Contribution A L Etude Du Voilement Des:

The Lesser Gods of the Sahara Jeremy Keenan, 2004-08-02 The eight essays that comprise this collection cover various aspects of social change and contested terrain amongst the Tuareg people Algeria *Contribution à l'étude de l'Aïr* Institut français d'Afrique noire, 1950 Structural Engineering, Mechanics and Computation A. Zingoni, 2001-03-16 Following on from the International Conference on Structural Engineering Mechanics and Computation held in Cape Town in April 2001 this book contains the Proceedings in two volumes There are over 170 papers written by Authors from around 40 countries worldwide The contributions include 6 Keynote Papers and 12 Special Invited Papers In line with the aims of the SEMC 2001 International Conference and as may be seen from the List of Contents the papers cover a wide range of topics under a variety of themes There is a healthy balance between papers of a theoretical nature concerned with various aspects of structural mechanics and computational issues and those of a more practical nature addressing issues of design safety and construction As the contributions in these Proceedings show new and more efficient methods of structural analysis and numerical computation are being explored all the time while exciting structural materials such as glass have recently come onto the scene Research interest in the repair and rehabilitation of existing infrastructure continues to grow particularly in Europe and North America while the challenges to protect human life and property against the effects of fire earthquakes and other hazards are being addressed through the development of more appropriate design methods for buildings bridges and other engineering structures Stability and Ductility of Steel Structures (SDSS'99) D. Dubin&acaron;, M. Iványi, 1999-08-03 With the gradual development of rules for designing against instability the idea emerged in London in 1974 to hold an International Colloquium treating every aspect of structural instability of steel structures There have been 17 International Colloquia Stability Sessions around the world starting with the first one in Paris in 1972 until with the last one in Nagoya in 1997 In Nagoya it was decided to continue the series of travelling colloquia by launching the Sixth Colloquium in September 1999 with the First Session to be held at the Politehnica University of Timi oara Rom nia which will be followed by another in the year 2000 at the Gediminas Technical University in Vilnius Lithuania a third one during SSRC s Year 2000 Annual Meeting in the US and a fourth one in Australia or New Zealand At present important research projects are in progress around the world like SAC Joint Venture Project in USA INCO COPERNICUS RECOS in Europe and others which are devoted to improve and develop new methods for the safety design of steel structures in seismic zones Special attention is paid in Europe USA and Japan to improve the design codes and detailing of seismic resistant steel structures This was the reason to organise the Session of Nagoya as Stability and Ductility of Steel Structures Colloquium Romania is also a strong seismic territory and therefore the topic of the Timi oara Session covered both stability and ductility problems The technical programme of the SDSS 99 Colloquium in Timi oara has been split into nine working sessions **Report - Naval Ship Research and Development Center** David W.
