*The Loeb Classical Library. No. 307*, James Loeb, 1936      **Medicine and Humanism in Late Medieval Italy** Sarah R. Kyle, 2016-08-12 The Carrara Herbal is an exceptional illustrated book of materia medica therapeutic substances drawn from plants animals and minerals It is exceptional in both its illustrations and its content making it of interest to historians of art and medicine alike The Herbal contains a translation into Paduan dialect of a Latin version of the mid thirteenth century Arabic pharmacopeia Kitab al Adwiya al mufrada The Book of Simple Medicines written by Ibn Sarabi a Christian physician working in al Andalus and known in the Latin West as Serapion the Younger Introduction      **Physiognomy at the**

**Crossroad of Magic, Science, and the Arts** Massimo Ciavolella, Valeria Finucci, Megan Tomlinson, 2024-09-23 The essays examine how the study of facial features or expressions as indicative of character or ethnicity has evolved from the crossroad of magic religion and primitive medicine to present day cultural concern for wellness and beauty In this context the discoveries of cranio facial neurophysiology and psychology and the practice of cosmetic and reconstructive surgery have a centuries old relationship with physiognomy As the study of outward appearances evolved from its classical roots and self representations through 18th and 19th century adaptations in fiction and travelogues it gradually became a scientific discipline Along the way physiognomy was associated with phrenology and craniology and promoted eugenic policies Tainted with racial bigotry and biological determinism it was trapped within questions of delinquency monstrosity and posthumanism Throughout its history physiognomy played both positive and negative roles in the evolution of significant aspects of the socio cultural order in the West that merit update and in depth study The contributions follow a chronological and intertwining sequence to encompass physiognomic expressions in art literature spirituality science philosophy and cultural studies

**Variational Methods for Engineers with Matlab** Eduardo Souza de Cursi, 2015-10-02 This book is issued from a 30 years experience on the presentation of variational methods to successive generations of students and researchers in Engineering It gives a comprehensive pedagogical and engineer oriented presentation of the foundations of variational methods and of their use in numerical problems of Engineering Particular applications to linear and nonlinear systems of equations differential equations optimization and control are presented MATLAB programs illustrate the implementation and make the book suitable as a textbook and for self study The evolution of knowledge of the engineering studies and of the society in general has led to a change of focus from students and researchers New generations of students and researchers do not have the same relations to mathematics as the previous ones In the particular case of variational methods the presentations used in the past are not adapted to the previous knowledge the language and the centers of interest of the new generations Since these methods remain a core knowledge thus essential in many fields Physics Engineering Applied Mathematics Economics Image analysis a new presentation is necessary in order to address variational methods to the actual context      **Gregory of Nyssa as Biographer** Allison L. Gray, 2021-05-17 The theologian Gregory of Nyssa wrote

biographies of his sister a local bishop and Moses Allison L Gray shows that he adapts techniques from Greco Roman biographical writing in these texts to create narratives that are suited to a specifically Christian form of education focused on virtue and scriptural interpretation

*Venus and the Arts of Love in Renaissance Florence* Rebekah Compton,2021-03-11 In this volume Rebekah Compton offers the first survey of Venus in the art culture and governance of Florence from 1300 to 1600 Organized chronologically each of the six chapters investigates one of the goddess s alluring attributes her golden splendor rosy hued complexion enchanting fashions green gardens erotic anatomy and gifts from the sea By examining these attributes in the context of the visual arts Compton uncovers an array of materials and techniques employed by artists patrons rulers and lovers to manifest Venusian virtues Her book explores technical art history in the context of love s protean iconography showing how different discourses and disciplines can interact in the creation and reception of art Venus and the Arts of Love in Renaissance Florence offers new insights on sight seduction and desire as well as concepts of gender sexuality and viewership from both male and female perspectives in the early modern era

