Copyhold, Equity, and the Common Law Charles Montgomery Gray, 1963 *Harvard Historical Monographs*, 1932

Tudor England, *Sir Edward Coke and the Elizabethan Age* Allen D. Boyer, 2003 Sir Edward Coke 1552-1634 the first judge to strike down a law gave us modern common law by turning medieval common law inside out Through his resisting strong minded kings he bore witness for judicial independence Coke is the earliest judge still cited routinely by practicing lawyers This book breaks new ground as the first scholarly biography of Coke whose most recent general biography appeared in 1957 and draws revealingly on Coke's own papers and notebooks The book covers Coke's early life and career to the end of the reign of Elizabeth I in 1603 a second volume will cover Coke's career under James I and Charles I In particular this book highlights Coke's close connection with the Puritans of England his learning legal practice and legal theory his family life and ambitious dealings and the treason cases he prosecuted *Sir Edward Coke and "The Grievances of the Commonwealth," 1621-1628* Stephen D. World of the Small Farmer Patricia Croot, 2017-06-01 This detailed and original study of early modern agrarian society in the Somerset Levels examines the small landholders in a group of sixteen contiguous parishes in the area known as Brent Marsh These were farmers with lifehold tenures and a mixed agricultural production whose activities and outlook are shown to be very different from that of the small peasant farmers of so many general histories Patricia Croot challenges the idea that small farmers failed to contribute to the productivity and commercialization of the early modern economy While the emergence of large capitalist farms was an important development these added to the production of existing small cultivators rather than replacing them The idea that only large scale specialized farmers were involved in agricultural progress or that their contribution alone was enough to account for the great increase in food production by the late 17th century is questioned small farmers continued to make a living contributed to the market and survived alongside the new bigger farms Croot's in depth study not only adds to our knowledge of agrarian society generally but shows that far from being backward and interested primarily in subsistence farming small producers in this area sought profit in making the best use of their resources however limited being flexible in their production and growing new or unusual crops The main land tenures copy and lease for lives are also covered in detail contributing to current debates on landholding and sub tenancy The author shows the uses to which lifehold tenures could be put resulting in the increasing financial strength of copyholders and their dominance in local society The effects of the tenure and profits of farming can be seen in the way that families were provided for as well as in the roles that women played and the responsibility they had in economic and social life while the wider interests of the inhabitants are shown in their religious

and political engagement in events of the 17th century Patricia Croots meticulous study is a valuable contribution to English agrarian history and in particular to the history of this under researched region *Catalog of Copyright Entries. Florentine Public Finances in the Early Renaissance, 1400-1433 Anthony Molho, 1971 In his application of statistical methods to history Mr Molho offers a new approach to the study of Florentine politics Scholars have long recognized that Florence s deficit financing of its wars of independence against the Visconti of Milan had far reaching economic political and social effects but this is the first document based history to provide concrete support for that general knowledge Focusing on the governmental and fiscal agencies of Florence as well as a number of memoirs and account books written by Florentine citizens Mr Molho has gathered and statistically reconstructed much archival material on Florentine taxation public income and expenses He concludes that between 1423 and 1433 Florence underwent a prolonged and vast fiscal crisis that affected both the fiscal structure of the city and its constitutional and institutional framework His work thus sheds new light on Cosimo de Medici s rise to power in 1434

Congressional Insurgents and the Party System, 1909-1916 James Holt, 1967 James Holt offers a new answer to the question What happened to progressivism in the Republican party The battles over the Payne Aldrich tariff the powers of Speaker Cannon military preparedness the elections of 1912 and 1916 and Wilson s New Freedom are used to exemplify the attempts of insurgent Republican Senators to reconcile progressive ideals with party commitment But these men Robert La Follette Albert Cummins George Norris and William Borah among them found that on the national level their efforts aided only the Democrats and that a third party was precluded by their own partisanship and their dependence on Republican constituencies

The Parisian Order of Barristers and the French Revolution Michael P. Fitzsimmons, 1987 This investigation not only revises what historians have long thought of the attitude of barristers toward the French Revolution but also offers insights into the corporate character of Old Regime society and how the Revolution affected it Fitzsimmons s study suggests that many propertied commoners during the Revolution were not politically engaged that they were not necessarily associated with a party or cause simply because of their place within a set of social relationships
