 Establet From Documents to Sources in Historiography The present volume develops a specific type of critical analysis of the

 has been taken as a framework However the issue addressed is general in scope It emerged from reflections on a problem
 that may seem common to historians why among the huge mass of written documents available to historians some have been
 well studied while others have been dismissed or ignored The question of historical sources and their unequal use in
 historiography is not new Which documents have been used and favored as historical sources by historians has been a key
