of the grandest obsessions of the twentieth century The Bomber Mafia is a case study in how dreams go awry When some shiny new idea drops from the heavens it does not land softly in our laps It lands hard on the ground and shatters In the years before the Second World War in a sleepy air force base in central Alabama a small group of renegade pilots put forth a radical idea What if we made bombing so accurate that wars could be fought entirely from the air What if we could make the brutal clashes between armies on the ground a thing of the past This book tells the story of what happened when that dream was put to the test The Bomber Mafia follows the stories of a reclusive Dutch genius and his homemade computer Winston Churchill's forbidding best friend a team of pyromaniacal chemists at Harvard a brilliant pilot who sang vaudeville tunes to his crew and the bomber commander Curtis Emerson LeMay who would order the bloodiest attack of the Second World War In this tale of innovation and obsession Gladwell asks what happens when technology and best intentions collide in the heat of war And what is the price of progress

WILL THE U.S.A. BE REPLACED BY JAPAN? GUODONG CHEN, 2021-02-22. Ikokukai is an underground organization founded by former Japanese Kaigun Daisa named Shigenori Kami. Ikokukai wielded pre-existing mature technologies of many years ago in obtaining advanced nuclear weapons, long-range unmanned submarines, heavyweight torpedos, and stealth long-range cruise missiles with full stealth and bypassed the anti-missile system of the United States and destroyed a majority of military forces and all war potentials of the United States at one fell swoop in an instant. The United States still remained unknown about where the attack came from after the event which led to the total casualties of 60 million and its disintegrating into five nations. Balance of Nuclear Terror among big powers was no longer in existence. Underwater military revolution revealed in this book enables the United States not to enjoy military superiority. The United States needs to seek cooperation with China so as to remedy the fatal flaw in its homeland defense.

Eye of the Viper Peter Aleshire, 2005-11-01. Hand-picked, pressure-tested, and full of astronaut-gung-ho, the young pilots of Eye of the Viper are poised for the toughest assignment of their career: the exhaustive six-month training course at Arizona's Luke Air Force Base. At a cost of 2 million each, Luke, the world's largest fighter wing, is the only F-16 fighter training base in the United States, and each year it produces one thousand pilots who will fly the F-16 from Korea to Afghanistan to Iraq. But being among the elite pilots who are selected for the course is by no means a guarantee that they will earn the right to fly the F-16. Only a few select individuals will have what it takes. Award-winning journalist Peter Aleshire provides a full blast of the rigors and intensity of the course, the personalities, the incredible machines, the irreverence, the bravado, and the toughness not only of the hand-picked students seeking a place in the warrior subculture but of the veteran pilots who must teach them how to stay alive.

Twilight War Mike Moore, 2008-03-03. Considering the historical background of space militarization and providing an overview of the United States' efforts to militarily dominate space since the dawn of the space age, this book argues that America must either ensure that space-related weapons are verifiably banned for all nations through an international treaty or definitively choose a policy of unilateral space dominance that may lead to an arms race in space and possibly to another cold war. The 1967 Outer Space Treaty designated space as the province of all mankind. It expressly prohibited nuclear and non-nuclear weapons of mass destruction in orbital space and exclusively limited the use of the Moon and other celestial bodies for peaceful purposes. But changes in the post-Cold War world as well as unforeseeable advances in satellite and weapons technologies have compelled every space-faring nation save the U.S. and Israel to go on record as favoring a new treaty for the Prevention of an Arms Race in Outer Space. In *Twilight War: The Folly of U.S. Space Dominance*, Mike Moore, former editor of *The Bulletin of the Atomic Scientists*, argues that the U.S. merely provokes conflict when it presumes to be the exception to the rule. Rejecting treaty negotiations while further militarizing space renders America unable to lead by

example Moore concludes that instead of trying to stop an arms race in space by starting one the U S must radically rethink its strategy
