Archetypes Elémire Zolla, 2015-06-18 Man is dominated by his archetypes they mould not only his history but his dreams But how are we to define and evaluate them Is it perhaps possible for us to relate more creatively to them Originally published in 1981 these are some of the questions raised by this title To answer them the author gathered together a vast amount of material drawn from Eastern and Western traditions from science literature art and poetry The answers he puts forward are often highly original and will surely challenge many of our most cherished patterns of thought There emerges from this book what can only be described as a global metaphysical system yet the author s language is not that of an ordinary metaphysical treatise and what he writes offered new challenge and hope to those suffering from the despair and cynicism engendered by a great deal in modern society at the time Zolla does not however advocate a return to earlier historical patterns nor is he proposing a new Utopia but rather offers us a brilliant series of lessons in the art of centring In the words of Bernard Wall writing in the Times Literary Supplement Zolla s deep polymathic probing of the terms of human existence makes it sensible to compare him with Simone Weil while some of his conclusions about ultimate mysteries expressed in signs symbols and sacraments the sense of which we have lost will make us think of the later T S Eliot

Jungian Literary Criticism Richard P. Sugg, 1992 **Archetypes, the Persistence of Unifying Patterns** Elémire Zolla, 1982 **Archetypal Symbols in the Poetry of Mário Quintana** David Ralph Rearwin, 1973 *On the Shore of Nothingness* Reuven Tsur, 2015-11-03 This book studies how poetic structure transforms verbal imitations of religious experience into concepts The book investigates how such a conceptual language can convey such non conceptual experiences

as meditation ecstasy or mystic insights Briefly it explores how the poet by using words can express the ineffable It submits to close reading English French German Spanish Italian Armenian and Hebrew texts from the Bible through medieval renaissance metaphysical and baroque poetry to romantic and symbolistic poetry Living Archetypes Anthony Stevens,2015-06-26 Anthony Stevens has devoted a lifetime to modernizing our understanding of the archetypes within us relating them to conceptual developments in a variety of scientific disciplines such as the patterns of behaviour of behavioural ecology the species specific behavioural systems of Bowlby s attachment theory the deep structures of Chomskian linguistics and the modules of evolutionary psychology to name but a few This selection of papers and chapters from the course of Stevens career all lucidly written and argued highlight episodes in the progress of his quest to place archetypal theory on a sound scientific foundation As a whole Living Archetypes examines how archetypes are activated in the life history of all of us how archetypal imperatives may be fulfilled or thwarted by our living circumstances how they manifest in our dreams symbols fantasies and symptoms and how appreciating their dynamics can generate insights of enormous therapeutic power Living Archetypes The Selected Works of Anthony Stevens provides an invaluable resource for Jungian psychotherapists psychologists academics and students committed to extending the evolutionary approach to psychology and psychiatry and understanding the dynamic significance of archetypes **Symbolism and Belief** Edwyn Bevan,2011-03-23 The lectures contained in this volume were given for the University of Edinburgh on Lord Gifford s foundation in the years 1933 and 1934 I have delayed their publication in the hope that with process of time I might by further reading and thought be able to expand and modify them so as to make them more worthy of presentation to the public in the form of a book This hope has been so meagrely realized that it now seems best to let them go forth with all their imperfections on their head hardly at all altered from the form in which they were delivered Some changes in arrangement have been made in the order of lectures the two on Time now follow immediately the two on the spatial symbol of Height Four lectures have been omitted altogether from the present volume those on image worship and doctrines condemning the manufacture of images in antiquity and in the Christian Church Since in the rest of the lectures the symbolism of material objects in worship was not the kind of symbolism under consideration these four lectures seemed somewhat of a digression from the main line of argument I hope later on to issue them as a small book by themselves *Companion to Literary Myths, Heroes and Archetypes* Pierre Brunel,2015-07-30 First published in French in 1988 and in English in 1992 this companion explores the nature of the literary myth in a collection of over 100 essays from Abraham to Zoroaster Its coverage is international and draws on legends from prehistory to the modern age throughout literature whether fiction poetry or drama Essays on classical figures as well as later myths explore the origin development and various incarnations of their subjects Alongside entries on western archetypes are analyses of non European myths from across the world including Africa China Japan Latin America and India This book will be indispensable for students and teachers of literature history and cultural

studies as well as anyone interested in the fascinating world of mythology A detailed bibliography and index are included The Companion provides a fine interpretive road map to Western culture s use of archetypal stories Wilson Library Review It certainly is a comprehensive volume extremely useful Times Higher Education Supplement

The Life and Poetry of Ted Kooser Mary K. Stillwell, 2020-04-01 Like a flash of lightning it came to him the unathletic high school student Ted Kooser saw a future as a famous poet that promised everything glory immortality a bohemian lifestyle no more doing dishes no more cleaning his room and particularly important to the lonely teenager girls Unlike most kids with a sudden ambition Kooser winner of the Pulitzer Prize for Poetry and thirteenth poet laureate of the United States made good on his dream But glory was a long time coming and along the way Kooser lived the life that has made his poetry what it is as deeply grounded in family work and the natural world as it is attuned to the nuances of language Just as so much of Kooser s own writing weaves geography history and family stories into its measures so does this first critical biography consider the poet s work and life together his upbringing in Iowa his studies in Nebraska with poet Karl Shapiro as mentor his career in insurance his family life his bout with cancer and always his poetry Combining a fine appreciation of Kooser s work and life this book finally provides a fuller and more complex picture of a writer who perhaps more than any other has brought the Great Plains and the Midwest lived large and small into the poetry of our day

"Four Mighty Ones are in Every Man" Dóra Janzer Csikós, 2003 The dissertation focuses on one of the most debated prophecies of Blake The Four Zoas The approach is basically psychological and before the main thesis is elaborated a brief survey is given about the most frequently studied parallels such as Freud and Jung The dissertation then proceeds to examine a new aspect a parallel is drawn between the hypotheses of Lipot Szondi disciple to Freud and Blake s visionary universe Szondi s System of Drives helps illuminate several questionable passages of Blake s dream vision furthermore as the parallel points out an interesting change is discernible in Blake s concepts about Enlightenment and Rationalism whereby the previously rejected ideas become integrated into a fourfold world of wholeness and intellectual sanity

The Educated Imagination and Other Writings on Critical Theory 1933-1963 Northrop Frye, 2006-12-15 In 1933 Northrop Frye was a recent

university graduate beginning to learn his craft as a literary essayist By 1963 with the publication of *The Educated Imagination* he had become an international academic celebrity In the intervening three decades Frye wrote widely and prodigiously but it is in the papers and lectures collected in this installment of the *Collected Works of Northrop Frye* that the genesis of a distinguished literary critic can be seen Here is Frye tracing the first outlines of a literary cosmology that would culminate in *The Anatomy of Criticism* 1958 and shape *The Great Code* 1982 and *Words with Power* 1990 At the same time that Frye garnered such international acclaim he was also a working university teacher lecturing in the University of Toronto's English Language and Literature program In her lively introduction Germaine Warkentin links Frye's evolution as a critic with his love of music his passionate concern for his students and his growing professional ambition The writings included in this volume show how Frye integrated ideas into the work that would consolidate the fame that *Fearful Symmetry* 1947 had first established
