Architecture, Ambition and Americans Wayne Andrews, 1964 **Architecture, Ambition and Americans. A Social History of American Architecture ... Illustrated. [A Reduced Photographic Reprint of the Edition of 1955.].** Wayne Andrews, 1964 A History of American Architecture Mark Gelernter, 2001 Why did the colonial Americans give over a significant part of their homes to a grand staircase Why did the Victorians drape their buildings ornate decoration And why did American buildings grow so tall in the last decades of the 19th century This book explores the history of American architecture from prehistoric times to the present explaining why characteristic architectural forms arose at particular times and in particular places *Architecture, Ambition and Americans* Wayne Andrews, 1955 **American Architects and the Mechanics of Fame** Roxanne Kuter Williamson, 2014-03-07 Why does one talented individual win lasting recognition in a particular field while another equally talented person does not While there are many possible reasons one obvious answer is that something more than talent is requisite to produce fame The something more in the field of architecture asserts Roxanne Williamson is the association with a famous architect at the moment he or she first receives major publicity or designs the building for which he or she will eventually be celebrated In this study of more than six hundred American architects who have achieved a place in architectural histories Williamson finds that only a small minority do not fit the right person right time pattern She traces the apprenticeship connection in case studies of Louis Sullivan Frank Lloyd Wright Henry Hobson Richardson the firm of McKim Mead White Latrobe and his descendants the Bulfinch and Renwick Lines the European immigrant masters and Louis Kahn Although she acknowledges and discusses the importance of family connections the right schools self promotion scholarships design competition awards and promotion by important journals Williamson maintains that the apprenticeship connection is the single most important predictor of architectural fame She offers the intriguing hypothesis that what is transferred in the relationship is not a particular style or approach but rather the courage and self confidence to be true to one s own vision Perhaps she says this is the case in all the arts **American Architects and the Mechanics of Fame** is sure to provoke thought and comment in architecture and other creative fields **New Hampshire Architecture** Bryant Franklin Tolles, Carolyn K. Tolles, 1979 An illustrated popular guide to the Granite State s rich architectural heritage *The Architecture of Bergen County, New Jersey* T. Sullivan, 1996 Louis Henry Sullivan traces his life and oeuvre It addresses his most famous buildings including the Auditorium Building in Chicago the Wainwright Building in Saint Louis the Guaranty Building in Buffalo and the National Farmers Bank in Owatonna Minnesota and reveals many of his lesser known projects to be underappreciated masterpieces For the first time Sullivan's work which has often been misappropriated is explored in its historical and theoretical context *The Crisis of the African-American Architect* Melvin L. Mitchell, 2003 another missing piece of our rich history and profound contribution to western civilization For history buffs please put this book on your must read list George C Fraser Author of *Race For Success* and *Success Runs In Our Race* Mitchell believes that the entire future of blacks in the field of architecture is in jeopardy He then discusses the impact of the Harlem Renaissance on black architecture and the subsequent emergence of Howard University as the center of the black architectural universe *The Journal of Blacks in Higher Education* seminal *Architecture Magazine* In this long overdue book aimed at Black America and her allies Melvin Mitchell poses the question why haven't black architects developed a Black Architecture that complements modernist black culture that is rooted in world class blues jazz hip hop music and other black aesthetic forms His provocative thesis inspired by Harold Cruse's landmark book *The Crisis of the Negro Intellectual* exposes the roots of an eighty year old estrangement between black architects and Black America Along the way he provides interesting details about the politics of downtown development in the Marion Barry era of Washington DC Mitchell calls for a bold and inclusive New Black Urbanism He sees the radical reform and re-missioning of the handful of accredited HBCU based architecture schools as a critical tool in refashioning a rapprochement between black architects and Black America **American Architects and Texts** Juan Pablo Bonta, 1996 In this volume the author

Power and Society in Greater NY David C. Hammack, 1982-10-02 Who has ruled New York Has power become more concentrated or more widely and democratically dispersed in American cities over the past one hundred years How did New York come to have its modern physical and institutional shape Focusing on the period when New York City was transformed from a nineteenth century mercantile center to a modern metropolis David C Hammack offers an entirely new view of the history of power and public policy in the nation s largest urban community Opening with a fresh and original interpretation of the metropolitan region s economic and social history between 1890 and 1910 Hammack goes on to show how various population groups used their economic social cultural and political resources to shape the decisions that created the modern city As New York grew in size and complexity its economic and social interests were forced to compete and form alliances No single group not even the wealthy was able to exercise continuing control of urban policy Building on his account of this interplay among numerous elites Hammack concludes with a new interpretation of the history of power in New York and other American cities between 1890 and 1950 This book makes a major contribution to the study of community power of urban and regional history and of public policy And by taking the meaning and distribution of power as his theme Hammack is able to reintegrate economic social and political history in a rich and comprehensive work Lucid instructive and discerning The most commanding analysis of its subject that I know John M Blum professor of history Yale University A powerful and persuasive treatment of a marvelous subject Nelson W Polsby professor of political science University of California Berkeley
