Troxel, 2002-12-09 This book is the first study of the power of the Russian Parliament in the policy process from 1994 2001 within the context of executive legislative relations It challenges the widely held view that between 1994 and 2001 Russia had a presidential system with a strong authoritarian leader who ruled by decree and a weak parliament which did not have much power

Literature, History and Identity in Post-Soviet Russia, 1991-2006 Rosalind J. Marsh, 2007 The aim of this book is to explore some of the main pre occupations of literature culture and criticism dealing with historical themes in post Soviet Russia focusing mainly on literature in the years 1991 to 2006 introd **Television and Presidential Power in Putin's Russia** Tina Burrett, 2010-12-14 As a new president takes power in Russia this book provides an analysis of the changing relationship between control of Russian television media and presidential power during the tenure of President Vladimir Putin It argues that the conflicts within Russia's political and economic elites and President Putin's attempts to rebuild the Russian state after its fragmentation during the Yeltsin administration are the most significant causes of changes in Russian media Tina Burrett demonstrates that President Putin sought to increase state control over television as part of a larger programme aimed at strengthening the power of the state and the position of the presidency at its apex and that such control over the media was instrumental to the success of the president's wider systemic changes that have redefined the Russian polity The book also highlights the ways in which oligarchic media owners in Russia used television for their own political purposes and that media manipulation was not the exclusive preserve of the Kremlin but a common pattern of behaviour in elite struggles in the post Soviet era Basing its analysis predominately on interviews with key players in the Moscow media and political elites and on secondary sources drawn from the Russian and Western media the book examines broad themes that have been the subject of constant media interest and have relevance beyond the confines of Russian politics Media, Culture and Society in Putin's Russia S. White, 2008-04-09 An international collection of papers focused on media culture and society in postcommunist Russia Contributors deploy a wealth of primary data in examining the kinds of issues that are central to our understanding of the kind of system that has been established in the world's largest country after a period of

far reaching change **The State and Big Business in Russia** Tina Jennings, 2021-12-28 This book presents a study of the complex relationship between the Russian state and big business during Vladimir Putin's first two presidential terms 2000-2008. Based on extensive original research, it focuses on the interaction of Russia's political executive with the oligarchs. It shows how Putin's crackdown on this elite group led big business to accept new rules of the game and how this was accompanied by the involvement of big business in policy formulation, particularly through the organisational vehicle of the Russian Union of Industrialists and Entrepreneurs (RSPP). It goes on to discuss why Yukos and its CEO Mikhail Khodorkovsky were targeted by Russia's political authorities and the resultant consequences, namely the end of the relatively successful framework via which state-business relations had been managed and its replacement by fear and mutual distrust, along with a vastly expanded role for the state and state-related actors in the Russian corporate sector. The book explores all these developments in detail and sets them against the context of continued trends towards greater authoritarianism in Russia.

Resolving the Russo-Japanese Territorial Dispute Brad Williams, 2007-06-11 The unresolved territorial dispute between Japan and Russia over the South Kuril Islands (Northern Territories) remains the largest obstacle to concluding a peace treaty and fully normalising bilateral relations between the two nations. This book traces the evolution of transnational relations between subnational public authorities in Hokkaido and Sakhalin, examining the interrelationship between these ties and the Russo-Japanese territorial dispute. The book investigates why the development of Hokkaido-Sakhalin relations has failed to create at the subnational level an environment conducive to resolving the South Kuril Islands (Northern Territories) dispute. Brad Williams suggests that *kankyo seibi* has not worked primarily because Russia's troubled transition to a liberal democratic market economy has manifested itself in ways that have ultimately increased the South Kuril Islands' intrinsic and instrumental value for the Sakhalin public and regional elite. This in turn has limited the impact from the twin transnational processes of cultural and economic exchange in alleviating opposition to the transferral of these disputed islands to Japan. Drawing upon a wealth of primary and secondary sources from both countries, this book utilises levels of analysis and an analytical framework that incorporates national and subnational as well as governmental and non-governmental forces to discuss a relatively unexplored aspect of Russo-Japanese relations. As such, *Resolving the Russo-Japanese Territorial Dispute* will appeal to students and scholars of Asian politics, international relations and post-communist states.
