engagement Uses accessible jargon free language Focused engaging and critically insightful this book will be indispensable to students and scholars of literary and cultural studies comparative literature and postcolonial studies Postcolonial Theory and the United States Amritjit Singh, Peter Schmidt, 2009-11-12 At the beginning of the twenty first century we may be in a transnational moment increasingly aware of the ways in which local and national narratives in literature and elsewhere cannot be conceived apart from a radically new sense of shared human histories and global interdependence To think transnationally about literature history and culture requires a study of the evolution of hybrid identities within nation states and diasporic identities across national boundaries Studies addressing issues of race ethnicity and empire in US culture have provided some of the most innovative and controversial contributions to recent scholarship Postcolonial Theory and the United States Race Ethnicity and Literature represents a new chapter in the emerging dialogues about the importance of borders on a global scale This book collects nineteen essays written in the 1990s in this emergent field by both well established and up and coming scholars Almost all the essays have been either especially written for this volume or revised for inclusion here These essays are accessible well focused resources for college and university students and their teachers displaying both historical depth and theoretical finesse as they attempt close and lively readings The anthology includes more than one discussion of each literary tradition associated with major racial or ethnic communities Such a gathering of diverse complementary and often competing viewpoints provides a good introduction to the cultural differences and commonalities that comprise the United States today The volume opens with two essays by the editors first a survey of the ideas in the individual pieces and second a long essay that places current debates in US ethnicity and race studies within both the history of American studies as a whole and recent developments in postcolonial theory **What Postcolonial Theory Doesn't Say** Anna Bernard, Ziad Elmarsafy, Stuart Murray, 2015-08-11 This book reclaims postcolonial theory addressing persistent limitations in the geographical disciplinary and methodological assumptions of its dominant formations It emerges however from an investment in the future of postcolonial studies and a commitment to its basic premise namely that literature and culture are fundamental to the response to structures of colonial and imperial domination To a certain extent postcolonial theory is a victim of its own success not least because of the institutionalization of the insights that it has enabled Now that these insights no longer seem new it is hard to know what the field should address beyond its general commitments Yet the renewal of popular anti imperial energies across the globe provides an important opportunity to reassert the political and theoretical value of the postcolonial as a comparative interdisciplinary and oppositional paradigm This collection makes a claim for what postcolonial theory can say through the work of scholars articulating what it still cannot or will not say It explores ideas that a more aesthetically sophisticated postcolonial theory might be able to address focusing on questions of visibility performance and literariness Contributors highlight some of the shortcomings of current postcolonial theory in relation to contemporary political developments such as Zimbabwean land reform postcommunism and

the economic rise of Asia Finally they address the disciplinary geographical and methodological exclusions from postcolonial studies through a detailed focus on new disciplinary directions management studies international relations disaster studies overlooked locations and perspectives Palestine Weimar Germany the commons and the necessity of materialist analysis for understanding both the contemporary world and world literary systems

Postcolonial Theory and Autobiography David Huddart, 2008-04-18 Cultural theory has often been criticized for covert Eurocentric and universalist tendencies Its concepts and ideas are implicitly applicable to everyone ironing over any individuality or cultural difference Postcolonial theory has challenged these limitations of cultural theory and Postcolonial Theory and Autobiography addresses the central challenge posed by its autobiographical turn Despite the fact that autobiography is frequently dismissed for its Western masculine bias David Huddart argues for its continued relevance as a central explanatory category in understanding postcolonial theory and its relation to subjectivity Focusing on the influence of post structuralist theory on postcolonial theory and vice versa this

study suggests that autobiography constitutes a general philosophical resistance to universal concepts and theories Offering a fresh perspective on familiar critical figures like Edward W Said and Gayatri Chakravorty Spivak by putting them in the context of readings of the work of Jacques Derrida Gilles Deleuze and Alain Badiou this book relates the theory of autobiography to expressions of new universalisms that together with postcolonial theory rethink and extend norms of experience investigation and knowledge

