A Christian Approach To Education Educational Theory And Application:

A Christian Approach to Education Herbert W. Byrne, Herbert W. Byrne, 1986-12 Faith-Based Education That Constructs HeeKap Lee, 2010-08-09 Constructivism is everywhere It is a hot issue at this time in the field of philosophy education technology and religion However can constructivism be an alternative approach in faith based education While some conclude that Jesus knew learning was an active knowledge creating process and that he always encouraged his disciples to think deeply and go beyond the surface level others would find that constructivism undercuts faith based education because of its claims to relativity For example constructivists claim that meaning is imposed on the world by us rather than existing in the world independently from us Thus they proclaim that truth is relative to particular times places and people Christians hold that truth does exist absolutely So how can there be a way forward for faith based educators who see the good in the constructivist approach In Faith Based Education that Constructs readers will find a unique approach whereby constructivism may appropriately be applied to a faith based education setting Although disagreement can occur between constructivism and faith based education this book concludes that constructivist thought and Christian faith based education are in the end congruent and harmonious in significant ways Those faith based educators who continue to hold cautionary views of radical constructivist assertions against absolute truths need not disregard all other aspects of constructivism

God's Schools Melinda Bollar Wagner, 1990 Melinda Wagner goes beyond this stereotype to portray the way these schools foster American popular culture and professional education culture as well as Christian culture In her participant observation study of a variety of Christian schools sponsored by fundamentalist evangelical new charismatic Holiness and Pentecostal Christians Wagner describes and interprets how such compromises are made

Catalogue of Oberlin College for the Year ... Oberlin College, 1919 **Pedagogical Theory of the Hebrew Bible** Dr. Adrian E. Hinkle, 2016-02-10 Every generation must accept the responsibility of training the next Yet are modern Christian pastors and educators using teaching paradigms that impact memory and long term memory retention Pedagogical Theory of the Hebrew Bible is a cross disciplinary book that connects religious education with active learning theory and demonstrates how these two areas are intimately connected within the biblical texts of Genesis through 2 Kings Through vivid discussion of

the literary texts Adrian Hinkle demonstrates that religious educators never used isolated oral stories or instructions. Instead, these are purposefully connected with other learning formats to increase memory retention and ensure each generation experiences the traditions of Yahweh. *Announcement* Columbia University.
