Barnyard Stories and Poems Artie Kaplan,2001-06 Death The very thought of death haunts us When it comes knocking at our door we desperately try to avoid having to answer it When it enters in to our family everything changes forever Casket A reminder of THE END Once that lid is closed nothing on this side of heaven will ever be able to open it again Grave That one final destination that has only a one way ticket Once the last shovel of soil is thrown on the plot everything is over Every visit to the grave reopens the wounds that seem to never heal But wait What if I told you that the very book that is in your hand can reverse death eliminate the casket and shred that one way ticket to the grave This book can do just that Not in your physical death casket and grave but in your heart and spirit Author Greg Williams will take you on an adventure that describes the horror and tragedy of what is happening in so many Christian lives and churches The good news is that Williams also gives you the tools that you may need to experience a true life changing resurrection in your walk with the Lord Are you tired of tasting the spiritual embalming fluid on your lips during worship feeling the wax cold emotions of Bible study and a comatose prayer life Then this book is for you The next 21 days will change your life forever and help you eliminate what so many people have embraced Body Bag Religion

Narrating Medicine in Middle English Poetry Eve Salisbury, 2022-08-11 Exploring medical writing in England in the 100 years after the advent of the Great Mortality, this book examines the storytelling practices of poets, patients, and physicians in the midst of a medieval public health crisis and demonstrates how literary narratives enable us to see a kinship between poetry and the healing arts. Looking at how we can learn to diagnose a text as if we were diagnosing a body, Salisbury provides new insights into how we can recuperate the voices of those afflicted by illness in medieval texts when we have no direct testimony. She considers how we interpret stories told by patients in narratives mediated by others, ways that women factor into the shaping of a medical canon, how medical writing intersects with religious belief and memorial practices governed by the Church, and ways that regimens of health benefit a population in the throes of an epidemic.
