Problem Cases to Accompany Contemporary Moral Problems James E. White, 1991 Problem Cases to Accompany Contemporary Moral Problems James E. White, 1994 **Contemporary Moral Issues** Lawrence M. Hinman, 2016-07-01

Contemporary Moral Issues is an anthology that provides a selection of readings on contemporary social issues revolving around three general themes: Matters of Life and Death, Matters of Equality and Diversity, and Expanding the Circle, which includes duties beyond borders, living together with animals, and environmental ethics. The text contains a number of distinctive high profile readings and powerful narratives including Jonathan Foer's *Eating Animals*, Eva Feder Kittay's *On the Ethics of Selective Abortion for Disability*, and Susan M. Wolf's *Confronting Assisted Suicide and Euthanasia: My Father's Death*. Each set of readings is accompanied by an extensive introduction, a bibliographical essay, pre-reading questions, and discussion questions.

Contemporary Moral Issues Joe Jenkins, 2002. The 4th edition of *Contemporary Moral Issues* includes up to date examples of religion in context, encourages students to engage in discussion and learn what's involved in giving a reasoned argument, covers problems such as poverty and racism as well as newer issues including medical ethics and biotechnology.

Contemporary Moral Problems Non-Infotrac Version White, 2002-03-01 *Modern Moral Problems* William B. Smith, 2012-01-01. *Modern Moral Problems* addresses moral quandaries that can beguile and confuse faithful Catholics. Written in a question and answer format, the book covers questions regarding sexuality, medical ethics, business practices, civic responsibilities, and the sacramental life of the Church. The extraordinary assortment of issues forming a single organized collection is a valuable reference for anyone seeking clear and concise answers to tough moral questions. Written in a conversational tone, often spiced with humor, this work by a highly respected moral theologian will be read with fascination for its clarity of argument and fundamental good sense. Originally published as a monthly question and answer column in a magazine for priests, these selections by Msgr. William B. Smith retain a striking current topicality. Msgr. Smith often tackled matters of controversy in the Catholic Church, ones which continue to draw conflicting opinions. Interesting, informative, and eminently practical, this book conveys an overall impression that sound thinking about morality is rooted in a tradition within the Catholic Church, even when the answers to particular moral questions cannot be found in catechisms or Vatican documents. Msgr. Smith offers a clear-headed approach to the quandaries of our time precisely because of his training in traditional moral principles and his fidelity to the Catholic magisterium. This book should be in the possession of all seminarians and priests who are bound to confront moral matters that are not so easily decided at first glance. But lay people too will find here rich responses to the challenging and sometimes unresolved moral questions they encounter in their own lives.

International Handbook of the Religious, Moral and Spiritual Dimensions in Education Marian de Souza, Gloria Durka, Kathleen Engebretson, Robert Jackson, Andrew McGrady, 2007-06-04. Traditionally, spirituality has resided and been contained within religious frameworks, but while the links between the two areas are still acknowledged by many in

the contemporary world spirituality is perceived by some as an aspect of human life that is distinct from religion. Consequently many are searching for meaning within and without religious traditions today and seeking answers to ethical and moral questions that have been generated by the knowledge and technological explosion. One outcome is the renewed interest in the religious spiritual and moral dimensions of education throughout the life cycle. This International Handbook presents the research and professional practice of scholars who are daily engaged in the consideration of these dimensions in education. The result is a collection of essays which reflects the discipline in all of its internationality as it is today. Embedded within the chapters is also an agenda for the future where the religious moral and spiritual dimensions in education are proposed as an exciting and challenging way forward for educators at all levels in society. As well it offers a vision for the emergence of a peaceful and just world.

