The Black Banners (Declassified) Ali Soufan,2020-09-08 The definitive account of an FBI special agent s al Qaeda story unredacted for the first time Widely heralded on publication as a must read Military Review and important window on America s battle with al Qaeda Washington Post Ali Soufan s revelatory account of the war on terror as seen from its front

lines changed the way we understand al Qaeda and how the United States prosecuted the war and led to hard questions being asked of our leaders When *The Black Banners* was published in 2011 significant portions of the text were redacted After subsequent review by the Central Intelligence Agency those redactions have been lifted Their removal corrects the record on how vital intelligence was obtained from al Qaeda suspects and brings forth important new details on the controversial use of enhanced interrogation techniques torture to extract information from terror suspects For many years proponents of the use of these techniques have argued that they produced actionable intelligence in the war on terror This edition of *The Black Banners* explodes this myth it shows Soufan at work using guile and intelligent questioning not force or violence to extract some of the most important confessions in the war and it vividly recounts the failures of the government s torture program Drawing on Soufan s experiences as a lead operative for the FBI and declassified government records *The Black Banners Declassified* documents the intelligence failures that lead to the tragic attacks on New York and Washington DC and subsequently how torture derailed the fight against al Qaeda With this edition eighteen years on from the first sanctioned enhanced interrogation technique the public can finally read the complete story of what happened in their name after the events of 9 11 *The Black Banners Declassified* includes a new foreword from Ali Soufan that addresses the significance of the CIA s decision to lift the redactions

The Most Powerful Doctor Yu Yang,2020-02-26 With a pair of magical eyes and tenacity he is committed to being the best doctor He is born with a pair of eyes that can clearly see through the human body in the dark This special ability has made his dream of being a famous doctor A pair of magical eyes can always find lesions that other doctors cannot see But because he accidentally discovered the secret of his boss his life was severely hit The boss assigned him to work in a very remote place where there were no family members and friends and even his girlfriend broke up with him because of that He was not defeated by setbacks but strengthened his dream of becoming a famous doctor His superb medical skills have been noticed by more and more people and he has since been awarded the title of the most powerful doctor About the Author Yu Yang an outstanding online novelist His rich life experience has provided inexhaustible motivation for his novel creation and his novel plot is as good as writing

Economics of Maritime Business Shuo Ma,2020-06-02 This book provides a comprehensive introduction to the economics of the business of maritime transport It provides an economic explanation of four aspects of maritime transport namely the demand the supply the market and the strategy The book first explains why seaborne trade happens and what its development trends are it then analyses the main features of shipping supply and how various shipping markets function the book finally addresses the critical strategic issues of the shipping business The full range of different types of shipping are covered throughout the chapters and cases The book combines the basic principles of maritime transport with the modern shipping business and the latest technological developments particularly in the area of digital disruption The ideas and explanations are supported and evidenced by practical examples and more than 160 tables and figures The questions posed by the book are similar to those

that would be asked by the students in their learning process or the professionals in the business environment with the answers concentrating on the reasons for what has happened and will happen in the future rather than merely fact telling or any specific forecast The book is most suited for students of shipping related disciplines and is also a valuable reference for maritime professionals
