Augustine S Em City Of God Em Cambridge Critical Guides:

Augustine's City of God Gerard O'Daly, 2020-10-22 The most influential of Augustine's works City of God played a decisive role in the formation of the Christian West Augustine wrote City of God in the aftermath of the Gothic sack of Rome in AD 410 at a time of rapid Christianization across the Roman Empire Gerard O'Daly's book remains the most comprehensive modern guide in any language to this seminal work of European literature In this new and extensively revised edition O'Daly takes into account the abundant scholarship on Augustine in the twenty years since its first publication while retaining the book's focus on Augustine as a writer in the Latin tradition He explores the many themes of City of God which include cosmology political thought anti-pagan polemic Christian apologetic theory of history and biblical interpretation This guide therefore is about a single literary masterpiece yet at the same time it surveys Augustine's developing views through the whole range of his thought As well as a running commentary on each part of the work O'Daly provides chapters on the themes of the work a bibliographical guide to research on its reception translations of any Greek and Latin texts discussed and detailed suggestions for further reading

Augustine's City of God James Wetzel, 2012-10-04 Augustine's City of God has profoundly influenced the course of Western political philosophy but there are few guides to its labyrinthine argumentation that hold together the delicate interplay of religion and philosophy in Augustine's thought The essays in this volume offer a rich examination of those themes using the central contested distinction between a heavenly city on earthy pilgrimage and an earthly city bound for perdition to elaborate aspects of Augustine's political and moral vision Topics discussed include Augustine's notion of the secular his critique of pagan virtue his departure from classical eudaimonism his mythology of sin his dystopian politics his surprising attention to female bodies his moral psychology his valorisation of love his critique of empire and his conception of a Christian philosophy Together the essays advance our understanding of Augustine's most influential work and provide a rich overview of Augustinian political theology and its philosophical implications

T&T Clark Handbook of Political Theology Rubén Rosario Rodríguez, 2019-10-03 The T and the contributors then build on previously discussed historical resources and methods to engage with contemporary issues and challenges emphasizing interreligious dialogue even while addressing concerns of relevance to a particular faith tradition The volume concludes with three essays that look at the future of political theology from the perspective of each Abrahamic religion Complete with select bibliographies for each topic this companion features the most current overview of political theology that will reach a broader global audience of students and scholars

[Augustine's Teaching on the Two Cities \(Civitates\) and Nigerian Society](#) Leonard Oshiokhamele Anetekhai, 2020-09-28 Augustine's creative and allegorical thought in his City of God on social life is one that provides citizens of the earthly cities especially Christians an opportunity to understand why and how they should contribute positively to public life through faith and social responsibility Believing that human life is social our human social existence must transcend and go beyond social religious and political affiliations This requires that

individuals be good and upright in their social engagements as religious and political citizens It also entails individual rights duties and obligations without excluding the fight against injustice social vice exploitation and power abuse within human society These sets of values and the positive outcome thereof can only be achieved through love This love is the driving force to social peace a love which must promote order and justice within societal life Irrespective of its heavenly orientation these teachings are significantly context bound like every theological and philosophical endeavour that concerns and connects the human person to its earthly realities Contextualising these concepts within human existence flows from a social religious and political assessment It tends primarily towards moral benefits and social norms that must not lose sight of the spiritual reality which enlightens and build good moral conscience that impacts virtues and values in society **Producing Christian**