**Articulating Difference** Sophie Salvo,2024-10-08 Enriches contemporary debates about gender and language by probing the histories of the philosophy and sciences of language Drawing on a wide range of texts from understudied ethnographic and scientific works to canonical literature and philosophy Sophie Salvo uncovers the prehistory of the inextricability of gender and language Taking German discourses on language as her focus she argues that we are not the inventors but rather the inheritors and adapters of the notion that gender and language are interrelated Particularly during the long nineteenth century ideas about sexual differences shaped how language was understood classified and analyzed As Salvo explains philosophers asserted the patriarchal origins of language linguists investigated women s languages and grammatical gender and literary Modernists imagined feminine sign systems and in doing so they not only deemed sex based divisions to be necessary categories of language but also produced a plethora of gendered tropes and fictions which they used both to support their claims and delimit their disciplines Articulating Difference charts new territory revealing how gendered conceptions of language make possible the misogynistic logic of exclusion that underlies arguments claiming for example that women cannot be great orators or writers While Salvo focuses on how male scholars aligned language study with masculinity she also uncovers how women responded highlighting the contributions of understudied nineteenth century works on language that women wrote even as they were excluded from academic opportunities

*The Body as a Mirror of the Soul* Lisa Devriese,2021-10-05 Physiognomy the history of racial classifications and the interplay between natural philosophy medicine and ethics The idea of the body as a mirror of the soul has fascinated mankind throughout history Being able to see through an individual and drawing conclusions on their character solely based on a selection of external features is the subject of physiognomy and has a long tradition running well into recent times However the pre modern especially medieval background of this discipline has remained underexplored The selected case studies in this volume each contribute to a better understanding of the history of

physiognomy from antiquity to the Renaissance and offer discussions on unedited treatises and on the application development and reception of this field of knowledge as well as on visual sources inspired by physiognomic theory Contributors Enik B k s Hungarian Academy of Sciences Jo l Biard University of Tours Lisa Devriese KU Leuven Maria Fernanda Ferrini University of Macerata Christophe Grellard cole Pratique des Hautes tudes Lu s Campos Ribeiro University of Lisbon Maria Michela Sassi University of Pisa Oleg Voskoboynikov Higher School of Economics Moscow Steven J Williams New Mexico Highlands University Joseph Ziegler University of Haifa Gabriella Zuccolin University of Pavia

Criminalization in Acts of the Apostles Jeremy L. How to Care about Animals , 2023-10-10 An entertaining and enlightening anthology of classical Greek and Roman writings on animals and our vital relationships with them How to Care about Animals is a fascinating menagerie of passages from classical literature about animals and the lives we share with them Drawing on ancient writers from Aesop to Ovid classicist and farmer M D Usher has gathered a healthy litter of selections that reveal some of the ways Greeks and Romans thought about everything from lions bears and wolves to birds octopuses and snails and that might inspire us to rethink our own relationships with our fellow creatures Presented in lively

