

Coriolanus In Context

Marion Gymnich

Coriolanus In Context:

Coriolanus in Context Clifford Chalmers Huffman, 1972 **Family Dramas** Gwyn Daniel, 2018-11-15 Most of Shakespeare's tragedies have a family drama at their heart. This book brings these relationships to life, offering a radical new perspective on the tragic heroes and their dilemmas. **Family Dramas: Intimacy, Power, and Systems in Shakespeare's Tragedies** focusses on the interactions and dialogues between people on stage, linking their intimate emotional worlds to wider social and political contexts. Since family relationships absorb and enact social ideologies, their conflicts often expose the conflicts that all ideologies contain. The complexities, contradictions, and ambiguities of Shakespeare's portrayals of individuals and their relationships are brought to life, while wider power structures and social discourses are shown to reach into the heart of intimate relationships and personal identity. Surveying relevant literature from Shakespeare studies, the book introduces the ideas behind the family systems approach to literary criticism. Explorations of gender relationships feature particularly strongly in the analysis, since it is within gender that intimacy and power most compellingly intersect and frequently collide. For Shakespeare lovers and psychotherapists alike, this application of systemic theory opens a new perspective on familiar literary territory.

Shakespeare and Renaissance Politics Andrew Hadfield, 2014-03-20 Shakespeare, like many of his contemporaries, was concerned with the question of the succession and the legitimacy of the monarch. From the early plays through the histories to *Hamlet*, Shakespeare's work is haunted by the problem of political legitimacy.

Shakespeare and Politics Bruce E. Altschuler, Michael A. Genovese, 2015-11-17 William Shakespeare more than any other author was able to capture the essence of human nature in all its manifestations. His political plays offer enduring insights into our humanity, our vanity, our noble and baser drives, what makes us great and what makes us loathsome. He tells us about ourselves and about our world. This volume gleans valuable lessons from the writings of William Shakespeare and applies them to contemporary politics. Original chapters covering over a dozen different plays take up perennial political themes including power and leadership, corruption and virtue, war and peace, evil and liberty, persuasion and polarization, and empire and global overreach.

Features of the text [Plato's Republic and Shakespeare's Rome](#) Barbara L. Parker, 2004 This study contends that Plato's theory of constitutional decline provides the philosophical core of Shakespeare's Roman works that Lucretia, Coriolanus, Julius Caesar, and Antony and Cleopatra form a Platonic tetralogy collectively spanning the stages of timocracy, oligarchy, democracy, and tyranny; that this decline is prefigured and encapsulated in *Titus Andronicus*; and that all five works are oblique commentaries on England's political milieu. book jacket

Shakespeare and Early Modern Political Thought David Armitage, Conal Condren, Andrew Fitzmaurice, 2009-09-10 This is the first collaborative volume to place Shakespeare's works within the landscape of early modern political thought. Until recently, literary scholars have not generally treated Shakespeare as a participant in the political thought of his time, unlike his contemporaries Ben Jonson, Edmund Spenser, and Philip Sidney. At the same time, historians of political thought have rarely turned their attention to major works of poetry and

drama A distinguished international and interdisciplinary team of contributors examines the full range of Shakespeare's writings in order to challenge conventional interpretations of plays central to the canon such as Hamlet open up novel perspectives on works rarely considered to be political such as the Sonnets and focus on those that have been largely neglected such as The Merry Wives of Windsor The result is a coherent and challenging portrait of Shakespeare's distinctive engagement with the characteristic questions of early modern political thought The Cambridge Shakespeare Guide Emma Smith, Emma Josephine Smith, 2012-03-22 An indispensable reference tool for Shakespeare students and enthusiasts this compact guide provides authoritative summaries of each of Shakespeare's works **Shakespeare and the Classical Tradition** Lewis Walker, 2019-05-24 This bibliography will give comprehensive coverage to published commentary in English on Shakespeare and the Classical Tradition during the period from 1961-1985 Doctoral dissertations will also be included Each entry will provide a clear and detailed summary of an item's contents For poems and plays based directly on classical sources like Antony and Cleopatra and The Rape of Lucrece virtually all significant scholarly work during the period covered will be annotated For other works such as Hamlet any scholarship that deals with classical connotations will be annotated Any other bibliographies used in the compiling of this volume will be described with emphasis on their value to a student of Shakespeare and the Classics The Pleasures and Horrors of Eating Marion Gymnich, 2010-09-15 Browsing through books and TV channels we find people preoccupied with eating cooking and competing with chefs Eating and food in today's media have become a form of entertainment and art A survey of literary history and culture shows to what extent eating used to be closely related to all areas of human life to religion eroticism and even to death In this volume early modern ideas of feasting banqueting and culinary pleasures are juxtaposed with post 18th and 19th century concepts in which the intake of food is increasingly subjected to moral theological and economic reservations In a wide range of essays various images rhetorics and poetics of plenty are not only contrasted with the horrors of gluttony they are also seen in the context of modern phenomena such as the anorexic body or the gourmandizing *la bête humaine* It is this vexing binary approach to eating and food which this volume traces within a wide chronological framework and which is at the core not only of literature art and film but also of a flourishing popular culture Translation Studies and China Haiping Yan, Haina Jin, Paul Gladston, 2023-09-22 Focusing on transculturality this edited volume explores how the role of translation and the idea of untranslatability in the transformative complementation of different civilizations facilitates the transcultural connection between Chinese and other cultures in the modern era Bringing together established international scholars and emerging new voices this collection explores the linguistic social and cultural implications of translation and transculturality The 13 chapters not only discuss the translation of literature but also break new ground by addressing the translation of cinema performance and the visual arts which are active bearers of modern and contemporary culture that are often neglected by academics Our volume is ground breaking in its transdisciplinary attention to the study of translation related to China and such a transdisciplinarity should serve as a

