Portlet API Lucene James and Slide taking you step by step through constructing and deploying portal applications You trace the anatomy of a search engine and understand the Lucene query syntax set up Apache James configuration for a variety of servers explore object to relational mapping concepts with Jakarta OJB and acquire many other skills necessary to create J2EE portals uniquely suited to the needs of your organization Loaded with code intensive examples of portal applications this book offers you the know how to free your development process from the restrictions of pre packaged solutions What does this book cover Here s what you will learn in this book How to evaluate business requirements and plan the portal How to develop an effective browser environment How to provide a search engine messaging database inquiry and content management services in an integrated portal application How to develop Web services for the portal How to monitor test and administer the portal How to create portlet applications compliant with the JavaPortlet API How to reduce the possibility of errors while managing the portal to accommodate change How to plan for the next generation application portal Who is this book for This book is for professional Java developers who have some experience in portal development and want to take advantage of the options offered by open source tools

Application Architecture for WebSphere Joey Bernal, 2008-09-15

Architect IBM WebSphere Applications for Maximum Performance Security Flexibility Usability and Value Successful high value WebSphere applications begin with effective architecture Now one of IBM s leading WebSphere and WebSphere Portal architects offers a hands on best practice guide to every facet of defining planning and implementing WebSphere application architectures Joey Bernal shows working architects and teams how to define layered architectural standards that can be used across the entire organization improving application quality without compromising flexibility Bernal begins by illuminating the role of architecture and the responsibilities of the architect in WebSphere applications and SOA environments Next he introduces specific architectural techniques for addressing persistence application performance security functionality user interaction and much more Bernal presents a series of sample architectures drawn from his work with several leading organizations demonstrating how architectures can evolve to support new layers and changing business requirements Throughout his techniques are specific enough to address realistic enterprise challenges while still sufficiently high level to be useful in diverse and heterogeneous environments Coverage includes Choosing persistence frameworks that serve business requirements without excessive complexity Avoiding persistence related problems with performance security or application functionality Designing and deploying effective middle layers and dependent libraries within WebSphere Application Server Using WebSphere mechanisms and architectural techniques to avoid common security attacks such as SQL injection Improving performance with WebSphere Application Server caching including Distributed Maps and Servlet JSP fragment caching Using presentation frameworks to provide fast robust and attractive user interaction Incorporating portals that provide a standardized framework for merging multiple applications Joey Bernal is an Executive IT Specialist with IBM Software Services for Lotus Senior Certified with IBM as an IT Specialist he has an extensive background in

designing and developing Web and Portal Applications He often leads IBM teams that have assisted dozens of clients in leveraging WebSphere Portal to address architecture design and implementation challenges A frequent speaker on WebSphere and portal topics Bernal is coauthor of Programming Portlets and hosts the developerWorks blog WebSphere Portal in Action Prior to joining IBM he was Director of IT for an incentive and performance improvement company and served as lead technical advisor and architect for high profile Internet and intranet applications at several Fortune 500 companies You can also visit the author s Web site at www.bernal.net The IBM Press developerWorks Series is a unique undertaking in which print books and the Web are mutually supportive The publications in this series are complemented by resources on the developerWorks Web site on ibm.com Icons throughout the book alert the reader to these valuable resources

A Complete Guide to Portals and User Experience Platforms Shailesh Kumar Shivakumar,2015-09-25 Build a Next Generation Enterprise Digital Platform with Portals and UXPA Complete Guide to Portals and User Experience Platforms provides in depth coverage of portal technologies and user experience platforms UXPs which form the key pillars of a modern digital platform Drawing on his experience in various roles in numerous portal engagements Department of Homeland Security Appropriations for Fiscal Year 2007 United States. Congress. Senate. Committee on Appropriations. Subcommittee on the Department of Homeland Security,2006 Service Oriented Architecture For Dummies Judith S. Hurwitz,Robin Bloor,Carol Baroudi,Marcia Kaufman,2006-10-25 SOA is the most important initiative facing IT and is difficult to grasp This book demystifies the topic of SOA and makes it accessible to those people who hear the term but aren t really sure what it means It covers what SOA is why it matters how it can impact businesses and how to take steps to implement SOA in a corporate environment

