John Varley British Watercolour Series:

Great British Watercolors Matthew Hargraves, 2007-01-01 Paul Mellon 1907 1999 assembled one of the world's greatest collections of British drawings and watercolors. In his memoirs he wrote of their beauty and freshness, their immediacy and sureness of technique, their comprehensiveness of subject matter, their vital qualities, their Englishness. This catalogue celebrating the centenary of Mellon's birth features eighty-eight outstanding watercolors from the fifty thousand works of art on paper with which he endowed the Yale Center for British Art. The selection spans the emergence of watercolor painting in the mid 18th century to its apogee in the mid 19th. These works highlight the diversity of British watercolors, showcasing both landscape and figurative works by some of the principal artists working in the medium, including Thomas Gainsborough, Thomas Rowlandson, William Blake, and J. M. W. Turner. *The Business of Watercolour* Simon Fenwick, Greg Smith, 2018-12-17 First published in 1997, this volume will revolutionise the study of watercolour painting in Britain. The Royal Watercolour Society archive constitutes a major academic resource covering two hundred years of the history of watercolour painting in Britain. The rediscovery in 1980 of the Jenkins Papers, the early records of the Society, was a major find for the history of British art. The archives are substantial and remarkably comprehensive. Minutes of annual general meetings, Council and committees are all intact. Extraordinarily, the Society's catalogues for its own exhibitions have also survived, with details of who bought the pictures and for how much. It contains biographical information on several hundred artists who practised throughout the United Kingdom from the end of the eighteenth century to the present day. Prepared by the archivist to the RWS, Simon Fenwick, this is not just a work of reference but an absorbing book to dip into again and again. The Society of Painters in Water Colours, as it was then titled, was founded in 1804 to promote the interests of painters using watercolour and to provide a platform for members to sell their work. As such, its archives provide an excellent insight into the evolving debate on the status of the artists and their medium and an authoritative account of the way in which watercolour paintings were sold, distributed and acquired. The substantial introduction by Greg Smith surveys some of the purposes and practices of watercolour from 1750 to the present day and highlights key issues many yet to be examined relating to the study of watercolour. His survey is arranged around a number of topics including the notion of watercolour as a British art, collecting and display, book illustration, architectural drawing, map making and topography, antiquarian studies, decorative arts, printmaking, portrait miniatures and drawings, amateur practices and the changing status of the sketch. **The Glory of Watercolour** Michael Spender, Royal Society of Painters in Water-Colours (Great Britain), 1987 **Britain and Japan** Hugh Cortazzi, 2025-10-01 Published in association with the Japan Society and containing 57 essays, this ninth volume in the series continues to celebrate the life and work of the men and women, both British and Japanese, who over time played an interesting and significant role in a wide variety of different spheres relating to the history of Anglo-Japanese relations and deserve to be recorded and remembered. Read together, they give a picture, even if