ground breaking leverage for other areas of humanities as well Through an engagement with these diverse fields the title aims not only to reflect on how translation has reproduced values concepts and cultural forms but also to stimulate the emergence of new possibilities in the dynamic transcultural interplay between China and the diverse national cultural linguistic and contexts of Europe the Americas and Asia It shows how cultures have been appropriated misunderstood transformed and reconstructed through processes of linguistic mediation as well as how knowledge understanding and connections have been generated through transculturality The book will be a must read for scholars and students of translation studies transcultural studies and Chinese studies Revisionist Shakespeare P. Cefalu,2004-11-26 Revisionist Shakespeare appropriates revisionist history in order to both criticize traditional transitional interpretations of Shakespearean drama and to offer a new methodology for understanding representations of social conflict in Shakespeare s play and in Early Modern English culture Rather than argue that Shakespearean drama allegorizes historical transitions and ideological polarization Revisionist Shakespeare argues that Shakespeare s plays explore the nature of internally contradictory Early Modern institutions and belief systems that are only indirectly related to competing political and class ideologies Such institutions and belief systems include Elizabethan strategies for the management of vagrancy the nature of Jacobean statecraft objective and subjective theories of economic value Protestant ethical theory and Augustinian notions of sinful habituation The book looks at five of Shakespeare s plays The Tempest Coriolanus The Merchant of Venice King Lear and Hamlet **The Figure of the Crowd in Early Modern London** I. Munro,2005-04-15 The Figure of the Crowd in Early Modern London examines the cultural phenomenon of the urban crowd in the context of early modern London s population crisis The book explores the crowd s double function as a symbol of the city s growth and as the necessary context for the public performance of urban culture Its central argument is that the figure of the crowd acts as a supplement to the symbolic space of the city at once providing a tangible referent for urban meaning and threatening the legibility of that meaning through its motive force and uncontrollable energy Ineffable Bodies Christine Sukic,2025-05-30 Ineffable Bodies focuses on early modern heroism in drama through the notion of ineffability in order to define new dramatic forms Drawing from Vladimir Jank l vitch s studies on the ineffable the book focuses on heroic bodies on the early modern stage as the seat of an aesthetic shift in drama the early modern heroic body testifies to an inability to tell heroic stories Examples are taken from plays by Shakespeare Chapman and Daniel in which martial heroes are placed in a position where they cannot give full sway to their heroic status or are simply revealed as failed heroes The playwrights experiment with action and favour forms that have lost their meaning or contents stressing the mutation from the factual or the material to the immaterial and the ineffable **The Shakespearean International Yearbook: Where are We Now in Shakespearean Studies?** John. M Mucciolo,William R Elton,2017-11-22 This title was first published in 2002 This second volume of The Shakespearean International Yearbook continues the work of assessing the present state of Shakespeare studies in the new millennium

Comprising 20 essays by distinguished scholars from North America the UK and Australia it is divided into sections on criticism and theory text textuality and technology Renaissance ideas and conventions and Shakespeare and the city The essays address issues that are fundamental to our interpretive encounter with Shakespeare including those of gender and sexuality the staging of plays and historical research on matters such as the monarchy language religion and the law

Shakespeare's Tragedies Dieter Mehl, 1986 Twelve plays are examined individually regarding their origins stage and critical histories and the problems associated with their categorization as tragedy **Shakespeare's Rome** Paul A.

