behavior how it differed when in or out of sight who provided or undermined forbidden care the differing experiences of men and women how and why gentiles provided aid and most importantly how might the costly obscurity of stealth altruism soon be corrected To date memorialization has emphasized what was done to victims and sidelined what victims tried to do for one another Carers provide an inspiring model and their perilous efforts should be recognized and taught alongside the horrors of the Holocaust Humanity needs such inspiration

This is Home Now Arwen Donahue, 2009-06-26 A look at the lives of nine Jewish Holocaust survivors after their liberation from Nazi concentration camps when they settled in rural Kentucky At the end of World War II many thousands of Jewish Holocaust survivors immigrated to the United States from Europe in search of a new beginning Most settled in major metropolitan areas usually in predominantly Jewish communities where proximity to coreligionists offered a measure of cultural and social support However some survivors settled in smaller cities and rural areas throughout the country including in Kentucky where they encountered an entirely different set of circumstances Although much scholarship has been devoted to Holocaust survivors living in major cities little has been written about them in the context of their experiences elsewhere in America This Is Home Now Kentucky's Holocaust Survivors Speak presents the accounts of Jewish survivors who resettled outside of the usual major metropolitan areas Using excerpts from oral history interviews and documentary portrait photography author Arwen Donahue and photographer Rebecca Gayle Howell tell the fascinating stories of nine of these survivors in a unique work of history and contemporary art The book focuses on the survivors lives after their liberation from Nazi concentration camps illuminating their reasons for settling in Kentucky their initial reactions to American culture and their reflections on integrating into rural American life Praise for This is Home Now Until Donahue and Howell turned their recorders and cameras on these well chosen survivors living in Kentucky no one had taken the time to ask how these solitary transplants made new lives for themselves and their children in rural middle America The stories and images reproduced in this book are both moving and arresting We owe Donahue and Howell a great debt for rescuing them before they disappeared down the trapdoor of historical memory

Essays on Hitler's Europe István Deák, 2001-01-01 István Deák is one of the world's most knowledgeable and clearheaded authorities on the Second World War and for decades his commentary has been among the most illuminating and influential contributions to the vast discourse on the politics history and scholarship of the period Writing chiefly for the New York Review of Books and the New Republic Deák has crafted review essays that cover the breadth and depth of the huge literature on this ominous moment in European history when the survival of democracy and human decency were at stake Collected here for the first time these articles chart changing

reactions and analyses by the regimes and populations of Europe and reveal how postwar governments historians and ordinary citizens attempt to come to terms with or to evade the realities of the Holocaust war fascism and resistance movements They track the acts of scoundrels and the collusion of ordinary citizens in the so called Final Solution but also show how others in authority and on the street heroically opposed the evil of the day With its depth conciseness and interpretive power this collection allows readers to consider more clearly and completely than ever before what has been said how thought has shifted and what we have learned about these momentous world changing events

Demonising the Other Philip Whitehead,2018-01-31 Throughout history societies have established others groups often defined through differences of culture race gender or class that have been demonized by the majority In this book Philip Whitehead challenges the idea that such demonization is an inevitable fact of life He lays out the historical criminalization of the other and looks closely at modern attempts to prevent it through changes to criminal justice systems ultimately questioning whether such approaches can be effective at altering the conditions of existence that are responsible for the creation of the other

Ritual as a Missing Link J. David Knottnerus,2016-01-08 Up to now ritual has been under utilised for studying human behaviour This book narrows the gap in our understanding of the social causes and consequences of our actions by focusing on the ritualised behaviours that define much of our daily lives Knottnerus breaks new ground by comprehensively describing structural ritualistic theory He shows how structural reproduction has occurred throughout the world how rituals can be strategically used and how power can influence rituals and how the disruption and reconstitution of ritual is of crucial importance for human beings This book shows that ritual provides a missing link in sociology and helps us better explain the extreme complexity of human action and social reality

Gulag Literature and the Literature of Nazi Camps Leona Toker,2019-08-28 A literary scholar examines survival narratives from Russian and German concentration camps shedding new light on testimony in the face of evil In this illuminating study Leona Toker demonstrates how Holocaust literature and

Gulag literature provide contexts for each other especially how the prominent features of one shed light on the veiled features and methods of the other Toker s analysis concentrates on the narrative qualities of the works as well as how each text documents the writer s experience in a form where fictionalized narrative can double as historical testimony Toker also views these texts against the background of historical information about the Soviet and the Nazi regimes of repression Writers at the center of this work include Varlam Shalamov Primo Levi Elie Wiesel and Ka Tzetnik and others including Aleksandr Solzhenitsyn Evgeniya Ginzburg and Jorge Sempr n illuminate the discussion Toker also provides context for references to potentially obscure historical events and shows how they form new meaning in the text

European Cases of the Reincarnation Type Ian Stevenson, M.D., 2015-09-02 Many cultures accept that a person may die and then come back to life in another form but Westerners have traditionally rejected the idea Recently however surveys conducted in Europe indicate a substantial increase in the number of Europeans who believe in reincarnation and numerous claims of reincarnation have been reported This book examines particular cases in Europe that are suggestive of reincarnation The first section provides a brief history

of the belief in reincarnation among Europeans The second section considers eight cases from the first third of the twentieth century that were not independently investigated but were reported and sometimes published by the persons concerned The third section covers 32 cases from the second half of the twentieth century that were investigated by the author Many of these cases involved either children who exhibited unusual behavior attributed to a previous life or adults who experienced recurrent or vivid dreams attributed to a previous life In the fourth section the author compares European cases suggestive of reincarnation with those of other countries and cultures *Days of Remembrance, April 18-25, 1993*, 1993 Introduces the history of Jewish holocaust and provides information on planning commemorative programs *Writing the Holocaust* Jean-Marc Dreyfuss, Daniel Langton, 2011-11-15 An overview of the key themes and major theoretical developments which continue to permeate the activity of writing about the history of the Holocaust *Structure, Culture, and History* Sing C.
