The Casino in Connecticut is the capital building for those of us in the Great Game who live in New England. My friend Matt is a professional gambler who thought he discovered a game full of high rollers to crash, but it wasn't that simple. Since friends invite their friends along when they do stupid things, I came along for the ride. What we discovered is that there are people betting on what utter strangers will do next. These Architects of behavior have the money and power to do more than make you disappear. For centuries, the Architects have moved people like puppets and encouraged players to become monsters with no law constraining us but their own. What we share here is our journey into a world where anything is possible, and you will be amazed at how simple this all seems. Based on a true story, and it will have you doubting what you know. Everyone questions if someone has already been pulling their strings. Even the paranoid are right sometimes.
