Daring Proposition

Bernard M. G. Reardon

Daring Proposition:

"Chatter" Peter Fenves, Peter David Fenves, 1993 This book shows that in chatter Kierkegaard uncovered a specifically linguistic mode of negativity which became the medium in which a non speculative and non historicism presentation of history could be carried out The author examines in detail those writings of Kierkegaard in which he undertook complex negotiations with the threat and also the promise of chatter

Sex and the Second-Best City Kenneth Royce Moore, 2005-07-19 Sex and the Second Best City deals with the topics of sex and society in the Laws of Plato with recourse to historical context and modern critical theory It examines reconstructions of ancient sexuality with a view to increased clarification The text of the Laws is considered along with many of its literary qualities its influences and the utopian plan that it proposes

MATERIAL WITNESS Susan Schuppli, 2020-02-25 The evidential role of matter when media records trace evidence of violence explored through a series of cases drawn from Kosovo Japan Vietnam and elsewhere In this book Susan Schuppli introduces a new operative concept material witness an exploration of the evidential role of matter as both registering external events and exposing the practices and procedures that enable matter to bear witness Organized in the format of a trial Material Witness moves through a series of cases that provide insight into the ways in which materials become contested agents of dispute around which stake holders gather These cases include an extraordinary videotape documenting the massacre at Izbica Kosovo used as war crimes evidence against Slobodan Milo evi the telephonic transmission of an iconic photograph of a South Vietnamese girl fleeing an accidental napalm attack radioactive contamination discovered in Canada s coastal waters five years after the accident at Fukushima Daiichi and the ecological media or disaster film produced by the Deep Water Horizon oil spill in the Gulf of Mexico Each highlights the degree to which a rearrangement of matter exposes the contingency of witnessing raising questions about what can be known in relationship to that which is seen or sensed about who or what is able to bestow meaning onto things and about whose stories will be heeded or dismissed An artist researcher Schuppli offers an analysis that merges her creative sensibility with a forensic imagination rich in technical detail Her goal is to relink the material world and its affordances with the aesthetic the juridical and the political

Ancient Greece Sigrid Deger-Jalkotzy, 2006-07-27 The period between the collapse of the Mycenaean civilization around 1200 BC and the dawning of the classical era four and half centuries later is widely known as the Dark Age of Greece not least in the eponymous history by A M Snodgrass published by EUP in 1971 and reissued by the Press in 2000 In January 2003 distinguished scholars from all over the world gathered in Edinburgh to re examine old and new evidence on the period The subjects of their papers were chosen in advance by the editors so that taken together they would cover the field This book based on thirty three of the presentations will constitute the most fundamental reinterpretation of the period for 30 years The authors take issue with the idea of a Greek Dark Age and everything it implies for the understanding of Greek history culture and society They argue that the period is characterised as much by continuity as

disruption and that the evidence from every source shows a progression from Mycenaean kingship to the conception of aristocratic nobility in the Archaic period The volume is divided into six parts dealing with political and social structures questions of continuity and transformation international and inter regional relations religion and hero cult Homeric epics and heroic poetry and the archaeology of the Greek regions Copiously illustrated and with a collated bibliography itself a valuable resource this book is likely to be the essential and basic source of reference on the later phases of the Mycenaean and the Early Greek Iron Ages for many years *Memoirs of Barras, Member of the Directorate: The directorate up to the 18th fructidor* Paul vicomte de Barras, 1895 Paul Francois Jean Nicolas vicomte de Barras 30 June 1755 29 January 1829 was a French politician of the French Revolution and the main executive leader of the Directory regime of 1795 1799 Owing to his intimate relations with Josphine de Beauharnais Barras helped to facilitate a marriage between her and Bonaparte Some of his contemporaries alleged that this was the reason behind Barras nomination of Bonaparte to the command of the army of Italy early in the year 1796 Bonaparte s success gave to the Directory an unprecedented stability and when in the summer of 1797 the royalist and surviving Girondist opposition again met the government with resistance Bonaparte sent General Augereau a Jacobin to repress their movement in the Coup of 18 Fructidor 4 September 1797 Wikipedia **The Legion of Liberty! and Force of Truth**, 1847 **Northern Rockies Ecosystem Protection Act of 1993** United States. G. Reardon, 1966 Mr Reardon begins with a substantial introduction characterizing the age as a whole contrasting it with the pervious century and assessing its permanent achievements The book is divided into two parts The first deals with twelve writers from continental Europe with an account of the chosen author s life work and opinions The

second deals with British and American writers and again each of the twelve chapters is introduced by an essay of about 1500 words Mr Reardon gives special attention to the philosophical interpretation of religion and of Christianity in particular traditional dogma and ecclesiastical politics whether Roman Catholic or Protestant have been avoided and emphasis is given to ideas and interests that are characteristic of the period Not all the thinkers introduced e g Feuerbach Comte J S Mill are themselves Christians The results is a clear picture of the main currents of Western religious thought in the nineteenth century It is a century which the students of religion today is likely to find of great interest and to which many feel a close affinity Publisher *Murder On High* Robert Hall-Homstad,2005-08 A who done it set in the turbulent 1960 s that involve two unlikely pals One is a police detective and the other is a newspaper reporter They cross the lines hide evidence and step on toes on their way to solving two murders Arriving on the scene they find the caretaker to a luxury condominium brutally murdered in a socialite heiress apartment The crime soon involves the young daughter of the caretaker her boyfriend and the seamy underworld that haunts every city The victim was involved with many of the women residents and home movie pornography If that was not enough even the CIA was involved Local events are influenced by the war in Vietnam and the assassination of President Kennedy **Illusions of Sceptics** Jiri Fuchs,2021-08-31 It is the authors belief that philosophers if they aspire to critical thinking have to start their investigation by embracing the concept of truth as an underlying characteristic of the human thought The cornerstone of the entire Noetics is to construct the apodictic proof of the objective truth which is in the correspondence sense assumed whether they realize it or not even by the most extreme sceptics This proof also refutes the traditional objections purporting that all the attempts at the self explanation of reason inevitably result in dogmatism circular logic or infinite regress Accordingly the verification of truth as a mandatory attribute of the human thought becomes the main benchmark not just for the noetic but for every subsequent philosophical investigation This critical confrontation invalidates the modern theories of knowledge along with their negativistic vein exposing them as basically dogmatic and intrinsically contradictory By providing a liberating distance from the principle authorities of modern philosophy the true Noetics can show that the tragic and anthropologically destructive outcome in the postmodern relativism of values is by no means an indispensable attribute of philosophy proper but just a consequence of the failure of the modern thinkers to pay proper attention to the Noetics *The Legion of Liberty* Julius Rubens Ames,1857 **Historical Sketches of O'Connell and His Friends** Thomas D'Arcy McGee,1845 **Life and Public Services of Hon.
