Bantawa Dictionary:

A Bantawa Dictionary Werner Winter, 2003 Volumes in the Trends in Linguistics Documentation series focus on the presentation of linguistic data. The series addresses the sustained interest in linguistic descriptions, dictionaries, grammars, and editions of underdescribed and hitherto undocumented languages. All world regions and time periods are represented.

A Bantawa Dictionary Werner Winter, 2011-06-24 Bantawa spoken in Eastern Nepal is the most widely used of the Rai languages, an important subgroup of the Kiranti group of Tibeto-Burman languages. This dictionary, based on material obtained in the context of the Linguistic Survey of Nepal, is concise though it stands out as the most voluminous of the few dictionaries and word lists for Rai languages that were hitherto published with English equivalents of native forms provided. The fact that both a Bantawa-English and an English-Bantawa part give access to the forms makes the book an important research tool for specialists in Kiranti languages as well as for scholars concerned with Tibeto-Burman and Nepal studies in general.

Languages of the Himalayas George van Driem, 2022-09-12 The survey work *Languages of the Himalayas* provides a bird's-eye view of Himalayan languages and language communities. It also constitutes a primary source for much new hitherto unpublished data on several languages. The demographic mosaic of the Himalayas today is viewed in a historical and comparative linguistic perspective. The reader will find an outline of the historical and prehistorical developments that have determined the modern ethnolinguistic composition of the Himalayan region involving various independent linguistic stocks or language families. Maps illustrate the distribution of language communities and trace the routes of ancient migrations. There is an illuminating discussion of grammatical features found in Himalayan languages. The print edition is available as a set of two volumes 9789004103900. [Here - Hither - Hence and Related Categories](#) Julia Nintemann, Maja Robbers, Nicole Hober, 2020-07-20 As a follow-up study to the global comparison of spatial interrogatives *Studia Typologica* 20, the present book examines the spatial declarative counterparts which are provided by the expression class of spatial deictic adverbs. In a functionally motivated typological approach, equivalents of Early Modern English *here*, *hither*, *hence*, and *thither* are identified across a sample of 250 languages from all macro areas. These are also quantitatively assessed to extrapolate areal and global trends of coding patterns. The formal relationships between spatial interrogative and spatial declarative paradigms are analyzed with a focus on the syncretism of categories and of individual cells. Qualitative discussions of patterns precede in-depth treatments of problematic cases and other relevant issues related to the research topic. The quantitative results strongly point to areal linguistic trends concerning the distribution of distinct and non-distinct coding of the three spatial relations Place, Goal, and Source. Additional aspects such as quantitative evaluations of constructional complexity are addressed subsequently. *Tocharian Studies* Václav Blažek, 2014-01-01 Kniha je souborem studi v novan ch tocharsk etymologii a gramatice a obsahuje i dva ivotopisn a bibliografick portr ty dvou osobnost tocharistiky Wenera Wintera a Pavla Pouchy. **A Grammar of Jero** Jean Robert Opgenort, 2005-06-01 This description of

Hickey,Stanislav Puppel,2010-12-14 This work presents a collection of some 130 contributions covering a wide range of topics of interest to historical theoretical and applied linguistics alike A major theme is the development of English which is examined on several levels in the light of recent linguistic theory in various papers The geographical dimension is also treated extensively with papers on controversial aspects of a variety of studies as are topical linguistic matters from a more general perspective **Language in Time and Space** Brigitte L.M. Bauer,Georges-Jean Pinault,2011-03-01 The honoree of this Festschrift has for many years now marked modern trends in diachronic and synchronic linguistics by his own publications and by stimulating those of numerous others This collection of articles presents data oriented studies that integrate modern and traditional approaches in the field thus reflecting the honoree s contribution to contemporary linguistics The articles relate to comparative data from early Indo European languages and a variety of other languages and discuss the theoretical implications of phenomena such as linguistic universals reconstruction and language classification

