Architecture At Work Dmjm Design Los Angeles:

Architecture at Work, 2004 **Incorporating Architects** Aaron Cayer, 2025-06-03 By the end of the twentieth century US architecture and engineering firms held more capital than entire countries employed more people than were housed in most cities and rented offices in more nations than comprised the UN Within them architects were designing not single buildings but urban systems including the multinational infrastructures legal codes and financial mechanisms on which those systems came to depend However despite the extraordinary power of these architects their histories remain shrouded in myth and concealed by design This forensic analysis traces a history of architects at one such firm AECOM as they assembled their own multinational corporation and embedded themselves in the operations of American empire after World War II shielding themselves from the instabilities of a postwar political economy *Incorporating Architects* reveals how architects through their businesses more than their drawings or buildings modulated the political economy gripped the reins of their profession and produced the global injustices that define our neoliberal present Laboratory Lifestyles Sandra Kaji-O'Grady, Chris L. Smith, Russell Hughes, 2019-02-05 A generously illustrated examination of the boom in luxurious resort style scientific laboratories and how this affects scientists work The past decade has seen an extraordinary laboratory building boom This new crop of laboratories features spectacular architecture and resort like amenities The buildings sprawl luxuriously on verdant campuses or sit sleekly in expensive urban neighborhoods Designed to attract venture capital generous philanthropy and star scientists these laboratories are meant to create the ideal conditions for scientific discovery Yet there is little empirical evidence that shows if they do *Laboratory Lifestyles* examines this new species of scientific laboratory from architectural economic social and scientific perspectives Generously illustrated with photographs of laboratories and scientists at work in them the book investigates how lifestyle science affects actual science Are scientists working when they stretch in a yoga class play volleyball in the company tournament chat in an on site caf or show off their facilities to visiting pharmaceutical executives The book describes among other things the role of beanbag chairs in the construction of science at Xerox PARC the Southern California vibe of the RAND Corporation Malibu General Atomic La Jolla and Hughes Research Laboratories Malibu and Biosphere 2 s bionauts as both scientists and scientific subjects and interstellar laboratories *Laboratory Lifestyles* the title is an allusion to Bruno Latour and Steve Woolgar s influential *Laboratory Life* documents a shift in what constitutes scientific practice these laboratories and their lifestyles are as experimental as the science they cultivate Contributors Kathleen Brandt Russell Hughes Tim Ivison Sandra Kaji O Grady Stuart W Leslie Brian Lonsway Sean O Halloran Simon Sadler Chris L Smith Nicole Sully Ksenia Tatarchenko William Taylor Julia Tcharfas Albena Yaneva Stelios Zavos Forthcoming Books Rose Arny, 2004 Contract, 2003 *BoogarLists* | *Directory of Commercial Architects*, *Gould Evans*, 2006 **Architecture of the Cape Cod Summer** Michael J.