Cantor, 2017-07-05 For more than forty years Paul Cantor's *Shakespeare's Rome* has been a foundational work in the field of politics and literature While many critics assumed that the Roman plays do not reflect any special knowledge of Rome Cantor was one of the first to argue that they are grounded in a profound understanding of the Roman regime and its changes over time Taking Shakespeare seriously as a political thinker Cantor suggests that his Roman plays can be profitably studied in the context of the classical republican tradition in political philosophy In *Shakespeare's Rome* Cantor examines the political settings of Shakespeare's Roman plays *Coriolanus* and *Antony and Cleopatra* with references as well to *Julius Caesar* Cantor shows that Shakespeare presents a convincing portrait of Rome in different eras of its history contrasting the austere republic of *Coriolanus* with its narrow horizons and martial virtues and the cosmopolitan empire of *Antony and Cleopatra* with its immortal longings and sophistication bordering on decadence **Mediatic Shakespeare** Richard

Cavell, 2025-09-23 Shakespeare produced his works during a media shift that was unmatched until our own *Mediatic Shakespeare* by media theorist Richard Cavell examines how Shakespeare's writing engaged with the cultural upheaval of an era shifting rapidly from spoken traditions towards print materials Cavell argues that print was an active cultural force that was in the process of reshaping Shakespeare's world and work Nostalgic for oral communality Shakespeare engaged guardedly with print producing a media dynamic that resonates throughout his work Drawing on media theorists from Marshall McLuhan to Friedrich Kittler and Bernhard Siegert Cavell traces Shakespeare's engagement with the effects of a media ecology in which knowing and being were aggressively in flux Structured across four chapters *Mediatic Shakespeare* explores Shakespeare's media ecology the unsettling interfaces of orality and literacy the breakdown of the *sensus communis* and the implications for his work of the printing involution *Shakespeare's Big Men* Richard van Oort, 2016-01-01

Shakespeare's Big Men examines five Shakespearean tragedies *Julius Caesar* *Hamlet* *Othello* *Macbeth* and *Coriolanus* through the lens of generative anthropology and the insights of its founder Eric Gans Generative anthropology's theory of the origins of human society explains the social function of tragedy to defer our resentment against the big men who dominate society by letting us first identify with the tragic protagonist and his resentment then allowing us to repudiate the protagonist's resentful rage and achieve theatrical catharsis Drawing on this hypothesis Richard van Oort offers inspired readings of Shakespeare's plays and their representations of desire resentment guilt and evil His analysis revives the

universal spirit in Shakespearean criticism illustrating how the plays can serve as a way to understand the ethical dilemma of resentment and discover within ourselves the nature of the human experience **Shakespeare Survey** Stanley Wells, 2002-11-28 The first fifty volumes of this yearbook of Shakespeare studies are being reissued in paperback

Political Metaphor Analysis Andreas Musolff, 2016-08-25 Political metaphors and related figurative discourse tools are characterised by their variability and contentiousness Using them discourse participants try to gain competitive advantage over others by offering their audiences new meaning nuances challenging each other and announcing political initiatives It is here that metaphor as a means to change meanings and thus to change social and political reality comes into its own Political Metaphor Analysis provides an innovative approach to the study of figurative language use in political discourse by presenting empirical analyses based on a large corpus of political metaphors and metonymies linking these analyses to theoretical positions and assessing their limitations and perspectives for further exploration The classic model of conceptual metaphor analysis pioneered by Lakoff and Johnson 1980 and expanded and amended over the past thirty five years is critically examined with regard to new findings about the variation historicity pragmatic exploitation comprehension and interpretation of metaphors As a central new analytical category the notion of metaphor scenario is proposed and tested against various sub sets of data It allows to link hypothesised conceptual metaphors to narrative argumentative and evaluative patterns in actual discourse and understanding processes so that their cognitive significance can be more reliably gauged and theoretically modelled

Enjoying the Tune of Appearance: An Mental Symphony within **Coriolanus In Context**

In a world eaten by screens and the ceaseless chatter of instantaneous connection, the melodic beauty and mental symphony developed by the prepared word often disappear in to the back ground, eclipsed by the persistent noise and distractions that permeate our lives. Nevertheless, nestled within the pages of **Coriolanus In Context** a stunning fictional value overflowing with natural feelings, lies an immersive symphony waiting to be embraced. Constructed by an elegant musician of language, this fascinating masterpiece conducts viewers on an emotional journey, skillfully unraveling the concealed songs and profound influence resonating within each carefully crafted phrase. Within the depths of the touching examination, we shall examine the book is main harmonies, analyze their enthralling publishing model, and surrender ourselves to the profound resonance that echoes in the depths of readers souls.
