Acing the New SAT I Math ,2004-09 Acing the New SAT I Math is a test prep guide for the math sections of the new

SAT I The book takes a learning fundamentals approach that sets it apart from other SAT materials. Written by a test prep teacher of ten years, *Acing* focuses on solid teaching and practice to help students master all the skills they need for the SAT I math. The book covers all the math topics found on the new SAT I, organized by subject into twenty chapters. Each chapter contains a tutorial, exercise set, and solutions. Three full-length practice tests are provided at the end of the book. Because *Acing's* emphasis is learning and mastering math concepts, the book includes 500 practice problems, not including example problems or practice tests more than are found in other test prep books. It also includes the most detailed solutions guides on the market, taking students step by step through each problem to help them identify their mistakes and hone their skills. *Acing* also seeks to eliminate the wordiness found in most other test prep books, employing a 2-column format in the tutorials. Key terms and illustrations in the left-hand column present the math concepts as clearly and concisely as possible. Example problems in the right-hand column enable students to simultaneously learn the application of these concepts. In all areas, *Acing* is designed with an emphasis on clear and direct teaching and with the belief that practice is the best preparation for any exam, including a standardized test like the SAT. Skipping the tricks and gimmicks, *Acing* stands apart from all the other test prep guides on the market. The book is also written to be a stand-alone resource so students can prepare for the SAT and PSAT on their own, independent of outside instruction.