new translations with the original texts on facing pages these pieces are filled with surprises anticipating but also offering new perspectives on many of our current feelings and ideas about animals Here Porphyry makes a compelling argument for vegetarianism and asserts that the just treatment of animals makes us better people Pliny the Elder praises the virtuosity of songbirds and the virtuousness of elephants Plutarch has one of Circe's pigs from the Odyssey make a serio comic case for the dignity of the beasts of the field Aristotle puts the study of animals on par with anthropology we read timeless Aesopian fables including The Hen That Laid the Golden Egg and The Fox and the Grapes and there is much much more A Noah's Ark of a book How to Care about Animals is guaranteed to charm and inspire anyone who loves animals      **Robert Recorde**, 2012-09-15 The inventor of the equals sign Robert Recorde 1510-1558 was the first English writing mathematics educator this book celebrates his work      *The Natural Philosophy of Plant Form* Agnes Arber, 1970 First published in 1950 this monograph on the morphology of flowering plants explores the relationship between philosophy and botany      Green Worlds in Early Modern Italy Karen Hope Goodchild, April Oettinger, Leopoldine Prosperetti, 2025-10-01 The green mantle of the earth This metaphor is a poetic image that borrows from the vocabulary of weaving and epitomizes the Renaissance interest in fashioning green worlds in art and poetry Here it serves as a motto for a cultural poetics that made representing living nature increasingly popular across Italy in the Early Modern period The explosion of landscape art in this era is often associated with the rise of interest in the literary pastoral narrowly defined but this volume expands that understanding to show Green's broad appeal as it intrigued audiences ranging from the ecclesiastic to the medical and scientific to the humanistic and courtly The essays gathered here explore the expanding technologies and varied cultural dimensions of verdure and verdancy in the Italian Renaissance and thus the role of visual art in shaping the poetics and expression of greenery in the arts of the 16th century and beyond      Plant-Thinking Michael Marder, 2013-02-19 The margins of philosophy are populated by non human non animal living beings including plants While contemporary philosophers tend to refrain from raising ontological and ethical concerns with vegetal life Michael Marder puts this life at the forefront of the current deconstruction of metaphysics He identifies the existential features of plant behavior and the vegetal heritage of human thought so as to affirm the potential of vegetation to resist the logic of totalization and to exceed the narrow confines of instrumentality Reconstructing the life of plants after metaphysics Marder focuses on their unique temporality freedom and material knowledge or wisdom In his formulation plant thinking is the non cognitive non ideational and non imagistic mode of thinking proper to plants as much as the process of bringing human thought itself back to its roots and rendering it plantlike      Routledge Encyclopedia of Philosophy: Index Edward Craig, 1998 Volume seven of a ten volume set which provides full and detailed coverage of all aspects of philosophy including information on how philosophy is practiced in different countries who the most influential philosophers were and what the basic concepts are      **The Routledge Handbook of Philosophy of Colour** Derek H. Brown, Fiona Macpherson, 2020-09-27 From David Hume's famous puzzle

about the missing shade of blue to current research into the science of colour the topic of colour is an incredibly fertile region of study and debate cutting across philosophy of mind epistemology metaphysics and aesthetics as well as psychology Debates about the nature of our experience of colour and the nature of colour itself are central to contemporary discussion and argument in philosophy of mind and psychology and philosophy of perception This outstanding Handbook contains 29 specially commissioned contributions by leading philosophers and examines the most important aspects of philosophy of colour It is organized into six parts The Importance of Colour to Philosophy The Science and Spaces of Colour Colour Phenomena Colour Ontology Colour Experience and Epistemology Language Categories and Thought The Routledge Handbook of Philosophy of Colour is essential reading for students and researchers in philosophy of mind and psychology epistemology metaphysics and aesthetics as well as for those interested in conceptual issues in the psychology of colour

*The Aristotelian Mirabilia and Early Peripatetic Natural Science* Arnaud Zucker, Robert Mayhew, Oliver Hellmann, 2024-02-13 This is the first volume devoted to the sections of the Aristotelian Mirabilia on natural science filling a significant gap in the history of the Aristotelian study of nature and especially of animals The chapters in this volume explore the Mirabilia or De mirabilibus auscultationibus On Marvelous Things Heard and its engagement with the natural sciences The first two chapters deliver an introduction to this work one a discussion of the history of the text and the other a discussion of Aristotelian epistemology and methodology and the role of the Mirabilia in that context This is followed by eight chapters that together are effectively a commentary on those sections of the Mirabilia with close connections to Aristotle's Historia animalium and to a number of Theophrastus scientific treatises Finally the volume ends with two chapters on thematic topics connected to natural science running throughout the work namely color and disease The Aristotelian Mirabilia and Early Peripatetic Natural Science should prove invaluable to scholars and students interested in the ancient Greek study of nature ancient philosophy and Aristotelian science in particular **Antiquarian Bookman**, 1954
