

What is health?

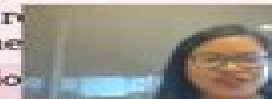

Health is...

- Health can mean different things to different people. The meaning of health varies across different individuals, groups and organisations
- Health is a holistic and encompassing concept. Moves beyond biomedical focused definitions of health, i.e. not merely the absence of sickness, disease and illness

Biomedical vs. population health view

Comparisons

Biomedical view	Population health view
Narrow and targeted	Broad and holistic
Focuses on disease and ailment of organs and bodily functions	Focuses on the structural causes of diseases such as the determinants of health
Focuses on physiological, biomedical and pathological nature of health and disease	Encompassing taking into consideration the mental, physical, social, psychological, cultural, spiritual and emotional wellbeing of individuals and groups
Broken machine that needs fixing	Groups and individuals respond to the determinants of health
Treatment and intervention	Prevention and promotion

Holistic & encompassing definitions of health

- Dimensions of health can encompass the social, cultural, physical, political and economic context of peoples lives. Including spiritual, mental, psychological and emotional wellbeing
- Indigenous perspective of health
 - Includes ones relationship to land, family, community and society

Definition of health

Think about the contributing factors

Health includes (but is not limited to):

- Peace and shelter
- Taxation, economics
- Politics and policy
- Access to the social determinants of health
- Issues of mortality and morbidity
- Adequate housing