Forgotten Songs and Lost Identities: An Inquiry into Indigenous Experiences Dr. Nawa Raj Subba,2025-09-02 History is not just about books It influences our identities reminds us of our past and shapes who we are It is still clear in Nepal where Nepali society has been formed by combining countless languages cultures and lifestyles Our indigenous communities have carried their traditions for thousands of years but that knowledge and those song story rituals have largely disappeared Some are lost some are mixed with other religions and cultures and some are left in pieces It is this silence that this book seeks to speak of in Forgotten Songs and Lost Identities An Investigation of Indigenous Experiences It s not just a myth or a passionate reminder The piece represents decades of research that has incorporated oral interviews field visits old relics and voices of the elderly in the community This work demonstrates that to know our origins we need not only to read the state written history but we also need to hear the voices that are buried in this earth Nepal s history is often written from the point of view of power He who had the kingdom in his hand used a pen In the process indigenous traditions were interpreted as backward mixed with powerful religions or completely erased The gods of Kirat were sometimes associated with Shiva and sometimes with Buddhist or Christian traditions The names and meanings of the local holy places changed This change undermined not only religion but also the entire cultural identity Losing identity also results in the loss of self esteem

memory and the ability to shape the future Three parts comprise the book The first part deals with the relationship between the Bon religion and the Kirat tradition This shows that Nepal s civilization is not only the result of Aryan culture its roots are even older Words and language serve as evidence of this The second part is about transformation and resistance From the Lichchavi period to Gorkha unification the Kirat identity was suppressed but not completely lost Oral narratives old relics and community struggles show that even before Hinduism or Buddhism came local communities had their own sacred geography The resistance of the Limbu community in particular shows that preserving culture is not only about preserving songs it is also about protecting lives The third section is about colonial free thinking This indicates that the contemporary native people are recovering their identities They are redefining their names in a fresh and innovative manner Even other Limbs have started concentrating on Yakthung as an identity rather than Kirat Much has been said about how this situation came up There are disagreements and debates A significant struggle exists in balancing the preservation of a fundamental identity with the acceptance of a shared history The book attempts to discuss and conclude the two ideas What makes this research special is not just facts but hidden emotions in it When the old people of the village remembered the old songs or told them the customs they felt the pain of the injuries they had suffered The memory was not just an individual but a collective wound As I wrote the author experienced a sense of not only conducting research but also preserving cherished memories Ultimately this book stands on the foundation of both remembrance and solicitation The history of Nepal is not only Aryan Hindu Buddhist or Christian but also that of indigenous peoples And the request is that we all remember and think of it anew and share the chance of making a future The lost songs continue to resonate in the air The lost identities are still alive in resistance and somewhere they are struggling The question is simply are we ready to listen to them

Concise Limbu Grammar and Dictionary Alfons Weidert, Bikram Subba, 1985 *Rai Mythology* Karen H. Ebert, Martin Gaenszle, 2008 The more than two dozen Rai languages in eastern Nepal which make up the larger part of the Kiranti language family are linguistically highly varied This volume for the first time brings together different variants of myths from various Rai languages presenting them with linguistic glossings in interlinear translations *A Bibliography of Nepalese Languages and Linguistics* Sueyoshi Toba, 1998 *Language*, 2003 Proceedings of the annual meeting of the Society in v 1 11 1925 34 After 1934 they appear in Its Bulletin *Harvard Oriental Series*, 2008 **Historical Dictionary of Nepal** Nanda R. Shrestha, Keshav Bhattarai, 2017-02-08 Nepal is a living example of contrasts and contradictions It is a country that was born in medieval times grew up in the 16th century and now finds itself engulfed in the high tech gadgets and material marvels of the 21st century Nepal has its share of problem which include inadequate economic development and social infrastructure poverty and corruption plus worsening pollution but now it finally has relative peace and quiet after a hasty Maoist uprising Indeed it has passed through several democratic elections and finally seems to be getting on the right track This second edition of Historical Dictionary of Nepal contains a chronology an introduction appendixes and an extensive bibliography The

dictionary section has over 700 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about Nepal **Tibeto-Burman Languages of the Himalayas** David Bradley,1997 American Book Publishing Record ,2003

The Sino-Tibetan Languages Randy J. LaPolla,Graham Thurgood,2006-05-17 There are more native speakers of Sino Tibetan languages than of any other language family in the world Records of these languages are among the oldest for any human language and the amount of active research on them both diachronic and synchronic has multiplied in the last few decades This volume includes overview articles as well as descriptions of individual languages and comments on the subgroups in which they occur In addition to a number of modern languages there are descriptions of several ancient languages