Culture Giles E. M. Gasper, Francis Watson, Matthew R. Crawford, 2017-06-26 Producing Christian Culture takes as its thread the interpretative genres within which medieval people engaged with the Bible Contributors to the volume present specific material as a case study illustrative of a specific genre whether devotional homiletical scholarly or controversial The chronological range moves from St Augustine to the use of gospel texts in polemical writing of the first two decades of the 1500s with focal sections on early medieval Anglo Saxon and Carolingian theology the scholastic turn of the High Middle Ages and the influence of vernacular writing in the later Middle Ages The tremendous range and vitality of medieval responses to biblical texts are highlighted within the studies **Augustine and Time** John Doody, Sean Hannan, Kim Paffenroth, 2021-05-25 This collection examines the topic of time in the life and works of Augustine of Hippo Adopting a global perspective on time as a philosophical and theological problem the volume includes reflections on the meaning of history the mortality of human bodies and the relationship between temporal experience and linguistic expression As Augustine himself once observed time is both familiar and surprisingly strange Everyone's days are structured by temporal rhythms and routines from watching the clock to whiling away the hours at work Few of us however take the time to sit down and figure out whether time is real or not or how it is we are able to hold our past present and future thoughts together in a straight line so that we can recite a prayer or sing a song Divided into five sections the essays collected here highlight the ongoing relevance of Augustine's work even in settings quite distinct from his own era and context The first three sections organized around the themes of interpretation language and gendered embodiment engage directly with Augustine's own writings from the Confessions to the City of God and beyond The final two sections meanwhile explore the afterlife of the Augustinian approach in conversation with medieval Islamic and Christian thinkers like Avicenna and Aquinas as well as a broad range of Buddhist figures like Dharmakirti and Vasubandhu What binds all of these diverse chapters together is the underlying sense that regardless of the century or the tradition in which we find ourselves there is something about the puzzle of temporality that refuses to go away Time as Augustine knew demands our attention This was true for him in late ancient North Africa It was also true for Buddhist thinkers in South and East Asia And it remains just as true for humankind

in the twenty first century as people around the globe continue to grapple with the reality of time and the challenges of living in a world that always seems to be speeding up rather than slowing down Augustine's City of God James Wetzel, 2012-10-04 This volume addresses the complex and conflicted vision in Augustine's City of God as a heavenly city on earthly pilgrimage *The Journey toward God in Augustine's Confessions* Carl G. Vaught, 2012-02-01 This detailed discussion of Augustine's journey toward God as it is described in the first six books of the Confessions begins with infancy moves through childhood and adolescence and culminates in youthful maturity In the first stage Augustine deals with the problems of original innocence and sin in the second he addresses a pear stealing episode that recapitulates the theft of the forbidden fruit in the Garden of Eden and confronts the problem of sexuality with which he wrestles until his conversion and in the third he turns toward philosophy only to be captivated successively by dualism skepticism and Catholicism Augustine's journey exhibits temporal spatial and eternal dimensions and combines his head and his heart in equal proportions Vaught shows that the Confessions should be interpreted as an attempt to address the person as a whole rather than through our intellectual or volitional dimensions exclusively The passion with which Augustine describes the end of his journey is reflected best in a sentence found in the opening chapter of the text You have made us for yourself and our heart is restless until it rests in you Interpreting this statement Carl G Vaught presents a more emphatically Christian Augustine than is usually found in contemporary scholarship Refusing to view Augustine in an exclusively Neoplatonic framework Vaught holds that Augustine baptizes Plotinus just as successfully as Aquinas baptizes Aristotle It cannot be denied that Ancient philosophy influences Augustine decisively Nevertheless he holds the experiential and the theoretical dimensions of his journey toward God together as a distinctive expression of the Christian tradition *Religião Urbana: Uma Abordagem Histórica* Jörg Rüpke, 2022-07-19 O livro Religião urbana uma abordagem histórica demonstra como as mudanças importantes da religião podem ser mais bem compreendidas como resultado da dialética dos imaginários da cidade e da religião Essa afirma o geral argumentada de maneira exemplar para o mundo mediterrâneo antigo desde o período helenístico até o final do Período Imperial romano e nesse sentido para a cidade de Roma em particular Muitas características da religião antiga seriam mais plausivelmente compreendidas como o resultado de efeitos e usos específicos do espaço e de suas bases sociais e cognitivas do que como características inerentes de uma religião específica Tais características são o desenvolvimento de certos rituais de massa ligados a estruturas teatrais e circenses a encenação generalizada de procissões teatrais o papel declinante do sacrifício animal a intelectualização da religião e o estabelecimento não só de redes especificamente religiosas e inicialmente pequenas religiões de grupo mas também de formas de fixação de deuses a lugares específicos e a própria estrutura de um politeísmo informado por uma pluralidade de templos locais o reflexo dessa situação nos intelectuais e nas pessoas simples e sua apropriação e reivindicação do espaço urbano que os tornaram sujeitos desses processos **The Idea of the Theater in Latin Christian Thought** Donnalee Dox, 2009-12-18 Through well informed and nuanced readings of key documents from the

