that increased production of export commodities will reframe the threat of climate change into an opportunity for economic development and growth the reality is not so simple For the country s rural poor these promises ring hollow As development dispossesses the poor from agrarian livelihoods outmigration from peasant communities leads to precarious existences in urban centers And a vision of development in which urbanization and export led growth are both desirable and inevitable is not one the land and its people can sustain Threatening Dystopias shows how a powerful rural movement although hampered by an all consuming climate emergency is seeking climate justice in Bangladesh *Scientific and Technical Aerospace Reports* ,1981 **The Software Encyclopedia 2001** ,2001
