Between the Avant-garde and the Everyday Timothy Brown, Lorena Anton, 2011-07-01 The wave of anti authoritarian political activity associated with the term 1968 can by no means be confined under the rubric of protest understood narrowly in terms of street marches and other reactions to state initiatives Indeed the actions generated in response to 1968 frequently involved attempts to elaborate resistance within the realm of culture generally and in the arts in particular This blurring of the boundary between art and politics was a characteristic development of the political activism of the postwar period This volume brings together a group of essays concerned with the multifaceted link between culture and politics highlighting lesser known case studies and opening new perspectives on the development of anti authoritarian politics in Europe from the 1950s to the fall of Communism and beyond

Protest Cultures Kathrin Fahlenbrach, Martin Klimke, Joachim Scharloth, 2016-03-01 Protest is a ubiquitous and richly varied social phenomenon one that finds expression not only in modern social movements and political organizations but also in grassroots initiatives individual action and creative works It constitutes a distinct cultural domain one whose symbolic content is regularly deployed by media and advertisers among other actors Yet within social movement scholarship such cultural considerations have been comparatively neglected *Protest Cultures A Companion* dramatically expands the analytical perspective on protest beyond its political and sociological aspects It combines cutting edge synthetic essays with concise accessible case studies on a remarkable array of protest cultures outlining key literature and future lines of inquiry

Thaxton, Jr, 2016-08-04 Why is contemporary China such a politically contentious place Relying on the memories of the survivors of the worst catastrophe of Maoist rule and documenting the rise of resistance and protest at the grassroots level this book explains how the terror hunger and loss of the socialist past influences the way in which people in the deep countryside see and resist state power in the reform era up to the present day repression of the People's Republic of China central government Ralph A Thaxton Jr provides us with a worm's eye view of an unknown China a China that cannot easily or fully be understood through made in the academy theories and frameworks of why and how rural people have engaged in contentious politics This book is a truly unique and disturbing look at how rural people relate to an authoritarian political system in a country that aspires to become a stable world power

A Theory of Nonviolent Action Stellan Vinthagen, 2015-11-15 In this ground breaking and much needed book Stellan Vinthagen provides the first major systematic attempt to develop a theory of nonviolent action since Gene Sharp's seminal *The Politics of Nonviolent Action* in 1973 Employing a rich collection of historical and contemporary social movements from various parts of the world as examples from the civil rights movement in America to anti Apartheid protestors in South Africa to Gandhi and his followers

in India and addressing core theoretical issues concerning nonviolent action in an innovative penetrating way Vinthagen argues for a repertoire of nonviolence that combines resistance and construction Contrary to earlier research this repertoire consisting of dialogue facilitation normative regulation power breaking and utopian enactment is shown to be both multidimensional and contradictory creating difficult contradictions within nonviolence while simultaneously providing its creative and transformative force An important contribution in the field A Theory of Nonviolent Action is essential for anyone involved with nonviolent action who wants to think about what they are doing *Key Concepts in Contemporary Literature* Steven Padley,2006-04-27 *Key Concepts in Contemporary Literature* offers a comprehensive overview of the literature and critical debates of the period since 1945 Setting texts in their historical political and cultural contexts it demonstrates how literature has dealt with and been shaped by the changing face of the modern world *Bauman's Challenge* M. and police recognize their mutual humanity as well as how both are needed for a democratic society to function well From the Foreword by Archbishop Desmond Tutu How can large protest crowds be better and more respectfully managed by police This topical book applies the principles of community based conflict resolution to the policing of large crowds suggesting a completely new approach that moves away from the discourse of rabble rousing mobs towards negotiated management and a paradigm of mutual respect for protesters as principled dissenters and for police as non repressive agents of public order Both are needed the authors argue in order for democracy to flourish *Riots and Militant Occupations* Alissa Starodub, Andrew Robinson, 2018-09-07 *Riots and Militant Occupations* provides students with theoretical reflections and qualitative case studies on militant contentious political action across a range from across Europe to Nigeria China and Turkey This multi authored interdisciplinary collection adopts an interpretive and participatory approach to examining meanings affects embodiment identity relationality and space in the context of riots and protests The rapidly shifting terrain of riots and occupations has left existing social scientific theories lagging behind challenging dominant constructions of agency and rationality This book will fill this gap by offering new understandings and critical perspectives on the question of what happens in space in time and between people during and after riots Weaving together observations experiences and analyses of riots from participants theorists and social scientists the authors craft theoretical perspectives in close connection with researched practices These perspectives take the form of new theoretical contributions on the spatiality affectivity and immanent meaning of riots and grassroots qualitative case studies of particular events and contexts Countering the preconceptions of riots as a trail of broken windows burned dumpsters and angry conservatives this book aims to demonstrate that riots are fundamentally creative generating forms of meaning power knowledge affect social connection and participatory space which are rare and sociologically important in the modern world *Feminists and Queer Theorists Debate the Future of Critical Management Studies* Alison Pullen, Nancy Harding, Mary Phillips, 2017-04-24 What is CMS and what is its future is a question that has beguiled and frustrated academics within and outside its community Using ideas from feminist and queer theory here authors aim to generate thinking on the future of CMS and ideas of how scholarly communities can engage in working lives differently *Anarchist Studies*, 2003 **Animal Rights Activism** Kerstin Jacobsson, Jonas Lindblom, 2025-10-01 We re in an era of ever increasing attention to animal rights and activism around the issue is growing more widespread and prominent In this volume Jonas Lindblom and Kerstin Jacobsson use the animal rights movement in Sweden to offer the first analysis of social movements through the lens of Emile Durkheim s sociology of morality By positing social movements as essentially a moral phenomenon and morality itself as a social fact the book complements more structural cultural or strategic action based approaches even as it also demonstrates the continuing value of classical sociological approaches to understanding contemporary society
