Copenhagen Architecture Guide Olaf Lind, Annemarie Lund, 2005

Guide to Danish Architecture: 1000-1960

Jørgen Sestoft, Jørgen Hegner Christiansen, Kim Dirckinck-Holmfeld, 1991 Book Description Denmark 1991 This guide describes chronologically Danish architecture from the year 1000 to 1960 providing a pictorial tour of Denmark's structures. Included is a fold out map of Denmark with the points of interest on the tour carefully designated a must for the architecturally inclined traveller in Denmark. Volume 1 ends when industrial building came to the fore in 1960 when architecture changed radically. The guide is a chronological representation of about 300 individual works which are illustrated by over 700 illustrations.

Guide to New Architecture in Copenhagen Rikke Brams, 2018

The A to Z of Denmark Alastair H. Thomas, 2010-05-10 Denmark is the oldest monarchy in Europe. At different points in its history Denmark's boundaries have encompassed England, Sweden, West Africa, India and the West Indies. Despite its changing and relatively small boundaries, Denmark has played a much larger part in the politics of Europe than might be expected. Additionally, through its territories, Faroe Islands and Greenland, Denmark has managed to retain an important presence in the North Atlantic. Today, democratic Denmark, with its thriving capital, Copenhagen, is peaceful, prosperous and progressive. Within NATO, Denmark has contributed to peace keeping in the Persian Gulf and Bosnia. The Danish Model of welfare gives Danes a real sense of social security and presents many naysayers with a provocative example of a successfully managed welfare state. Danes have a reputation for inventiveness and good design, whether in architecture, furniture or industrial design. The A to Z of Denmark relates the history of this successful country through a chronology, an introductory essay, appendixes, a bibliography and hundreds of cross-referenced dictionary entries on kings, politicians, officials, explorers, authors, architects, composers, painters, astronomers, educationists, reformers, political parties, social movements and other aspects of Danish society.

Historical Dictionary of Denmark Alastair H. Thomas, 2016-07-26 Denmark has a millennium long continuous history and development from Viking times about 800-1050 AD to the modern welfare state. The resilience of the Danish people is evident in the artistic golden age of the early 19th century, despite national bankruptcy, the agricultural revival during the final third of the 19th century. Modern Denmark leads in industrial design, furniture, engineering, pharmacy and social development in the 20th century. Danish scientists, medical doctors, composers, musicians, choreographers, playwrights, authors, sculptors, architects, designers, painters and film directors have made significant contributions to the development of European culture. In the 21st century, Denmark combines a thriving and highly productive modern economy with extensive social care and welfare and thus refutes the neo-conservative economists who claim that such a combination is impossible. In short, Denmark is seen by the Danes and their neighbors as a very good place to live. This third edition of *Historical Dictionary of Denmark* contains a chronology, an introduction, appendixes and an extensive bibliography. The dictionary section has over 1000 cross-referenced entries on important personalities, politics, economy, foreign relations

religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about Denmark *The A to Z of Denmark* Alastair H. Thomas, 2010-05-10 The A to Z of Denmark relates the history of this successful country through a chronology an introductory essay appendixes a bibliography and hundreds of cross referenced dictionary entries on kings politicians officials explorers authors architects composers painters [Map-guide to modern architecture](#), 1973

Secret Places Marie-Louise Høstbo, 2020-07-02 What should lovers of architecture seek out in Copenhagen once they've done the world famous iconic buildings such as Amalienborg Grundtvig's Church and Denmark's Nationalbank Copenhagen is home to a wealth of marvellous yet oft overlooked buildings With her book *Secret Places* architect Marie Louise Høstbo wishes to expand the reader's horizons inspiring them to go explore fifty special buildings in and around the Danish capital All of them are distinctive places that are sure to surprise engage and challenge visitors The book features examples of Danish architecture ranging from Arne Jacobsen's pavilion in Engshaveparken designed during his time with the Copenhagen City Architect's office to the Tårnby City Hall stringently adhering to the less is more philosophy and onwards to Kindt Larsen's delightful summer residence at Hornbæk merging architecture and furniture design to create a truly unique unity Selected details and points of view call forth connections that cut across time style and place opening new vistas for lovers of architecture and changing how they see the city Because architecture must be sensed It must be seen and touched Through words and pictures the book guides international travellers and native Copenhageners to the hidden treasures of the city including trips outside the capital itself