Postcolonial Theory and Crisis Paulo de Medeiros, Sandra Ponzanesi, 2024-04-01 In the millennial transition the prefix post had come to signify more and more not just the realisation of a coming after but also of the impossibility of not seeing the present as still very much working through the wounds of the past Yet with the appearance of pseudo concepts such as post truth after an equally imaginary death of History the logic of the post itself always already under questioning may appear to have outlived its usefulness How to make sense of postcolonial theory in Europe in the present One way might be to renew its significance as world conflicts have entered a new post imperial phase with the return of ideologies of empire in various parts of the world The essays in this volume address those questions at both a conceptual theoretical level and through the analysis of specific case studies In the Introduction Paulo de Medeiros and Sandra Ponzanesi review the main questions outlined above in relation to the current debates in the Humanities from their respective disciplinary perspectives The volume is organised in four sections each containing four chapters Even though all the chapters present a reflection on Postcolonial Theory and Crisis some focus more specifically on aspects of the crisis in a global perspective such as humanitarian crisis and the role of

mediatization of conflicts to issues related to human rights refugees migrancy environmental crisis to questions of memory and postmemory as well as the critique of art and utopian thought *Postcolonialism* Tariq Jazeel, 2019-02-22

Postcolonialism is a book that examines the influence of postcolonial theory in critical geographical thought and scholarship Aimed at advanced level students and researchers the book is a lively stimulating and relevant introduction to postcolonial geography that elaborates on the critical interventions in social cultural and political life this important subfield is poised to make The book is structured around three intersecting parts Spaces Identity hybridity Knowledge that broadly follow the trajectory of postcolonial studies since the late 1970s It comprises ten main chapters each of which is situated at the intersections of postcolonialism and critical human geography In doing so Postcolonialism develops three key arguments First that postcolonialism is best conceived as an intellectually creative and practical set of methodologies or approaches for critically engaging existing manifestations of power and exclusion in everyday life and in taken as given spaces Second that postcolonialism is at its core concerned with the politics of representation both in terms of how people and space are represented but also the politics surrounding who is able to represent themselves and on what whose terms Third the book argues that postcolonialism itself is an inherently geographical intellectual enterprise despite its origins in literary theory In developing these arguments and addressing a series of relevant and international case studies and examples throughout Postcolonialism not only demonstrates the importance of postcolonial theory to the contemporary critical geographical imagination It also argues that geographers have much to offer to continued theorizations and workings of postcolonial theory politics and intellectual debates going forward This is a book that brings critical analyses of the continued and omnipresent legacies of colonialism and imperialism to the heart of human geography but also one that returns an avowedly critical geographical disposition to the core of interdisciplinary postcolonial studies **The Postcolonial Exotic** Graham Huggan, 2002-09-26 Travel writing it has been said helped produce the rest of the world for a Western audience Could the same be said more recently of postcolonial writing In *The Postcolonial Exotic* Graham Huggan examines some of the processes by which value is attributed to postcolonial works within their cultural field Using varied methods of analysis Huggan discusses both the exoticist discourses that run through postcolonial studies and the means by which postcolonial products are marketed and domesticated for Western consumption Global in scope the book takes in everything from the latest Indo chic to the history of the Heinemann African Writers series from the celebrity stakes of the Booker Prize to those of the US academic star system from Canadian multicultural anthologies to Australian tourist novels This timely and challenging volume points to the urgent need for a more carefully grounded understanding of the processes of production dissemination and consumption that have surrounded the rapid development of the postcolonial field *Zones of Instability* Imre Szeman, 2004-12-01 Attempts by writers and intellectuals in former colonies to create unique national cultures are often thwarted by a context of global modernity which discourages particularity and uniqueness In describing unstable social and

political cultures such third world intellectuals often find themselves torn between the competing literary requirements of the local culture of the colony and the cosmopolitan world culture introduced by Western civilization In *Zones of Instability* Imre Szeman examines the complex relationship between literature and politics by exploring the production of nationalist literature in the former British empire Taking as his case studies the regions of the British Caribbean Nigeria and Canada Szeman analyzes the work of authors for whom the idea of thenation and literature are inexorably entwined such as Chinua Achebe Wole Soyinka C L R James Frantz Fanon and V S Naipaul Szeman focuses on literature created in the two decades after World War II decades in which the future prospects for many colonies went from extreme political optimism to extreme political disappointment He finds that the nation can be read as that space in which literature is thought to be able to conjoin two things that history has separated the writer and the people
