Marxism and the Movies Mary K. Leigh, Kevin K. Durand, 2013-11-04 The work of Karl Marx is revered in social philosophy political science and literary criticism but there is an area where Marxism seems not to have penetrated That area is the study of popular culture especially the cinema where Marxism provides a useful lens through which seemingly disparate films can be explored As a whole the new essays assembled here approach a wide cross section of cinematic history and provide analysis of blockbusters cult hits comedies suspenseful dramas and history making films within a framework of power power relations and class struggle The collection brings to popular culture studies the same scholarly weight that attends the work of Aristotle or Plato or Derrida and at the same time presents that scholarship in an accessible style

Book Matters Alan Sica, 2017-07-05 Scholars have been puzzling over the future of the book since Marshall McLuhan s famous maxim the medium is the message in the early 1950s McLuhan famously argued that electronic media was creating a global village in which books would become obsolete Such views were ahead of their time but today they are all too relevant as declining sales even among classic texts have become a serious matter in academic publishing Does anyone still read long and complex works either from the past or the present Is the role of a professional reader and reviewer of manuscripts still relevant *Book Matters* closely analyses these questions and others Alan Sica surmises that the concentration span required for studying and discussing complex texts has slipped away as undergraduate classes are becoming inundated by shorter easier to teach scholarly and literary works He considers such matters in part from the point of view of a former editor of scholarly journals In an engaging style he gives readers succinct analyses of books and ideas that once held the interest of millions of discerning readers such as Simone de Beauvoir s *Second Sex* and the works of David Graham Phillips and C Wright Mills among others *Book Matters* is not a nostalgic cry for lost ideas but instead a stark reminder of just how aware and analytically illuminating certain scholars were prior to the Internet and how endangered the book is in this era of pixelated communication

Towards the World Culture Society Elżbieta Hałas, 2010 The series *Studies in Sociology Symbols Theory and Society* has been created by Elżbieta Hałas and Risto Heiskala to stimulate cooperation in research on the meaning forms and functions of symbolism in society The series is open to various theoretical and methodological orientations in the studies of social symbolism The aim is to show the central place of the problems of symbolization and symbolism in sociology processes of symbolization in everyday life or in collective actions