Copenhagen Christian Datz, Christof Kullmann, 2005 Copenhagen is not just the capital of Denmark but also the international seat of cutting edge design by such modern masters as Arne Jacobsen Jørn Utzon and Verner Panton All have left their indelible mark on the cityscape and the great tradition of bold and exceptional spaces continues A number of highly important buildings have been erected in the last few years the new library by Schmidt Hammer Lassen and the Opera House by Henning Larsen's Tegnstrup and this guide provides the reader with a quick and handy reference to each and every one Christian Datz and Christof Kullmann are architects who write for leading German publications such as *Frankfurter Allgemeine Zeitung* and *deutsche bauzeitung* Another of the Neues authoritative series of pocket guides to recent noteworthy architecture in cities around the world Includes color photographs and a site map for convenient use by tourists and professionals alike 200 colour photos *Map Guide to Modern Architecture*, 1970

Encyclopedia of Twentieth Century Architecture R. Stephen Sennott, 2004 A balance of sophistication and clarity in the writing authoritative entries and strong cross referencing that links architects and structures to entries on the history and theory of the profession make this an especially useful source on a century of the world's most notable architecture The contents feature major architects firms and professional issues buildings styles and sites the architecture of cities and countries critics and historians construction materials and planning topics schools movements and stylistic and theoretical terms Entries include well selected bibliographies and illustrations Reference that rocks American Libraries May 2005

Planning and Urban Growth in Nordic Countries Thomas Hall, 2003-12-16 Planning and Urban Growth in Nordic Countries examines urban development and planning in Denmark Finland Norway and Sweden Emphasis is on the period from the mid nineteenth century to the present day and the authors of each country study look at their own national developments against the background of those in other Nordic countries well as the rest of Europe and the USA *Guide to new architecture in Copenhagen. 2015* , The Monumental Impulse George L. Hersey, 2001 A highly original view of the relationship between architecture and the biological sciences Sacred Buildings Rudolf Stegers, 2008-05-16 The building of religious structures represents a rare opportunity for the architect to concentrate on the creation of volume space and form Sacred architecture is far less determined than other building tasks by functional requirements norms and standards As a rule it is free to unfold as pure architecture Thus in design terms this building task offers enormous freedoms to the architect At the same time however the special atmospherics of sacred spaces call on the part of the architect for a highly sensitive treatment of religion and the relevant cultural and architectural traditions In a systematic section this volume introduces the design technical and planning fundamentals of building churches synagogues and mosques In its project section it also presents about seventy realized structures from the last three decades Drawing upon his in depth knowledge of the subject and his many years of publishing experience the author offers a valuable analysis of the conceptual and formal aspects that combine to create the religious impact of spaces e g the ground plan the shapes of the spaces the incidence of light and materiality **Guide to Copenhagen and More** University College, Dublin. School of Architecture, Diarmaid Brophy, Martin Giblin, 1996 **Copenhagen Map-guide to Modern Architecture** Federation of Danish Architects, 1973 *Greening Affordable Housing* Abdullateef Olanrewaju, Zalina Shari, Zhonghua Gou, 2019-01-30 Books on green building theories principles and strategies applicable to life cycles of all kinds of buildings and building types are already widely available However those specifically on greening affordable housing that guide various housing stakeholders at different life cycles are still very limited This book intends to fill this gap Integrating green building enables stakeholders to address the environmental component that has not traditionally been seen as an integral part of affordable housing development The book presents theories and principles with practical methods strategies and processes not only to make affordable housing green but also to support economic stability and social equity Modern Architecture Alan Colquhoun, 2002-04-25 This new account of international modernism explores the complex motivations behind this revolutionary movement and assesses its triumphs and failures The work of the main architects of the movement such as Frank Lloyd Wright Adolf Loos Le Corbusier and Mies van der Rohe is re examined shedding new light on their roles as acknowledged masters Alan Colquhoun explores the evolution of the movement from Art Nouveau in the 1890s to the megastructures of the 1960s revealing the often contradictory demands of form function social engagement modernity and tradition **New Urban Configurations** Nicola Marzot, Meta Berghauser Pont, 2014-04-15 Urban areas have been caught up in a turbulent process of transformation over

the past 50 years and changes have been rapid with issues such as mobility nature water management energy use and public space featuring prominently In each Olympic year since 1988 the Faculty of Architecture at Delft University of Technology has held an international conference focusing on the connection between research and design exploring the field of tension between science technology and art This book presents the proceedings of the latest in this series of conferences New Urban Configurations held in Delft the Netherlands in October 2012 in collaboration with the European Association for Architectural Education EAAE and the International Seminar on Urban Form ISUF This edition of the conference discussed the role and critical potential of the architectural project in the transformation process of cities and territories that leads to new urban configurations The publication contains all 140 accepted papers and a selection of the keynote lectures presented at the conference The papers have been grouped into five main themes innovation in building typology infrastructure and the city complex urban projects green spaces and delta urbanism Four of these major topics are further divided into several subtopics This book will be of interest to everyone involved in designing building thinking about as well as managing the urban landscape and territory
