World War II Pacific Island Guide Gordon L. Rottman,2001-12-30 Covering all Pacific islands involved in World War II military operations this book is a detailed single source of information on virtually every geo military aspect of the Pacific Theater Arranged regionally and to the extent possible chronologically according to when islands entered the war entries provide complete background information Along with island names nicknames Allied code names location and wartime time zones the entries include such topics as the island s physical characteristics weather health hazards historical background native population natural resources and military value Japanese and Allied strategies and operations military problems caused by terrain military installations Japanese units and key commanders Allied units and key commanders and brief battle

descriptions are also covered along with the island's postwar status. A valuable resource for researchers, historians, military history enthusiasts and war gamers, the book provides complete background information on the geo-military aspects of the Pacific Ocean region, its islands and the roles they played in the war. 108 maps provide specific information. Until now, geo-military information could only be found by searching four to ten publications on each island. **Kill-Do Not Release**

Douglass K. Daniel, 2025-08-05. **Fighter Writer** reports from major battles in the Pacific highlight what America's Marines endured in World War II. Douglass K. Daniel presents a fascinating trove of previously classified material withheld from the public because of government and public relations concerns at the time, including tactical details that could inadvertently aid the enemy, battlefield gore that could disturb readers, and the gamut of issues of taste. Navy censors in the field and editors at Marine Corps headquarters in Washington were also on alert for any material that could negatively affect the Corps itself or the overall war effort. Soul-searching stories that questioned the nature of war were rejected lest they sow doubt stateside about the cause for which so many lives were being lost. Behind the bylines was a new breed of storytellers. Considered fighter writers, Marine combat correspondents or CCs, carried typewriters as well as weapons. The Marine Corps Division of Public Relations recruited them from America's newsrooms to join the fight that stretched from Guadalcanal and the bloody assault on Tarawa to the black sands of Iwo Jima and the dense jungles of Okinawa. Their approved work appeared in civilian newspapers, magazines and other national and local media. This collection also highlights the unique efforts of the CCs and the public relations officers who commanded them. While they were assigned to report and write, they were Marines first. They eagerly put aside their notebooks to take up arms against the enemy as needed. Many were wounded in battle and more than a dozen were killed, giving their lives to get the story behind the most significant conflict in human history. US Marine Corps Handbook 1941-45. Lieutenant Colonel George Forty OBE, 2006-09-21. Employing a range of archive black and white photographs, this book examines the US Marine Corps organisation and command structure, strategy, tactics and amphibious assault doctrine. Providing biographies of its most influential figures, it also surveys insignia, uniforms and equipment to provide a portrait of the US Marine Corps at war. **Saipan 1944**. John Grehan, Alexander Nicoll, 2021-06-23. A chronological account of the battle with more than 200 photographs, including graphic images of the fighting and the huge naval bombardment. After the astonishing Japanese successes of 1941 and early 1942, the Allies began to fight back. After victories at Guadalcanal, Coral Sea, Midway and other islands in the Pacific, by 1944 the Japanese had been pushed back onto the defensive. Yet there was no sign of an end to the war as the Japanese mainland was beyond the reach of land-based heavy bombers. So in the spring of 1944, the focus of attention turned to the Mariana Islands: Guam, Saipan and Tinian, which were close enough to Tokyo to place the Japanese capital within the operational range of the new Boeing B 29 Superfortress. The attack upon Saipan, the most heavily defended of the Marianas, took the Japanese by surprise, but over the course of more than three weeks, the 29,000 Japanese defenders defied the might of 71,000 US Marines and infantry supported by fifteen

battleships and eleven cruisers The storming of the beaches and the mountainous interior cost the US troops dearly in what was the most costly battle to date in the Pacific War Eventually after three weeks of savage fighting which saw the Japanese who refused to surrender being burned to death in their caves the enemy commander Lieutenant General Saito was left with just 3 000 able bodied men and he ordered them to deliver a final suicide banzai charge With the wounded limping behind along with numbers of civilians the Japanese overran two US battalions before the 4 500 men were wiped out It was the largest banzai attack of the Pacific War As well as placing the Americans within striking distance of Tokyo the capture of Saipan also opened the way for General MacArthur to mount his invasion of the Philippines and resulted in the resignation of the Japanese Prime Minister Tojo One Japanese admiral admitted that Our war was lost with the loss of Saipan This is a highly illustrated story of what US General Holland Smith called the decisive battle of the Pacific offensive It was he added the offensive that opened the way to the Japanese home islands *Fortitudine* ,1994
