Global Peace And Security Wolfram F Hanrieder, 2019-05-20 Focusing on the social economic and political structures of the postwar global order this collection of essays discusses the search for a new international economic order the transformation of the nation state and the international balance of power the technological and strategic dimensions of the nuclear age East West trade and technology transfer
North Atlantic Treaty Organization Phil Williams, 2024-11-01 This volume consists of major books written in the English language on NATO as well as an extensive listing of journal articles that deal with various aspects of the Alliance All the major debates that have taken place over the last forty years are discussed

Professional Journal of the United States Army, 1984 **Military Review**, 1984 The Waning of Major War Raimo Vayrynen, 2013-10-31 This book is a systematic effort by leading international scholars to map the trends in major power warfare and explore whether it is waxing or waning The main point of departure is that major power war as a historical institution is in decline This does not mean though that wars between states are in general disappearing While there is some convergence in the conclusions by individual authors they are by no means unanimous about the trend The articles explore different causes and correlates of the declining trend in major power warfare including the impact of the international structure nuclear weapons international law multilateral institutions sovereignty and value changes Coexistence, Cooperation and Common Security Joseph Rotblat, Laszlo Valki, 1988-07-29 To remove the threat of nuclear annihilation changes in attitudes are required such as the acceptance of the concept of common security to take the place of reliance on nuclear deterrence to keep the peace This book gives an insight into thinking about ways to deal with the crisis *The Geopolitics Of Super Power* Colin S. Gray, 2021-10-21 What is Soviet American competition all about Is the Soviet Union a security problem that the United States must solve Or is it an insecurity condition with which the U S must learn to live and if so on what terms What kind of a player is the United States in the great game of power politics In *The Geopolitics of Super Power* one of our most respected strategic theorists answers these and other questions In geopolitical terms Colin Gray sees the Soviet American antagonism as an enduring contest between a continental empire and a maritime coalition each with its distinctive character and purposes Gray explores the roots of the American style in foreign policy and strategy and how that style relates to defense options He identifies four broad alternatives for U S national security policy passive and active means of containment disengagement from foreign security commitments and the rollback of the Soviet empire Gray argues vigorously for active containment for the systematic deemphasis of nuclear weapons and for the intelligent use for deterrence and defense purposes of the West's great competitive strengths in the political economic and technological spheres Battlefield Nuclear Weapons, Issues and Options Stephen D. Biddle, Peter D. Feaver, 1989-12 Battlefield nuclear weapons BNW have become a major Alliance concern In the wake of the INF Treaty the superpower summit at Reykjavik and

the proposals of Mikhail Gorbachev NATO is reevaluating nearly every aspect of its defense posture This book is designed to contribute to that reevaluation by analyzing what deterrent value BNW have and whether they offer the military capability necessary to offset the potential damage to Alliance cohesion To help sort out answers to these questions CSIA held a conference on BNW organized by fellows Stephen Biddle and Peter Feaver This paper in presenting the results of that conference has three purposes to introduce the issues raised by BNW in the post INF era to present a survey of the specialist debate and to analyze the disagreements underlying the debate Co published with Center for Science and International Affairs Harvard University Rethinking the Nuclear Weapons Dilemma in Europe P. Terrence Hopmann, Dr. Frank Barnaby, 1988-06-18 Parameters, 1990 **Weapons of Mass Destruction** Eric A. Croddy, James J. Wirtz, Jeffrey A. Larsen, 2004-12-22 The first accessible reference to cover the history context current issues and key concepts surrounding biological chemical and nuclear weapons A collection of information on everything from aerosols to zones of peace these two volumes cover historical background technology and strategic implications of biological chemical and nuclear weapons thus providing facts terms and context needed to participate in contemporary policy debate This encyclopedia is the only comprehensive reference dedicated to the three types of weapons of mass destruction With over 500 entries arranged alphabetically volume one covers biological and chemical weapons while volume two focuses on nuclear weapons Experts from eight countries cover issues related to these weapons policies strategies technologies delivery vehicles arms control concepts treaties and key historical figures and locations Entries are written to make difficult concepts easy to understand by cutting through military and scientific jargon Students lay readers scientists and government policy makers are provided with the broad range of information needed to place today's policy discussions in proper strategic or historical context

Strategic Analysis and the Management of Power Olav F. Knudsen, 2016-07-27 The book is a tribute to Johan Jorgen Holst Norway's late Minister of Foreign Affairs It considers the outstanding issues of our time the high politics of East West confrontation and the post Cold War readjustment in Europe Holst contributed significant ideas to the handling of these issues Though representing merely a small state Johan Holst's mastery of the subject matter and authoritative personal presence gave him an influential voice in high level discourse on Western policy during more than two decades **The Nuclear Confrontation in Europe** Jeffrey H. Boutwell, Paul Doty, Gregory F. Treverton, 2020-11-19 Originally published in 1985 this book explores the nuclear confrontation between East and West in Europe where we stand how we got there and what the future may hold Its concluding chapter outlines the prospects for nuclear arms control in Europe and it frames the debate over NATO strategy and the role of nuclear weapons in the years ahead Can NATO reduce its reliance on nuclear weapons Can it cope with the issues at all The chapters on NATO theatre nuclear forces and doctrine provide a rich background to current policy issues The public debate over NATO's 1979 decision to deploy new American cruise and Pershing nuclear missiles in Europe was hardly unprecedented in NATO's history similar controversy surrounded NATO

deliberations in the late 1950s and early 1960s That debate however subsided in the mid 1960s the nuclear question in Europe was relegated to the wilderness though efforts largely unavailing continued within official circles to define more clearly the role of nuclear weapons in NATO s defense Against this backdrop the nuclear debate emerged again in the 1970s This title unravels the military and political considerations at play in that debate and maps the European politics surrounding it Today it can be read in its historical context *The Tenuous Balance* James M Garrett,2019-06-12 The instigation for this book was the author s doubt that the political and military confrontation in Central Europe would remain stable in a serious crisis Uncertainty of success may deter Soviet risk taking forty nine years out of fifty but not in that fiftieth year if Soviet leaders should face an apparent threat to their continued hegemony in *Department of Defense Appropriations for Fiscal Year 1990: National security* United States. Congress. Senate. Committee on Appropriations. Subcommittee on Defense,1989

Blechman,2019-03-05 International Security Yearbook 1984 85 presents an empirical and objective assessment of the events of the year 1984 and 1985 as they affect U S security It seeks to contribute to the national debate on security policies Concurrent Resolution on the Budget for Fiscal Year 1991: National security, February 5, 1990; views of the Secretary of Defense ...