fourth through fourteenth centuries this book challenges historians long held beliefs about how concepts of Greco Roman theater survived the fall of Rome and the Middle Ages and contributed to the dramatic triumphs of the Renaissance Dox's work is a significant contribution to the history of ideas that will change forever the standard narrative of the birth and development of theatrical activity in medieval Europe Margaret Knapp Arizona State University an elegantly concise survey of the way classical notions of theater have been interpreted in the Latin Middle Ages Dox convincingly demonstrates that far from there being a single medieval attitude towards theater there was in fact much debate about how theater could be understood to function within Christian tradition even in the so called dark ages of Western culture This book makes an innovative contribution to studies of the history of the theater seen in terms of the history of ideas rather than of practice Constant Mews Director Centre for the Study of Religion Theology University of Monash Australia In the centuries between St Augustine and Bartholomew of Bruges Christian thought gradually moved from a brusque rejection of classical theater to a progressively nuanced and positive assessment of its value In this lucidly written study Donnalee Dox adds an important facet to our understanding of the Christian reaction to and adaptation of classical culture in the centuries between the Church Fathers and the rediscovery of Aristotle Philipp W Rosemann University of Dallas This book considers medieval texts that deal with ancient theater as documents of Latin Christianity's intellectual history As an exercise in medieval historiography this study also examines biases in modern scholarship that seek links between these texts and performance practices The effort to bring these texts together and place them in their intellectual contexts reveals a much more nuanced and contested discourse on Greco Roman theater and medieval theatrical practice than has been acknowledged The book is arranged chronologically and shows the medieval foundations for the Early Modern integration of dramatic theory and theatrical performance The Idea of the Theater in Latin Christian Thought will be of interest to theater historians intellectual historians and those who work on points of contact between the European Middle Ages and Renaissance The broad range of documents discussed liturgical treatises scholastic commentaries philosophical tracts and letters spanning many centuries renders individual chapters useful to philosophers aestheticians and liturgists as well as to historians and historiographers For theater historians this study offers an alternative reading of familiar texts which may alter our understanding of the emergence of dramatic and theatrical traditions in the West Because theater is rarely considered as a component of intellectual projects in the Middle Ages this study opens a new topic in the writing of medieval intellectual history

The Augustinian Person Peter Burnell, 2005-12 Augustine's notions of human nature and of person have not received adequate systematic treatment despite their centrality to all the important areas of his thought Although he notoriously changed his mind on many major points his explorations of human nature and person remained central and to a great extent consistent across his mature and most important works In this insightful and accessible book Peter Burnell examines the crucial issues in Augustine's understanding of these two related subjects and concentrates on Augustine's fullest development of that

understanding Through careful analysis of Augustine's writings Burnell concludes that Augustine conceives of human nature as a unity at every level socially morally and in basic constitution despite very common objections that he fails to achieve such a conception Furthermore Augustine's doctrine of the Incarnation is the basis of his notion of person not only human but divine Thus the eternal relationships of God's interior life though unchanging have always had an outward bearing in the sense of being eternally oriented on the Incarnation Continued interest in Augustine as a historical figure and a resource for contemporary reflection as well as contemporary theorizing by both philosophers and theologians about the human person makes this study significant not only for the understanding of Augustine but for more general questions raised today regarding the human person