Enterprise Knowledge Portals Heidi Collins,2003 Far beyond simple data archives and streamlined access enterprise knowledge portals represent the future of corporate information management Seamlessly interweaving three essential principles people content and technology an effective portal is the ultimate roadmap to every conceivable permutation of the components in a business s landscape This prescient authoritative book is a vital reference for anyone concerned with harvesting creating distributing or analyzing company information HR executives and IT professionals will learn not only how to create the atlas to their company s universe but also how to define and assign the roles and responsibilities that will ensure long term efficacy and relevance Companies will have the ability to Build technology around knowledge requirements not the other way around Customize desktop access around individual requirements and workstyles Make better decisions as a result of quick access to crucial information Maximize speed efficiency accuracy and flexibility of knowledge transfer

Information Infrastructures within European Health Care Margunn Aanestad,Miria Grisot,Ole Hanseth,Polyxeni Vassilakopoulou,2017-05-10 This book is open access under a CC BY NC 2 5 license The book aims to be a resource for those interested in planning and implementing large scale information infrastructures for novel electronic services in health care The focus of this book is on the pivotal role of the installed base i e

the already existing elements of an infrastructure for ensuing infrastructural development The book presents rich empirical cases on the design development and implementation of core infrastructural components e prescription and public patient oriented web platforms in different national settings across Europe Therefore this is a book in which theoretical insights and practical experiences are tightly connected Contributions have been sourced from a network of academics that have been working on the topic for years and who have previously collaborated and shared a common understanding of the challenges entailed in expanding information infrastructures within healthcare The book aims to become a reference for those seeking theoretical and empirical insights for conceptualizing and steering the evolution of information infrastructures in healthcare The two types of systems e prescription and public patient oriented web platforms have been selected because they are widespread across Europe because they invite comparisons and because they are exemplary of two different types of aims E prescription initiatives are usually seen as opportunities to improve healthcare delivery by systematic and not dramatic change Public patient oriented web platforms are seen as opportunities to pursue wider and more radical innovation This book targets researchers practitioners and students who would benefit from a book providing a comprehensive view to contemporary approaches for the design and deployment of large scale inter organizational systems within healthcare

IBM Websphere Portal 8 Chelis Camargo, Helmar Martens, 2012-09-25 Build a comprehensive web portal for your company with the coverage of full development life cycle with this book and ebook **Designing Portals** Ali Jafari, Mark C. Sheehan, 2003-01-01 Discusses the current status of portals in higher education by providing insight into the role portals play in an institution's business and educational strategy by taking the reader through the processes of conceptualization design and implementation of the portals in different stages of development at major universities and by offering insight from three producers of portal software systems in use at institutions of higher learning and elsewhere *Getting Started with IBM API Connect: Concepts and Architecture Guide* Wisniewski Benjamin, Bhargav Perepa, Ilene Seelemann, Kurtulus Yildirim, Rahul Gupta, Soad Hamdy, Vasfi Gucer, IBM Redbooks, 2016-09-08 Application programming interfaces API act as the digital glue that links services applications and systems together to create compelling customer experiences Using APIs you can create interfaces between back end systems and applications that can help you bring new digital services to market open revenue channels and exceed customer expectations IBM API Connect is an API management solution from IBM that offers capabilities to create run manage and secure APIs and microservices thus managing the full lifecycle of APIs for both on premises and cloud environments This IBM Redpaper™ publication gives a broad overview of APIs and API Connect and covers key considerations for managing the lifecycle of APIs This paper is targeted for owners of an API Connect based API such as C level executives members of the business development teams product managers and technical evangelists For practical scenarios using API Connect refer to the companion IBM Redbooks publication *Getting Started with IBM API Connect Scenarios Guide* REDP 5350 **Smart Geospatial Practices and Applications in Local Government** David A.

Holdstock,2019-12-16 The demand on local government to do more with less by improving operations increasing productivity and making better and more informed decisions increases constantly On a departmental level Geographic Information Systems are helping meet this demand but the majority of local government organizations do not take the time to understand the GIS needs and opportunities of each and every department This book Discusses how towns cities and counties and their specific departments should actually use GIS Explains the best ways to use GIS tools through many specific case studies and step by step instructions Emphasises local government needs first before offering solutions Gives readers a practical and understandable way of thinking about managing and making GIS successful This book is the guide that details best GIS applications and practices for the 34 departments in local government that can and should use GIS technology It explains in details how why and what each department should implement a clear and understandable explanation of departmental GIS
