Cornelia Sollfrank Netart Generator Programmed Seduction:

Net.art generator Cornelia Sollfrank, 2004 The German artist hacker and cyberfeminist Cornelia Sollfrank gained notoriety with her Net Art Generator www.obn.org/generator which allows users to enter a few keystrokes and create a work of art Sollfrank's real goal is to challenge the concept of authorship in an age where appropriation is as common as the click of a mouse and this monograph provides a detailed discussion of one of the Net's pioneering artist theorists *Sexing Code* Claudia Herbst, 2009-05-05 Critically investigating the gender of programming in popular culture *Sexing Code* proposes that the de facto representation of technical ability serves to perpetuate the age old association of the male with intellect and reason while identifying the female with the body Challenging this division in which code is situated within the male sphere the discussion highlights women's contributions in the writing and theorizing of code particularly in the digital arts hacking and hacktivism Presenting an accessible and lively discussion *Sexing Code* demonstrates that the gendering of programming selectively confers the privilege of authorship and is therefore a salient factor in the production of culture in the twenty first century
