Tunick,Andrew L. Competition Commission,2012-10-18 This report confirms that BAA will be required to sell Stansted Airport followed by Edinburgh or Glasgow Airport Following legal challenges to the CC s 2009 decision ISBN 9780117064836 on the airports market the Commission considered whether there were possible changes of circumstances that might lead to a different conclusion The CC has though concluded that the sale of the airports is fully justified and that passengers and airlines would still benefit from greater competition with the airports under separate owner ship despite the current Government s decision to rule out new runways at any of the London airports The CC has also concluded that the same timescale should remain for the sale of Stansted followed by sale of one of the Scottish airports Stansted will be sold first as it serves the larger number of passengers and there will be a small overlap between the two sales periods **Advances in Production Management**

Automotive FDI in Emerging Europe A. J. Jacobs, 2017-06-19 This book examines the dramatic increase in automotive assembly plants in the former Socialist Central European (CE) nations of Czechia, East Germany, Hungary, Poland and Slovakia from 1989 onwards. Enticed by relatively lower wage labour and significant government incentives, the world's largest automakers have launched more than 20 passenger car assembly complexes in CE nations with production accelerating dramatically since 2001. As a result, the annual passenger car production in Western Europe declined by more than 20% between 2001 and 2015 and alternatively in the CEE it increased by nearly 170% during this period. Drawing on case studies of 25 current and former foreign-run assembly plants, the author presents a rare historical account of automotive foreign assembly plants in the CE following this dramatic geographic shift. This book will expand the knowledge of policy makers in Europe in relation to their pursuits of FDI and will be of great interest to scholars and

students of business economic history political science and development
