Bering's Voyages Frank Alfred Golder,1925 *Bering's Voyages: Steller's journal of the sea voyage from Kamchatka to America and return on the second expedition, 1741-1742; translated and in part annotated by Leonhard Stejneger* Frank Alfred Golder,1925 Bering's Voyages: The log books and official reports of the first and second expeditions, 1725-1730 and 1733-1742 Frank Alfred Golder,1922 Bering's Voyages: The log books and official reports of the first and second expeditions, 1725-1730 and 1733-1742. The first expedition, 1725-1730, and its setting. The geographical knowledge of the north Pacific Ocean at the beginning of the eighteenth century Frank Alfred Golder,1922 Translated from the logs and journals Includes a chart of the voyage of Bering and Chirikov in the St Peter and the St Paul from Kamchatka to the Alaska coast and return 1741 based on the log books and other original records and adjusted to known physical conditions by Ellsworth P Bertholf v 1 **Journal of a Voyage with Bering, 1741-1742** Georg Wilhelm Steller,O. W. Frost,1988 New translation based completely on a surviving copy of Steller s 1743 manuscript that details the exploration of Alaska The Bering Strait Crossing James Oliver,2006 The Bering Strait Crossing is the epic story of the Intercontinental Divide This is where the 53 mile wide strait named for Danish explorer Vitus Bering 1681 1741 separates four continents across the Europe Asia landmass and the Americas **Bering's Voyages** Gerard Fridrikh Miller,1986 First translated account of the travels round the shores of Bristol Bay of two P Korsakovskiy 1818 and I Ya Vasilev 1829 Contains useful information on the region s ethnography natural history and geography as well as observations important to the development of the fur trade Maps included **The Journals of Captain James Cook on his Voyages of Discovery** J.C. Beaglehole,2017-07-05 Captain James Cook s first two voyages of exploration in 1768 71 and 1772 75 had drawn the modern map of the South Pacific Ocean and had opened the door on the discovery of Antarctica These expeditions were the subject of Volumes I and II of Dr J C Beaglehole s edition of Cook s Journals The third voyage on which Cook sailed in 1776 was directed to the Northern Hemisphere Its objective was the discovery of a Northern Passage by sea from the Pacific to the Atlantic Ocean the North west Passage sought since the 16th century which would have transformed the pattern of world trade The search was to take Cook into high latitudes where as in the Antarctic his skill in ice navigation was tested Sailing north from Tahiti in 1778 Cook made the first recorded discovery of the Hawaiian Islands On March 7 he sighted the Oregon coast in 44 N The remarkable voyage which he made northward along the Canadian and Alaskan coasts and through Bering Strait to his farthest north in 70 nearly disproved the existence of a navigable passage towards the Atlantic and produced charts of impressive accuracy Returning to Hawaii to refit Cook met his death in a clash with the natives as tragic as it seems unnecessary Dr Beaglehole discusses with sympathy and insight the tensions which led Cook by then a tired man into miscalculations alien to his own nature and habits The volume and vitality of the records both textual and graphic for this voyage surpass those even for Cook s second voyage The surgeons William Anderson and David Samwell both admirable observers left journals which are also

here printed in full for the first time The documentation is completed as in the previous volumes by appendixes of documents and correspondence and by reproductions of original drawings and paintings mainly by John Webber the artist of the expedition In Dr Beaglehole's words no one can study attentively the records of Cook's third and last voyage *Bering's Voyage: The log books and official reports of the first and second expeditions, 1725-1730 and 1733-1742* Frank Alfred Golder, 1922

Bering's Voyages Frank Alfred Golder, 1968 Bering Orcutt William Frost, Orcutt Frost, Professor Orcutt Frost, 2003-01-01 Om den danske opdagelsesrejsende Vitus Bering 1681 1741 og om hans rejser fra Sibirien til Nordamerika og Alaska *Voyages of Delusion* Glyndwr Williams, 2003-01-01 Describes the expeditions embarked upon by sailors and speculators to navigate the Northwest Passage during the Age of Reason in the eighteenth century Terra Cognita Eviatar Zerubavel, 2018-04-17 Most of us are fascinated by the conventional storybook account of Christopher Columbus' heroic discovery of America in 1492 Yet should the credit for discovering America go to a man who insisted it was but a few islands off the shores of China In *Terra Cognita* Eviatar Zerubavel argues that physical encounters are only one part of the complex multifaceted process of discovery Such encounters must be complemented by an understanding of the true identity of what is being discovered The small group of islands claimed by Columbus to have been discovered off the shores of Asia was a far cry from what we now call America The discovery of the New World was not achieved in a single day but was a slow process mental as well as physical that lasted almost three hundred years By celebrating 1492 as a year of discovery we inevitably distort the reality of history In vividly documenting how a slowly emerging New World gradually forced itself into Europe's consciousness Zerubavel shows that Columbus did not discover America on October 12 1492 Supplemented by fascinating old maps and a new preface written for this paperback edition *Terra Cognita* will be of interest to historians geographers cognitive scientists sociologists and students of culture **North American Exploration** John Logan Allen, 1997-01-01 The three volumes of *North American Exploration* appraise the full scope of the exploration of the North American continent and its oceanic margins from prior to the arrival of Columbus until the end of the nineteenth century More than an assessment of historical events these volumes portray the process of exploration Without forgetting the romance of discovery the authors recognize that exploration encompasses a great deal more than the adventures themselves All explorers are conditioned by the time place and circumstances of their efforts these determine objectives the behavior of explorers and the consequences of their discoveries The second volume includes the exploration of North America from the Spanish entrada of the sixteenth century to the British and Russian explorations of the Pacific coastal regions at the end of the eighteenth century a time during which North America was largely defined and understood in terms of advancing scientific viewpoints during the European Enlightenment Discovery gave way to Exploration and supposition to understanding Problems of Polar Research American Geographical Society of New York, Wolfgang Louis Gottfried Joerg, American Geographical Society, 1928 Ways and means of polar exploration and problems needing further study **Special Publication** American Geographical

Society of New York,1928 A Bibliography of Alaskan Literature, 1724-1924 James Wickersham,1927 Contains the titles of all histories travels voyages newspapers periodicals public documents etc printed in English Russian German French Spanish etc relating to descriptive of or published in Russian America or Alaska from 1724 to and including 1924 **Kungliga Svenska vetenskapsakademiens handlingar ...** Kungl.