Contemporary Moral Issues Wesley Cragg, Christine M. Koggel, 1997. *Christian Ethics and Contemporary Moral Problems* Michael C. Banner, 1999-09-28. This book addresses such key ethical issues as euthanasia the environment biotechnology abortion the family sexual ethics and the distribution of health care resources. Michael Banner argues that the

task of Christian ethics is to understand the world and humankind in the light of the credal affirmations of the Christian faith and to explicate this understanding in its significance for human action through a critical engagement with the concerns claims and problems of other ethics He illustrates both the distinctiveness of Christian convictions in relation to the above issues and also the critical dialogue with practices based on other convictions which this sense of distinctiveness motivates but does not prevent The book's importance lies in its attempt to show the crucial difference which Christian belief makes to an understanding of these issues whilst at the same time demonstrating some of the weaknesses and confusions of certain popular approaches to them

Moral Problems Michael Palmer, 1995-01-01 Moral Problems takes particular account of the needs of both teacher and student It is not a compendium of ethical theories but a course book providing the instructor student and general reader with a step by step introduction to the major ethical theories For each topic Palmer has provided a lengthy introduction and critique comprehension exercises essay questions and an extensive bibliography He relates each ethical theory to a contemporary issue with an introductory discussion followed by excerpts from the original sources

Kierkegaard and Issues in Contemporary Ethics Méliissa Fox-Muratón, 2020-10-26 While Kierkegaard's philosophy focuses on concrete human existence his thought has rarely been challenged regarding concrete and contemporary moral issues This volume offers an overview of contemporary ethical issues from a Kierkegaardian perspective deliberately taking him out of the sphere of Theology and Christian Ethics and examining the ways in which his works can provide fruitful insight into questions which Kierkegaard certainly never himself envisaged such as accepting refugees into our communities understanding how we relate to social media issues of identity with regard to bioengineering or transgender identity or problems of interreligious dialogue The contributions in this volume by international scholars seek to address both the challenges and insights of Kierkegaard's existential ethics for our contemporary societies and its relation to topics of current interest in the field of moral philosophy The volume is organized into three major sections the first focusing on the relation between ethics and religion a topic of primary importance with regard to the development of religious foundationalism and the challenges of dealing with diverse belief systems within our communities the second on our understandings of ourselves and our relations to others with regard to issues of media and community and the third targeting more specifically questions of identity and the ways in which the developments of modern science impact identity construction This work offers new paths for critically engaging with the moral issues of our times from an existential perspective

Organizational Ethics and Moral Integrity in Secular Societies Kevin Wm Wildes, S.J., 2023-07-31 This book explores an undeveloped area in postmodern thought organizational ethics Ethical debates and analyses usually focus on a particular act or action an actor and or how a secular society should address any of those particular persons or events In the Post Modern age ethical decisions and policies are characterized by moral and cultural pluralism However there is a second factor that complicates ethical and policy decisions even further This book argues that in the postmodern age ethical decisions often need to be

understood as part of the decision making of organizations and bureaucracies Organizational decisions often have direct bearing on the choices made by individuals Two areas that exemplify postmodern issue are the areas of health care and education For example the decision making of Admissions Officers in American higher education are influenced by decisions that have been made by the university about the size of the class and the diversity of the class Health Care organizations make policy decisions that affect every aspect of a patient s care from admission to treatment and the types of care that are or are not offered Both education and health care are the object of the significant investment of resources both areas are value laden in postmodern pluralistic societies and yet we do not have a comprehensive method to understand them or evaluate them This book is of interest to bioethicists physicians nurses health care policy students educational policy experts students and government regulators

Canadian Issues in Environmental Ethics Wesley Cragg, Allan Greenbaum, Alex Wellington, 1997-06-10 Is it possible to design a forest policy that satisfies ethical and environmental concerns and is acceptable to business labour and First Nations representatives What is the best path through the tangle of ethical issues surrounding the collapse of the east coast fishery What sort of obligations does a rich nation such as Canada have to satisfy the claims of global environmental justice These are the sorts of issues in applied ethics that are tackled in this collection of essays the vast majority of which have been written especially for this volume It is the first Canadian collection of its kind The book is divided in to sections detailing with such topics as the environment and the economy ethical issues relating to non human animals issues of gender and issues relating to native peoples Most of the authors are philosophers though specialists in geography geology and the social sciences are also among the contributors Frequent reference is made to theoretical ethical concerns but the focus throughout is on applied ethics and a variety of case studies are included Examples include essays on animal rights and the case of native hunters surface mining in Northern Ontario the Quebec arctic and fishing communities in the Maritimes Comparisons are frequently drawn to policies and ethical questions arising in other countries most prominently the United States