ABOUT THE AUTHOR Peter Burnell is professor of history and Classics at the University of Saskatchewan PRAISE FOR THE BOOK Reading The Augustinian Person is an adventure for the mind Burnell's delicately framed questions about Augustine's understanding of the human person allow him to enter into conversation with other writers about evil and good justice and compassion grace and concupiscence and life in this world and in the next Showing how Augustine was part of the intellectual tradition of his time Burnell includes both critics and lovers in a discussion that also identifies questions yet unsolved Allan Fitzgerald O S A Istituto Patristico Augustinianum This is a very solid study of Augustine which begins from the unexpected but intuitively brilliant starting point of expositing Augustine's theological anthropology Augustine was always more interested in what it means to live the Christian life than he was in finding the perfect doctrinal formula and Burnell's work ably shows the benefits of studying him as if he were initially interested in the human condition before God Charles Mathewes University of Virginia While sympathetic to Augustine's concerns Burnell nevertheless provokes successfully and admirably a sustained interplay between potentially conflicting views in Augustine's texts and the equally conflicting interpretations of his works proposed by commentators recent and not so recent who question the coherence of Augustine's views The extraordinary richness of detail that marks this interplay attests to the effort Burnell expended in unraveling the nuances of the controversy over the meaning of Augustine's texts Marianne Djuth Theological Studies Augustine's conception of the human person is a difficult topic to comprehend even for seasoned readers of his works Peter Burnell however has managed to do so with extraordinary skill by engaging in a painstaking analysis of the subtle details of Augustine's texts that oftentimes go unnoticed In the end what emerges from this meticulous study of Augustine is a comprehensive vision of his anthropology together with a clear sense of the centrality of the person in his thought The Thomist I would strongly advise to read this study for all who are interested in the history of philosophical anthropology in general and for

Theological Metaphysics Ray C. Robles, 2023-11-16 Insofar as Christian theology aims to make truthful claims about the nature of reality it is necessarily involved in the enterprise of metaphysics Pentecostals precisely as Christians are thus obliged to participate Through this study it becomes evident that pentecostals aim to participate in the metaphysical discipline in the same way they theologize that is informed by the norms practices and speech

acts that constitute their spirituality This book aims to construct a Christian metaphysics that is at once attuned to pentecostal spirituality theology and informed by the classical tradition of Christian metaphysics Ultimately this work offers a constructive and critical engagement with pentecostal spirituality and with pentecostal theology via the larger ecumenical creedal and dogmatic metaphysical tradition Thus this book is explicitly and intentionally limited to understand metaphysics in conversation with the historical Christian tradition and to understand a pentecostal vision of it Images, Perceptions and Productions in and of Antiquity Maria Helena Trindade Lopes, André Patrício, 2023-01-06 This book provides access to new and exclusive research in several Antiquity and Antiquity related fields and subjects Revolving around four general subjects Ancient Egypt the Ancient Near and Middle East the Classical World and the Reception of Antiquity it will provide access to new works spanning from archaeology literature art reception studies among others allowing the reader to gain insights into some of the most current subjects of investigation in modern academia **The Word and Its Witness** Gregory S. Williams, 2014-06-04 The current controversy over the Bible s text and translations is creating confusing division within the ranks of Fundamentalism A mass of m isinformation fuels the debate Scores of men realize the enormous errors being popularized but hesitate to engender further debate by speaking out The confusion however is now so pervasive within Fundamentalism that the true biblical and historical facts on

the text transmission and translations of Scripture must be restated in layman's terms These facts argue eloquently for the unity not the division of God's people on these issues **The Autism of Gxd** Ruth M. Dunster, 2022-12-02 The Autism of Gxd An Atheological Love Story is truly a love story the story of Ruth Dunster's autistic search for an authentic personal and theological Gxd In this it resembles Augustine's Confessions as a theological autobiography It becomes atheological however as Dunster reckons with what Denys Turner terms The Darkness of God This awareness leads her through the poetry of Medieval mystics to the mythic death of God theology of Thomas J J Altizer The search for faith is nonetheless very real in this strange territory Dunster hears her autistic Gxd speaking in art poetry novels and music and this further leads her into the territory of Literature Theology and the Arts where in Blanchot's words the answer is the poem's absence Indeed Dunster calls the book a strange poem or even a hymn Weaving an autistic mythology out of a rigorous survey of clinical autism this book abounds in challenge and paradox It offers a fascinating view into how an autistic poet becomes a theologian and what more mainstream theologies might learn from this disabled Gxd **British Books** ,1912 Paperbound Books in Print ,1984
